This handbook is published by the School of Nursing and is designed for use by students, staff and faculty. The School of Nursing reserves the right to change, at any time and without notice, any of its degree requirements, policies, course descriptions, and requirements, and any other information contained in this handbook. PhD and DNP students also receive a handbook with information about qualifying examinations, proposal, and dissertation preparation and registration. Programs are registered with The State Education Department, University of the State of New York, Deputy Commissioner for the Professions, Office of Professions, Albany, New York 12230 (518-474-3862) and are accredited by the Commission on Collegiate Nursing Education (CCNE), 655 K Street, NW, Suite 750, Washington, DC 20001 (P: 202-887-6791, F: 202-887-8476).

The University of Rochester is committed to fostering, cultivating and preserving a culture of diversity and inclusion. The University believes that a diverse workforce and inclusive workplace culture enhances the performance of our organization and our ability to fulfill our important missions. The University is committed to fostering and supporting a workplace culture inclusive of people regardless of their race, ethnicity, national origin, gender, sexual orientation, socio-economic status, marital status, age, physical abilities, political affiliation, religious beliefs or any other non-merit fact, so that all employees feel included, equal valued and supported.
2019-20 ACADEMIC CALENDARS

Note: APNN student calendars/schedules are slightly different.

Fall Semester 2019
Classes begin — Wednesday August 28 (APNN classes begin Sept 3)
Convocation — Tuesday, September 3
Fall Term Break — Monday, October 14
Classes Resume — Tuesday, October 15
Thanksgiving Recess (at close of classes) — Wednesday, November 27
Classes Resume — Monday, December 2
Last Day of Classes — Wednesday, December 11
Final Examinations End — Monday, December 16

Spring Semester 2020
Classes Begin — Wednesday, January 15 (APNN classes begin on Monday, January 13)
Spring Break Begins — Monday, March 9
Classes Resume — Monday, March 16
Last Day of Classes — Thursday, April 29
Final Examinations End — Friday, May 8
SON Commencement Weekend — Friday, May 15

Summer Semester 2020
Classes Begin — Monday, May 11 for the SEPT and JAN APNN cohorts, Monday, May 18 for the MAY APNN cohort and all other programs
Memorial Day (no classes) — Monday, May 25

EMERGENCY NUMBERS

Medical Emergency
Dial x 13
Security will always respond. Based on the conversation we have from the caller, we will determine who else, such as an ambulance, fire department, police, should be called. It is also helpful to know what experience the caller has and what the problem is, i.e., “I am an RN and we have a male, in his 50’s, experiencing chest pains, we need an ambulance.”

Fire
Dial x 13 for Security
Remember:
- R – rescue
- A – alarm
- C – confine
- E – extinguish/evacuate

Security Concerns
- Dial x 13 – for emergency situations/concerns
  Dial x 5-3333 – for non-emergency situations/concerns

SECTION I: BACKGROUND INFORMATION ON THE UNIVERSITY OF ROCHESTER MEDICAL CENTER AND SCHOOL OF NURSING

Medical Center and School of Nursing

Strong Memorial Hospital, Golisano Children’s Hospital, the School of Nursing (SON), the School of Medicine and Dentistry, the Eastman Institute for Oral Health, and the James P. Wilmot Cancer Center comprise the University of Rochester (UR) Medical Center. Founded in 1925, the SON became the eighth autonomous academic division of the University in 1972. A five-year grant from the Kellogg Foundation assisted in establishing the School as a unique center for excellence in nursing education, practice, and research. Faculty members of the School are clinicians in Strong Memorial Hospital or other agencies, teachers in the academic programs, researchers in nursing, and administrators in the nursing programs of the Medical Center. The integration of these four professional activities strengthens each of them. These faculty members provide leadership roles in patient care and its administration, and are role models for their students.

Essential to the goals, the philosophy, and the programs of the SON is the excellent relationship nursing and medicine generally enjoy and cultivate. Many nurse practitioners and clinicians work with physician colleagues in education, practice, and research. This enriches the teaching-nursing climate and encourages students and faculty to generate hypotheses for clinical research to improve the practice of nursing.

Strong Memorial Hospital is a major regional health care institution and is the University’s primary teaching hospital for nursing students, medical students, residents, and fellows. It has 830 beds. An innovative pattern of nursing utilizes the clinical talents of nurses in direct patient care, in managing programs, serving on joint practices committees and in collaborative management and decision-making, while non-nurses provide supportive services. All contribute to implementing high quality nursing programs. The Edward G. Miner Library in the Medical Center contains over 275,000 volumes and 25,000 electronic journals in the fields of nursing, medicine and psychiatry, and provides a full range of services to the faculty, students, and staff of the Medical Center.

Mission and Vision Statements

The overriding philosophy of the School of Nursing is the unification of education, research and practice. The Unification Model supports the University of Rochester School of Nursing Mission and Vision:

Our Mission:

Building on a pioneering tradition of unifying nursing education, research, and practice, the UR School of Nursing pursues excellence in clinical and scientific learning, discovery, and nursing care within an environment of diversity and inclusion.

Our Vision:

Lead the national agenda in transforming the discipline of nursing through innovative education, practice and research to improve the health and well-being of individuals and communities.

The educational programs of the school will:

- Produce leaders who, with their developing expertise in critical thinking and ethical decision making, provide care that is evidence-based, culturally congruent, collaborative and interdisciplinary for diverse individuals, groups and populations; value and respect diversity; practice nursing in a culturally sensitive manner.
Produce leaders who, with their developing knowledge and skills, participate in research for the improvement of health care and the advancement of science, practice, and education.

Produce scholars who are prepared to engage in lifelong learning and teaching.

Students will choose to come to the University of Rochester School of Nursing because:

- They want to be educated in an environment that is driven by the needs of integrated health care delivery systems and that drives the future development of effective and efficient health care delivery models.
- They want the opportunity to learn and work in collaboration with other health care practitioners in an academic setting.
- They want an education that prepares them as excellent practitioners and researchers while valuing the complexity of their life needs.

STATEMENT OF PHILOSOPHY

The University of Rochester School of Nursing prepares leaders to meet the challenges of health care in the twenty-first century. Our philosophy includes beliefs about unification, education, research and scholarly productivity, practice, nursing, consumers and health.

The Unification Model directs nursing education, research and practice. Unification is not only a philosophical approach but also an organizational structure which operationalizes the interdependence among education, research and practice. Education empowers nurses with knowledge, attitudes and skills for leadership in professional practice and research. Research develops nursing knowledge to strengthen education and promote evidence-based practice.

The Practice of nursing is care delivery and promotes continued excellence through the generation of new research questions and the enrichment of the education experience. The ongoing interaction of education, research and practice benefits the consumer by ensuring quality nursing care.

Education is a dynamic, interactive process between learners and teachers utilizing the theoretical and scientific knowledge of the discipline and building upon the liberal arts background. A rigorous
professional education with the breadth and perspective of the arts and sciences prepares leaders in nursing who shape current and future responses to ethical, political, economic, health and nursing issues. Critical thinking and decision-making are basic to the delivery of health care. The learner/teacher relationship fosters mutual respect, individuality, self-direction, collaboration, scholarship and commitment to lifelong learning. Educational programs focus on the ongoing professional and career development of practicing nurses through degree and non-degree programs. Creative, flexible programming in education is essential to meet the diverse and changing needs of learners, teachers and the nursing profession.

- **Research and Scholarly Productivity:** Scholarly activity has as its outcome the generation, testing, refinement, and dissemination of new knowledge. Scholarly activities value and support the overall research efforts of the School, by assisting in the testing of new knowledge through the collection of data, identification of clinical problems for investigation, and application of clinical findings to patient care. Research is a scholarly activity, which generates and tests new knowledge based on rigorous scientific methods.

- **Clinical Practice** is defined as a direct or indirect care activity which has as its central focus the actual and potential consumers of nursing care services. The consumers may be individuals, groups, families or communities, and the service needs of consumers may involve direct and/or indirect care interventions. Direct care involves specific interaction with the consumer and is aimed toward the restoration, maintenance, or promotion of optimal health and functioning for the consumer. In contrast, indirect care promotes the health of the consumer by structuring, developing and managing the environmental, economic, and human resources required for the provision of nursing care services. These include such activities as consultations, supervision, administration, committee work, and staff development. Advanced practitioners provide expert clinical care using a conceptual as well as an experiential knowledge base. Clinical practice may include major administrative responsibility for improving the quality and cost-effectiveness of patient care services.

The essence of nursing is assisting consumers to attain and maintain optimal health and to cope with illness and disability and dying. Nursing derives its rights and responsibilities from society and is, therefore, accountable to society as well as the consumers who comprise it. The nurse functions as a caring professional in both autonomous and collaborative professional roles, using critical thinking, ethical principles, effective communication, and deliberative action to render and facilitate access to health care, and to aid consumers in making decisions about their health.

Consumers of nursing care may be individuals, families or communities, all of whom have diverse and changing needs. Consumers are self-determining and have the rights to informed choice and access to health care. Any setting in which consumers function is an appropriate environment for nursing practice. Consumers ultimately define health for themselves and make decisions regarding it. Components of optimum health may include biological, psychological, social, cultural and spiritual functioning, effective response to a continually changing environment, and achievement of personal potential.

**Organization of the School of Nursing**

The organizational structure for the SON promotes communication, participation in decision-making, and integration of the SON into the general overall structure of the University and the Medical Center in which nursing assumes accountability in three areas: education, practice, and research. The SON, through its administrative deans, relates to University Officers on the River Campus, to the Dean of the School of Medicine and Dentistry and CEO of the UR Medical Center, to the UR President and to the Chief Executive Officer of Strong Memorial Hospital. The Chief Nursing Executive in the Medical Center is vested with overall responsibility and accountability for all of nursing within the Medical Center.

General administrative leadership for the School is provided by the Dean, Associate Deans, and Directors of the Baccalaureate, Master’s, and Doctoral Programs. Their roles are to promote the mission of the School for academic excellence, high-quality practice, and sophisticated research. The processes of
exploration, discussion, questioning, analysis, negotiation, and consensus best describe the administrative effort.

Educational Programs

Baccalaureate. The Baccalaureate curriculum leads to the Bachelor of Science degree at the UR.

Registered nurses who have graduated from hospital diploma programs or associate degree programs apply for admission directly to the RN completion baccalaureate program (RN to BS). The School also has an RN to BS to MS program. Registered nurses admitted to this program earn both the BS and MS degrees.

Students who have a non-nursing baccalaureate degree are eligible to apply to the Accelerated Bachelor’s Program for Non-Nurses (or the Accelerated Master’s [NP only] Program for Non-Nurses), or to the Leadership in Healthcare Systems Master’s Program Health Care Organization Management and Leadership concentration (RN to BS to MS/HCM).

Seniors in high school may be admitted to the Dual Degree in Nursing program (DDN). https://enrollment.rochester.edu/professional/ddn/

Master’s and Post-Master’s. Graduate specialties in the School offer concentrations leading toward the Master of Science degree.

Nurse Practitioner specialties include Adult-Gerontology Acute Care Nurse Practitioner, Adult-Gerontology Primary Care Nurse Practitioner, Pediatric Nurse Practitioner, Pediatric Nurse Practitioner/Neonatal Nurse Practitioner, Family Nurse Practitioner, and Family Psychiatric Mental Health Nurse Practitioner.

Advanced clinical nursing at the Master’s level involves analysis, synthesis, and application of knowledge and skills relevant to a defined specialty area of clinical practice. The dynamic interaction between the educational program and the learner facilitates progressive levels of mastery of the nursing process. Graduate education has as its ultimate purpose the scholarly pursuit of knowledge about people in their quest for health and recovery from illness and about the consequences of nursing care provided to them. Research is an integral part of education at the Master’s level. An attitude of scientific inquiry is fostered as an essential component of practice. Research at this level emphasizes the utilization of findings, the identification of researchable problems, and the implementation of the research process.

Additional post-Master’s certificates are available for registered nurses with a prior advanced practice Master’s. These programs are described in detail in Section V.

Leadership in Health Care Systems Master’s Programs. The Health Care Organization Management and Leadership (HCM) and Clinical Nurse Leader (CNL) specialties are described in Section VI.

The Master’s in Nursing Education (MNE) program is described in detail in Section VII. This program is designed to prepare nurse educators for the future. Nurse educators are in significant demand to fill positions in academe, professional development, and patient education. Nurse educators also need to have practical experience in teaching. The MNE program offers several courses that include supervised teaching practica. A post Master’s certificate in nursing education is also offered.

Master’s and PhD Dual Degree. This program is targeted to highly qualified nurses with a bachelor’s degree in nursing interested in an intensive, accelerated program simultaneously offering master’s preparation as a nurse practitioner and research training. The programs are designed to fast-track nurses wishing to prepare for roles either in clinical practice settings or schools of nursing as faculty/practitioners. Faculty/practitioners use an evidence-based approach to their practice, help educate future advanced
practice nurses, and conduct clinical/health services research to build research evidence for practice in their specialty area.

Master’s and DNP Dual Degree. This program is targeted to highly qualified nurses with a bachelor’s degree in nursing interested in a combined advanced practice nursing degree (NP) or advanced nursing degree (CNL). These doctorally-prepared nurses will serve as practice leaders to improve the quality, outcomes and delivery of care within their respective specialty areas.

PhD. The PhD Program in Nursing and Health Science began in 1979 (as a PhD in nursing). The objective of the PhD program is to prepare scholars who will develop and refine the evidence base for clinical practice and contribute to the dissemination, teaching, and advancement of research in academic and clinical settings and in national and international arenas. The program consists of four components: core courses in research and theory building, courses individually selected to support the student’s research interests, research and teaching assistant experiences, and the dissertation. The program content is directed toward the formulation and testing of theory; the designs, methods and tools for conducting research on topics related to health and illness; and the development and critique of scientific and humanistic knowledge appropriate to the care of persons in health and illness. The PhD program research training process is based on clinical expertise at the master’s level. Applicants to the PhD Program hold a Master’s degree from an accredited program and clinical licensure in a health profession, such as nursing, social work or similar clinical practice field.

DNP. The Doctor of Nursing Practice program at the University of Rochester School of Nursing is designed to prepare nurses at the highest level for advanced clinical practice. The program develops leaders who can critically evaluate the evidence base for care and facilitate the translation and integration of research into clinical practice, deliver such care, position health care policy, manage clinical health care systems, solve health care dilemmas, work skillfully as members of interdisciplinary teams, and reduce disparities in health care. This program is designed to facilitate students’ full engagement in the learning process and their pursuit of clinical excellence. It is designed as a post-baccalaureate program, however, students may also enroll post master's; their master's courses will be transferred into the program.

Goals and Objectives

The goals and objectives for the Baccalaureate educational programs

<table>
<thead>
<tr>
<th>The goals of the Baccalaureate Program are to:</th>
<th>After successful completion of the Baccalaureate Program, the graduate will be able to:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prepare registered professional nurses who are capable of independent and collaborative problem-solving, decision-making, and the delivery and coordination of care to meet a wide range of client health care needs.</td>
<td>1. Integrate knowledge from the humanities, natural sciences and social sciences in the practice of professional nursing. 2. Provide patient-centered care that is respectful of differences, values and expressed needs; involves patients in decision making; is coordinated; and promotes optimal health. 3. Practice in a safe, caring, responsible and accountable manner in accordance with professional ethics and acceptable standards of nursing practice. 4. Demonstrate skills in critical thinking and decision making in the use of the nursing process with individuals, families, groups and communities experiencing complex health problems. 5. Demonstrate skill in interdisciplinary collaboration and delegation in designing, managing and coordinating health care of individuals, families and groups. 6. Use quality improvement principles and information technology to communicate and manage knowledge, prevent errors and support decision making to improve patient outcomes.</td>
</tr>
</tbody>
</table>
| Providers who base clinical care, decision making, and clinical services on scientific evidence which is grounded in careful analysis of the unique needs of the individual, group or population. | 1. Integrate theory and research into interdisciplinary practice that is patient centered and culturally competent. 
2. Demonstrate clinical competence in a specialty that is grounded in the principles of ethical advanced nursing practice. 
3. Use information technology and informatics to advance safe and effective advanced nursing care. 
4. Lead evidence-based initiatives to improve patient outcomes. |
|---|---|
| Providers who are actively engaged in scholarship through the clinical application of existing knowledge, and the generation and dissemination of new clinical knowledge. | 1. Critically analyze problems (clinical, systems, public policy and professional practice) to develop innovative solutions. 
2. Apply strategies (including best practice initiatives, performance improvement, and quality assurance activities) to improve patient care and health systems. 
3. Apply principles of leadership, including participation in professional organizations, to shape policies that affect health care, education, practice and research. 
4. Advocate effectively for self, patients and the profession. |
| Providers who maintain competence in their specialty through formal and informal educational opportunities, specialty certification and who promote the ongoing education of others. | 1. Develop professional goals that reflect a commitment to professional development, lifelong learning and scholarship. 
2. Participate in the education of others. 
3. Facilitate the professional advancement of others. |

**Goals**

Produce clinical leaders whose expertise in critical thinking and ethical decision making will provide care that is evidence-based, culturally congruent, collaborative, and interdisciplinary for diverse individuals, groups, and population; value and respect diversity; practice nursing in a culturally sensitive manner.

**Objectives**

1. Lead the delivery and evaluation of high quality, evidence-based, and patient-centered care.
2. Organize interprofessional and intraprofessional teams to improve patient and population health outcomes.
3. Integrate information technology into the management, application, and evaluation of new knowledge in the support and improvement of patient care and care systems.
4. Advocate for quality health care via political activism and policy change.

Produce nurse leaders whose knowledge and skills will prepare them to participate in research and dissemination of research, for the improvement of health care, and the advancement of science, practice, and education.

**Objectives**

1. Provide organizational and systems leadership for quality improvement and systems thinking.
2. Synthesize research findings to develop and/or refine practice guidelines that improve practice and the practice environment.
3. Design and implement processes to evaluate outcomes of practice and systems of care.
4. Integrate information technology into the management, application, and evaluation of new knowledge in the support and improvement of patient care and care systems.

| Produce clinical scholars who are prepared to engage in lifelong learning and teaching | 1. Lead the delivery and evaluation of high quality, evidence-based, and patient-centered care.  
2. Mentor students and clinicians in professional settings.  
3. Disseminate clinical knowledge through presentations and publications. |

The goals and objectives of the PhD program

<table>

</thead>
</table>
| Scholars who develop and refine the evidence base for culturally congruent collaborative health care of individuals, groups, and populations. | 1. Critique, synthesize, and apply theory and research evidence on clinically relevant issues and problems.  
2. Articulate the contributions of the graduate's own research and that of his/her discipline. |
| Scientists who design, conduct, and critique research for the improvement of health care and the advancement of theory and practice. | 1. Design, execute, and disseminate clinical research that is:  
• Rigorous  
• Ethical  
• Theoretically congruent  
• Clinically and socially significant |
| Leaders and mentors who contribute to the dissemination, teaching, and advancement of research in academic and clinical settings and in national and international arenas. | 1. Demonstrate progression toward a leadership role in health science research, education, and policy.  
2. Recognize importance of mentoring students and facilitating professional advancement of colleagues in clinical and educational settings.  
3. Disseminate information through scholarly presentations and publications to promote the growth of the profession. |

School of Nursing Alumni Association

The Office of Advancement and Alumni Relations at the School Nursing helps to promote communication between alumni and the School, hosts events, recognizes outstanding volunteers, and enhances alumni support for the School. Today, the Alumni Office sponsors a number of programs, including regional gatherings, Meliora Weekend reunion events, special alumni receptions, student/alumni activities, alumni communications, and fundraising efforts.

The Alumni Office is located in the Larry and Cindy Bloch Alumni and Advancement Center, 300 East River Road, Suite 207, Box 278996, Rochester, NY 14627. For any questions, please contact Tim Sukhenko, Director of Alumni Relations at 585-276-4980.

Thanks,

Sigma Theta Tau International (Nursing Honor Society)

Sigma International Honor Society of Nursing

The mission and vision of Sigma International Society of Nursing are advancing world health and celebrating nursing excellence in scholarship, leadership, and service, and to be the global organization of choice for nursing. Our local Sigma chapter at UR SON is the Epsilon Xi Chapter. Our local Chapter is a forum where members can share their time and talents to contribute to the overarching mission and vision of Sigma.
Potential members who meet our eligibility criteria are invited to join this honor society. Potential members include baccalaureate, graduate, and doctoral nursing students who demonstrate excellence in scholarship. Also, community nurse leaders exhibiting exceptional achievements in nursing are invited to join. We meet to celebrate our new members and formally welcome them to Sigma and Epsilon Xi at an annual induction ceremony.

Epsilon Xi members serve our community in many ways. Members are encouraged to connect with our board members to communicate service ideas and participate in our member meetings and events. We also seek collaboration with organizations and groups to achieve similarly aligned service goals. Our Chapter supports meritorious academic endeavors through awards and grants. We also work together to produce high quality educational and networking events.

Epsilon Xi Chapter information can be found at the following websites:
https://chapterdirectory.sigmanursing.org/index.html#
https://www.son.rochester.edu/current-students/organizations/sigma/index.html
SECTION II: POLICIES AND PROCEDURES FOR ALL STUDENTS

Academic Advising: Advisor and Student Advisee Responsibilities

Matriculated students are assigned a faculty advisor. Students will receive notification of the advisor's name, and contact information prior to their entry semester. Students are required to have a degree plan (signed by their advisors in all programs except APNN) on file in the Registrar's Office. Students are urged to maintain contact with their advisors and to consult with them regularly concerning course information and matters related to the academic program and professional development. Any questions about the advisement process should be directed to the Program Directors.

The advisor's responsibilities in relation to each advisee are to:
- Be acquainted with the student's interests/needs.
- Discuss the course plan for program completion.
- Be informed about the student's progress in the program.
- Counsel regarding academic questions or problems of the student.
- Counsel regarding current or postgraduate employment, workload, course requirements, time commitments, clinical schedules, or needs to achieve a successful academic outcome.
- Meet with student if an academic alert is issued.
- Meet twice per term while student is on probation.

The student advisee's responsibilities in relation to the advisor are to:
- Complete a degree plan (except APNN students) and file with the Registrar.
- Review the degree requirements and monitor progress. Consult with advisor when needed.
- Inform the advisor of academic progress in the program.
- Seek the counsel of advisor as necessary.
- Discuss with the advisor any changes in registration and/or change of status.
- Meet with advisor of receiving an academic alert.
- Meet twice per term while on probation.

Academic Alert

Faculty will issue academic alerts to provide formal, written, proactive feedback to a student. Through this notification, students are alerted that additional efforts may be required to be successful in a course or program. This form will be completed by the instructor when a student exhibits challenges in either class, lab or clinical with: 1) attendance; 2) submitting assignments on time, or at all; 3) poor performance on assignments or exams; and/or 4) inappropriate or disruptive behavior. They may be issued at any time during the semester. In the rare case that a student's final grade rests solely on an assignment due at the end of the semester, it is likely that an academic alert will not be issued. Faculty is encouraged to indicate specific behaviors which the student can exhibit to be successful in the course.

An academic alert is designed to provide formal, written, proactive feedback to a student. Through this notification, students are alerted that additional efforts may be required to be successful in a course or program. This form will be completed by the instructor when a student exhibits challenges in either class, lab or clinical with: 1) attendance; 2) submitting assignments on time, or at all; 3) poor performance on assignments or exams; and/or 4) inappropriate or disruptive behavior.

After the student receives a copy of the academic alert, the original is given to the Registrar, who copies it to the Associate Dean for Education and Student Affairs, the appropriate Program Directors, the advisor, the course coordinator, and the student file.

It is the student's responsibility to initiate a meeting with his/her academic advisor upon receiving an academic alert. The student, working collaboratively with the advisor and the course coordinator, will develop a plan for remediation. Outside resources (for example, writing tutor) needed by the student, will
be identified by the student, advisor, and course coordinator and the student should contact the Center for Academic and Professional Success ("CAPS"). A Care Contract may be implemented for an at risk student; This contract is modeled on that of the River Campus which can be found at: https://www.rochester.edu/CARE/about.html

**Academic Petition**

Academic petitions are used by students when making a request for an exception related to their programs of study. Examples of the appropriate use of academic petitions are: 1) waiving credits, 2) seeking approval of academic nursing courses taken outside the SON while a matriculated student, or 3) transferring in academic courses taken as a non-matriculated student.

Students who have requests that they believe are appropriate for an academic petition should seek the counsel of their advisors. Students who take nursing courses outside the SON during their program of study should first receive approval for comparability. The student completes an academic petition with the course materials (e.g., description, credits hours, objectives, and topical outlines) attached. After the advisor signs the petition, it is then given to the Registrar for the remainder of the signatures.

When the decision is made to approve or deny the academic petition, the student will be contacted regarding the outcome of the petition. Final course approval is contingent upon the receipt of an official transcript documenting successful completion of the course with a C- or above for RN to BS students, C for APNN students and a B- or above for graduate students.

**Address and Personal Information Changes**

It is extremely important that each student keep the Student Affairs Office informed of his/her current local address, alternate (personal) email address, telephone numbers, change of name, and person to be notified in case of emergency. Students are directed to review and update this information each semester via on-line registration. Changes at other times can be submitted via email to the SON Registrar or via the Address Change form.

**Alcohol and Other Drug Policy**

The University of Rochester Alcohol and Other Drugs Policy has been adopted to help students comply with federal, state and local laws regulating the possession, consumption and service of alcoholic beverages and possession/use of illegal drugs. All undergraduate students, student groups and organizations, and guests are required to abide by the local, state and federal laws and ordinances, as well as University regulations and conduct standards (including this policy) governing consumption of alcohol and control of illicit drugs. Those who choose to engage in the use of alcohol or other drugs in violation of the law or University policy will be held accountable for their actions and subject to the full range of institutional sanctions and other disciplinary measures, up to and including expulsion. Discipline for violations of this policy will be imposed pursuant to the University's Disciplinary System.

**Americans with Disabilities Act (ADA) Accommodation Policy for Students with Disabilities**

The University of Rochester welcomes students, faculty, staff and visitors with disabilities to our campus. We strive to meet the needs of all qualified participants in our programs and services by providing reasonable accommodations for individuals with disabilities and connection to resources within the University. Students seeking accommodations on the basis of a disability should follow the steps outlined on the University's Disability Services website. The School of Nursing has designated an access coordinator to assist with implementing approved academic accommodations. Contact information for access coordinators can be found on the Disability Services website.

**Attendance**
Class attendance is strongly encouraged and may be required by some faculty. Faculty may assign a grade to students' class participation. Assigned clinical and lab experiences are required. Anticipated absences are to be approved by the faculty member. If unable to fulfill clinical responsibilities because of illness or an emergency situation, the student is expected to notify the responsible person in the clinical site as soon as possible so that alternative provision for care can be made. In addition, the faculty member is to be notified prior to the absence.

Each student is responsible for meeting the educational obligations of course requirements, whether for classes or for clinical/lab experiences, and for making the necessary arrangements with faculty members for fulfilling these obligations. **Students must take examinations at the scheduled time. If a family emergency occurs, students must notify the instructor within 24 hours of scheduled exam.**

Nursing students are covered by the same NYS regulations as nurses and other health care workers regarding “fitness to work.” The NYS regulation wording is that they must be “…free from a health impairment which is of potential risk to the patient or which might interfere with the performance of his/her duties…” After an injury or surgery, each student situation is considered on a case by case basis, considering both patient safety and the safety of the student. Students should inform their course coordinator(s) and Program Director(s) of any such health issues. The Program Directors, UHS and the clinical unit leadership may all be involved in determining return to clinical.

After any illness caused by an infectious disease, a student must obtain clearance from the University Health Service before resuming class and clinical activities. This is necessary whether the student is under the care of the Health Service or of a health care provider (e.g., nurse practitioner, physician) not associated with the Health Service.

**Class Cancellation: Inclement Weather or Instructor Illness**

If students call the University's Information line at 275-6111 to find out if the UR is closing due to inclement weather, they are instructed to call individual departments for updated closing information. The SON policy is that:
1. Students should listen for UR closing information via the normal radio and television stations for both day and evening classes.
2. In less severe instances of inclement weather or instructor illness, canceling of class is left to the discretion of the individual instructor. In this case, every effort is made to contact class members, typically through Blackboard. It is imperative that students have current telephone numbers listed. Instructors will notify staff in the Student Affairs Office.

**Classroom Behavior and Expectations for Personal Conduct**

To support the philosophy of the learning community of the UR SON, the following guidelines are offered to describe acceptable classroom behavior. These guidelines have been compiled based on student and faculty input. They are to be followed in an effort to enhance the environment of the learning community of the SON. Consequences of irresponsible classroom behavior will be at the discretion of the professor.

Respect for the learning of others as well as courtesy to fellow students is of primary importance to us as learners and educators. Two specific areas will be addressed in these guidelines: timeliness and use of cell phones. All learners in the SON are expected to follow these principles:

- **Students** should make every effort to arrive at class on time and to remain in the classroom while class is in session. Coming and going after class has started is extremely disruptive both to the students and to the professor. If a student believes he/she may need to leave the class early, then that student should sit near the exit. Any movement in and out of the classroom while class is in session should be done infrequently and with minimal disruption.
- With the exception of class-related activities (such as digital tools for quizzes, Poll Everywhere, or other faculty-directed activities), cell phone use in the classroom is not acceptable. Students
should place cellphones on silent or vibrate mode during class and should defer answering calls and texts until the end of class.

- Clinical Sites: Cell phones may be used for diagnosis, medications and treatment options if there is not a computer available for student use, and preferably after you explain to the patient and family the reason for using your phone. Cell phones must be on vibrate mode at all times in any clinical environment. If the clinical agency does NOT allow the use of cell phones in the clinical area, then the student is not allowed to use the cell phone in that particular clinical agency.

Students are also encouraged to:

- Keep noise levels down in hallways while waiting for a class to finish.
- Take responsibility for removing or putting in the trash any food or beverage containers used while in class.
- Return desks and chairs to their proper places prior to leaving the classroom.

Civility: The University of Rochester School of Nursing (SON) seeks to provide an environment for learning and teaching that is respectful of diverse persons and points of view in all classroom, electronic, and clinical settings. Consistent with this goal, it is expected that diverse perspectives and opinions will be expressed and received in the respectful and professional manner. Incivility, intolerance, hate speech, and abusive behaviors are considered professional misconduct and will be acted upon accordingly. Concerning social media expectations, students should review the latest guidelines of URMC. The web address is:

Compliance Requirements

The requirements below are mandatory and students who are not in compliance will not be allowed to begin or continue in their programs until all requirements have been fulfilled. Holds are placed on non-compliant students’ accounts which will prohibit future course registration.

1. All UR SON students are required to submit an initial health history form and subsequent yearly updates to University Health Service (UHS). Students are responsible for payment for annual health updates, if not covered under the University Health Service insurance plan. The form includes immunization information required by NYS Law to be complete before students may attend courses. A processing fee of $35.00 is charged for the initial health form for part-time students. If this requirement is not met by the first day of classes the student is charged a late fee. The charge will be added to your tuition bill.

   If you are a Strong Memorial Hospital employee, you may contact the Occupational and Environmental Medicine Program at OEM@urmc.rochester.edu to have a copy of your health update and physical sent to University Health Service.

   All APNN, NP and Full-time PhD students must have received the polio vaccine. Either Oral (OPV) or Intramuscular (IPV) forms of vaccine are acceptable. An annual influenza vaccination is also required of all SON students, with proof/verification submitted to the Office of Student Affairs.

   Immunity to measles is the most common problematic requirement. Two vaccinations with live* vaccine are required, the first on or after the first birthday – the 2nd at least 30 days later. *Vaccines given before 1-1-1968 were not routinely live virus vaccines, were less effective and do not meet current NYS Law. This is an annual requirement for all matriculated students.

2. The SON requires that ALL matriculated students complete a background check through Certified Background.

   The SON requires that all students enrolled in the Accelerated Programs for Non-Nurses, RN to BS to MS, Master’s, Post-Master’s, and DNP programs complete the following:
• **Professional rescue cardiopulmonary resuscitation (CPR) course.** This course includes one and two person rescue, infant, child and adult resuscitation. A photocopy of certification is acceptable. The American Heart Association provides certification and recertification training through various agencies for BLS for healthcare providers. The UR provides this program through MDL (585-275-7666). Students must possess a current CPR card. Your certification will not be accepted if you completed a CPR course through Nursing Education at Strong Memorial Hospital, unless it is a carded course.

The SON requires that all students enrolled in the Accelerated Programs for Non-Nurses, RN to BS, RN to MS, Master’s, Post-Master’s, and DNP programs complete the following:

- City Wide Mandatory In-service training, Minor Policy training, ADA Technical Standards, Academic and Professional Integrity, and City-Wide post-test (completed by mid-semester for new APNN students). These are all included as part of the Compliance Course in Blackboard.
- Sexual Harassment: Students enrolled in In-class and hybrid online classes will receive face-to-face training. Online training will be also be available for distance students.

In addition to the above requirements, RN to BS to MS, Master’s, Post-Master’s, and DNP students are required to provide the SON evidence of having successfully completed a pre-employment medication examination (CNET). Written confirmation should be provided by the first week of the semester of matriculating into the SON to the Student Affairs Office. If the student has not previously completed the examination, he/she can make arrangements to take the examination through Student Affairs. Students enrolled in the Accelerated Programs for Non-Nurses are required to successfully pass an in-class medication examination prior to participating in any precepted clinical experiences.

**Complaint Follow Up**

The University of Rochester values feedback from students and strives to address all complaints/concerns immediately at the point of origin. While the School of Nursing has a formal grievance procedure, faculty and staff are encouraged to address and resolve issues brought to their attention using existing faculty/administrative processes within the School. All complaints are to be handled expeditiously and considered confidential information. Any person receiving a complaint should document it on the appropriate log and submit completed logs to the appropriate program (undergraduate, graduate, doctoral or administrative) office or committee in November and April of each academic year.

Action plans will be developed and implemented as indicated. In addition, issues/complaints may need to be referred to School of Nursing administrators, Standing Committees and/or the full faculty for resolution as indicated.

**Confidentiality of Files**

The University may publicize or respond to requests for directory information (as defined below) at its discretion. However, the use of records for commercial or political purposes is prohibited unless approved by the appropriate Dean. Currently enrolled students may request that directory information be withheld from disclosure by making a request, in writing, to the Registrar in the School of Nursing. Students choosing to do this must provide consent in writing when requests are received to verify enrollment or degree completion. The University assumes that failure on the part of the student to specifically request the withholding of any directory information indicates approval of disclosure.

The University considers the following to be directory information: name, campus address, e-mail address, home address and telephone number, date and place of birth, academic fields of study, dates of attendance, photographs, participation in recognized activities and sports, degrees and awards, weight and height of athletic team members, previous educational agencies or institutions attended, and other similar information. See Appendix B for the complete policy of the Family Educational Rights and Privacy Act.

**Counseling on Careers/Graduate Study**
Classes and workshops are offered in job search techniques, resume preparation, and interview skills. Following these sessions, students are encouraged to seek individual help with resume, cover letters, etc., by meeting with their advisors. Baccalaureate students contemplating graduate study are strongly urged to review the SON website for degree offerings, discuss their plans with their advisors, members of the nursing faculty, Program Directors and/or the Director of Admissions.

**Course and Program Evaluation**

Students evaluate their learning experiences in the nursing program. This is accomplished by completing online course and teaching effectiveness evaluations at the end of each semester. Collated evaluation results are given to the respective faculty members, Program Directors, and the Associate Dean for Education and Student Affairs. Identification of problems and potential solutions are sought. Course instructors are isolated from the processes involved in collecting, aggregating, and reporting evaluation data to ensure that all responses from students are confidential. Student representatives also participate as members of some faculty committees and are free to speak about student concerns. Students are encouraged to discuss any concerns with the faculty member at the earliest possible time. If this does not lead to a satisfactory resolution, the student can bring the concern to the attention of the Program Director, and if still unresolved, to the Associate Dean for Education and Student Affairs. All graduating students are asked to provide confidential comments through exit surveys regarding their programs of study at the School of Nursing in order to provide ongoing feedback for improvement. Employer surveys are also conducted.

Post-graduation views are periodically sought via an Alumni Survey sent to graduates of SON programs. Suggestions from alumni are seriously considered in the deliberations of the faculty committees and administration.

**Diversity**

The University of Rochester is a community that welcomes, encourages, and supports individuals who desire to contribute to and benefit from the institution’s missions of teaching, research, patient care, performance, and community service. The School of Nursing values and respects diversity, and promotes practicing nursing in a culturally sensitive manner. SON Faculty Diversity Officers Karen Reifenstein and LaRon Nelson, along with staff representative Jonathan Wetherbee co-chair the SON Council for Diversity & Inclusiveness. Programs and discussion sessions pertinent to promoting diversity and inclusiveness are held periodically for all faculty, staff, and students. The web link to the University’s diversity web page is [http://son.rochester.edu/diversity](http://son.rochester.edu/diversity) The National Standards for Culturally and Linguistically Appropriate Services (CLAS), Appendix B, are comprised of fifteen standards intended to advance health equity, improve quality, and help eliminate health care disparities within health care organizations. These standards provide a foundational blueprint that helps to guide efforts designed to advance and support the SON’s mission regarding embracing and cultivating an inclusive school and work environment.

**Emergency Operation Notification and Disaster Plan**

General University policy is to remain in operation and continue regular schedules despite disruptive situations such as severe weather. When possible, substitution of instructional and staff personnel and rescheduling of events and classes will be arranged to insure the closest approximation to normal functioning as possible.

The Emergency Operation Notification Plan is to be used on the occasions when normal operations cannot be maintained. These occasions could result in cancellation of all or selected classes, substitution of staff where possible, limiting the number of staff and faculty coming to campus, and rescheduling events and/or instructional sessions. Recorded announcements about any general curtailment of services will be available promptly and updated frequently on the University’s Telephone Bulletin Service where they may be heard at any time by dialing 275-6111.
In the event of a disaster involving Strong Memorial Hospital, an alarm will sound in HWH as well as SMH then followed by an announcement that Disaster Plans are to be implemented. During the day, Monday through Friday, students/faculty not working on a patient care unit at the time of the alarm should report to HWH Lounge and sign in. Students/faculty working on a clinical unit during the disaster should remain there and follow directions given by unit leadership.

**Financial Aid**

The University participates in the National Student Loan Clearinghouse (NSLC). Enrollment status on all matriculated students is reported monthly to the NSLC. Most loan companies seek and obtain enrollment information from the NSLC; therefore, loan deferment forms are rarely necessary. When additional verification is needed, forms requiring a signature from a School official confirming student status, enrollment dates, etc., should be brought to the Registrar’s Office for signature. The Registrar forwards the completed form to the appropriate institution and retains a copy in the student file.

*Tuition Benefits for Employees of the University.* For the most updated tuition benefits information, visit [http://www.rochester.edu/working/hr/benefits/tuition](http://www.rochester.edu/working/hr/benefits/tuition). Note: Students enrolled at least half-time may apply for federal student loans to cover any portion of charges not covered by tuition benefits.

**Federal and Private Loans.** Financial aid awards are determined by the UR Financial Aid Office located in Wallis Hall on the River Campus. The Financial Aid Office processes applications for both federal and private loans. Federal loans are offered through the William D. Ford Direct Loan program while private loans are offered through individual lenders. In order to apply for federal loans, students must complete the Free Application for Federal Student Aid (FAFSA) at [www.fafsa.ed.gov](http://www.fafsa.ed.gov) (School Code 02894) and complete a Masters Promissory Note (MPN) and entrance Counseling at [https://studentloans.gov](https://studentloans.gov). Questions regarding the financial aid application process or loan eligibility should be directed to the Financial Aid Office at 585-275-3226. Appointments can also be scheduled for you to speak with your financial aid counselor by calling the Financial Aid Office directly.

**Scholarships/Grants for Baccalaureate Students.** Scholarships or grants are awarded to students by the School of Nursing and will be included in a financial aid award package. Any problems with scholarships/application materials, etc., should be forwarded to the Financial Aid Coordinator in HWH.* Scholarship opportunities are listed on the School of Nursing website and other miscellaneous opportunities are posted in the student mailroom.

**Scholarships/Grants for Graduate Students.** Scholarships or grants are awarded to students by the School of Nursing and will be included in a financial aid award package. Please contact the SON Financial Aid Coordinator in HWH with any questions concerning fellowships, stipends, and grants for specific areas of education/training.*

Failure to maintain satisfactory academic progress may result in the loss of eligibility for federal, state, and/or institutional aid. We recommend that you work closely with your advisor and course instructors to achieve a positive record in the future.

*Questions regarding SON fellowships, stipends, and/or grants will be directed back to the Financial Aid Coordinator in HWH as all scholarship amounts, other than loan eligibility, are determined by SON and not the Financial Aid Office. Your financial aid counselor will redirect your query to the Financial Aid Coordinator.*

**Scholarships/Grants for Baccalaureate and Graduate Students.** For a complete listing of scholarship/grant opportunities, please visit: [https://son.rochester.edu/admissions/financial-aid/types-of-aid.html](https://son.rochester.edu/admissions/financial-aid/types-of-aid.html).

Our SON Scholarships Team is located in HWH and is available to help you with any questions or concerns you may have regarding any of our scholarships, stipends or grants.
Please note that failure to maintain satisfactory academic progress may result in the loss of eligibility for federal, state, and/or institutional aid. We recommend that you work closely with your advisor and course instructors to achieve a positive record throughout your academic program.

**Grading Policies**

**Grade Changes.** The rules of the faculty stipulate that once a grade has been reported to the Registrar, it cannot be changed without approval by the Associate Dean for Education and Student Affairs. To obtain approval for changing a grade, the faculty member submits a new grade to the Associate Dean for Education and Student Affairs.

**Grade Reports.** Grades are available to students and their advisors on the School of Nursing home page through the ACCESS tab in blackboard. Students should check their total hours, grade points, and cumulative averages to be sure they are correct. Students requiring an official grade should request an official transcript from the UR Registrar’s Office. Note that the numeric grade posted in Blackboard is not the official record of grades. GPA’s are not recognized or calculated at the graduate level.

**Grading System.**

Grades will be rounded up so that 0.5 (and above) rounds to the next full number (for example, a grade of 72.5 will round up to a 73; rounding is only to the tenths; for example, 72.47 does not round up to a 72.5).

The following numeric grading scale will be used for the undergraduate programs:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Minimum</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>93-100</td>
</tr>
<tr>
<td>A-</td>
<td>90-92</td>
</tr>
<tr>
<td>B+</td>
<td>87-89</td>
</tr>
<tr>
<td>B</td>
<td>83-86</td>

</tbody>
</table>

WP Withdraw Passing (SON courses, see withdrawal information)
WE Withdraw Failing (SON courses, see withdrawal information)
I Incomplete
IE Incomplete and Failure
N No Grade Reported by Faculty

The following grades are used for **graduate students**. **System One** (letter grades) is used for most courses in the SON.

- A Excellent
- A- Excellent
- B+ Good
- B- Good
- C Poor
- E Failure
- I Incomplete
- IE Incomplete and Failure
- N No Grade Reported by Faculty
- WE Withdraw Failing
- WP Withdraw Passing

**System Two** (S Satisfactory/E Failure) may be used at the discretion of the faculty member. However, this grading system may not be used in a course in which some students are graded by the letter grade system. Clinical portions of a course may be graded pass/fail at the discretion of the faculty. However, both didactic and clinical portions of a course must be successfully completed before the student may progress.

Grades that carry no grade points and are not used to compute the cumulative point hour ratio are:

- P Pass
- S Satisfactory
- I Incomplete
- AU Audit
- N No grade report
- WE Withdraw failing
- WP Withdraw passing
**Incomplete.** The grade of I, awarded at the faculty member's discretion under special circumstances, indicates that a course has not been completed. The incomplete grade cannot be used as a substitute for a failing grade when the student is doing unsatisfactory work. In order to post an incomplete grade, an incomplete contract must be established by the student and course faculty and must be on file in the Registrar's Office. Failure to file this form will result in a failing grade of E for the course. If the work is not completed by the date on the contract, the grade will be changed from an I to an E, (or as otherwise stipulated on the contract) which appears on the student's permanent record. Under unusual circumstances, the time to complete the assignments may be extended using the Extension to Incomplete Form. The I grade will be converted to a failing grade after the third week of the following semester if the incomplete contract has not been fulfilled.

The conversion of an I grade to a final grade must be completed prior to the end of the subsequent semester (fall, summer, spring) for all students. If the incomplete course is a prerequisite to another course, the student cannot progress to the next course until the prerequisite course is complete. A form requesting the Incomplete grade may be obtained in the Registrar's Office and must be completed according to the instructions on the form.

After a grade has been submitted for a course with an initial Incomplete, the advising record and ACCESS record will have a grade of I followed by a letter grade. This I grade is not reflected on the official transcript.

**N Grade.** An N grade is posted when a grade was not reported for the course due to the faculty member's extenuating circumstances. The N grade will be converted to a failing grade after the third week of the following semester unless an Incomplete Contract has been filed in the Registrar's Office and the N has been converted to an I.

**Repeating a Course.** Upon the recommendation of the Student Affairs Committee and with the approval of the Associate Dean for Education and Student Affairs, matriculated students in the SON who receive unsatisfactory grades or who pass and want to improve their GPA may be allowed to re-register for the course. Credit will be given only once and the grade point average (for undergraduate students) will be computed only on the second grade. The original grade will remain on the transcript when a course is retaken. Students who do not receive a passing grade in, or withdraw from, any nursing course because of unsatisfactory achievement (documented as WE on the student's transcript), may retake the course only one time.

**Repeating a course.** If an APNN course must be repeated, the student will be assigned to that course on a space-available basis, not necessarily the next time the course is offered.

**Graduation Check/Degree Audit**

The Registrar does a graduation check annually for each student. The graduation check is designed to audit course enrollment to determine eligibility for graduation.

**Graduation/Commencement**

The SON awards a Bachelor of Science (BS) degree to those candidates who have successfully completed the requirements for the degree as established by the SON and the University. Students are graduated under the terms of the curriculum plan in place upon their admission to the SON. The graduation requirements for students receiving the BS degree are as follows:

1. Minimum of 128 semester credits are required for graduation.
2. Cumulative grade point average of 2.0 for all courses taken.
3. Minimum of 32 nursing credits from SON for RN to BS students and 49 nursing credits from SON for APNN students.
4. Must have continuous enrollment.

The graduation requirements for the Master's Degree are as follows:
1. Minimum of 30 nursing credits completed at the SON for graduation.
2. Time limit of five years for completion.
3. Must have continuous enrollment (fall and spring).

Graduation requirements for the PhD are as follows:

1. 90 credits beyond BS or BA required.
2. 60 credits beyond MS or MA.
3. Continuous enrollment required (fall and spring).
4. Six-year time limit for PhD students and five year limit for DNP students with a Master’s degree.
5. One-year full time residence registered for a minimum of 9 credits each semester (PhD only).

Upon recommendation of the Registrar, the faculty votes on students who are eligible to graduate. The Registrar assures the faculty that all requirements have or will be met prior to Degree conferral. The faculty has the right and the obligation to challenge or advise in this process.

The names of the graduating students are then forwarded to the appropriate University official for presentation to the University Board of Trustees. With approval of the Board of Trustees, the students are awarded the appropriate degrees at Commencement. Accelerated Baccalaureate and RN to BS students receive a Bachelor of Science degree (BS), Master’s students receive a Master of Science degree (MS), PhD students receive a Doctor of Philosophy degree (PhD), and DNP students receive a Doctor of Nursing Practice degree (DNP). Post-Master’s graduates receive a certificate from the SON.

Degrees are awarded/conferred in March, May, August, October and December; however, the commencement ceremony occurs and diplomas are released in May. For APNN students who graduate in August and December, an additional “pinning” ceremony is held at the University Advancement/Alumni Center.

Attendance at the Commencement exercises in May is strongly encouraged. Students who do not attend the School’s Commencement Ceremony may pick up their diplomas in the Registrar’s Office after Commencement. Degree participants in the ceremony are expected to wear academic regalia, which can be purchased through the UR Barnes and Noble bookstore. SON pins are given to all graduating Baccalaureate students.

All degree students, including those who completed their requirements at the end of the preceding Fall semester, or in March, are listed in the program and invited to participate. Post-Masters Certificate recipients are recognized in the program, but do not wear regalia nor receive their certificates during the ceremony. RN to BS students who have additional coursework to complete during the summer to meet their requirements are also included in Commencement in May. For all other programs, all degree requirements must be met in full in order for students to participate in commencement.

The SON recognizes outstanding achievement of its Baccalaureate students by awarding degrees cum laude, magna cum laude, and summa cum laude.

- summa cum laude: top 2% and ties
- magna cum laude: the next 10% and ties
- cum laude: the next 20% and ties

Latin honors are calculated at the end of the final semester. Latin honors will be awarded based on the GPAs for graduates within each cohort. To be considered a candidate for Latin honors, a student must have completed all coursework in the program and must show no “incompletes” on his/her record.

**Baccalaureate Student Awards.** The following are awarded to nominated baccalaureate degree candidates at either the SON diploma ceremony or Fall Convocation:

- *The Margery Fancher Daly Memorial Prize* is awarded to an outstanding student of the UR SON who best exemplifies the life and character of Mrs. Daly, including compassion and competence in professional nursing practice, academic achievement, and commitment to a career in nursing.
• **Dorothea Lynde Dix Prize** is awarded to a student who has high scholarship and outstanding skills in the basic course in Psychiatric Nursing.

• **The Nursing Association Award** is presented to an Accelerated Program for Non-Nurses student who has organized and participated in student activities, publications, and/or committees "beyond the call of duty." This student is selected by the members of the Accelerated Program for Non-Nurses in recognition of significant contributions often made "behind the scenes."

• **The Registered Nurse Award** is presented to a graduating registered nurse student who has integrated the philosophy of baccalaureate nursing education, achieved high academic standing, demonstrated outstanding ability to practice professional nursing, and shown evidence of strong leadership potential.

• **Mabel Sine Wadsworth Award** is presented to a Baccalaureate student who has excelled in the women’s health care area.

• **Clare Dennison Prize** is awarded to an Accelerated Program for Non-Nurses student who has shown the most outstanding proficiency in general nursing care during the Accelerated Program for Non-Nurses and who has demonstrated promise of continuing excellence. This award is given at Fall Convocation and Commencement.

• **The Class of 1959 Nursing Award** is awarded annually to an existing APNN student at the SON Reunion Luncheon to honor the deceased classmates of the class of 1959 by supporting promising nursing students. This is a prize and scholarship that is awarded to the same recipient.

**Master’s Student Awards.** The following are awarded to nominated Master’s degree candidates at the SON Commencement ceremony or at Fall Convocation:

• **The Louise Wilson Haller Memorial Prize** is presented to the nurse completing the graduate program in nursing who exemplifies to the highest degree the spirit of nursing as shown by excellence in patient care and devotion to the best traditions of the profession.

• **The Sarah and Ernest Taylor Memorial Nursing Award** was established by Mr. and Mrs. Thomas J. Willis in memory of the parents of Mrs. Dorothy Taylor Willis. Mrs. Willis served as a staff nurse in the Nursing Service of Strong Memorial Hospital, and as a faculty member of the UR SON. This award is granted to a student completing graduate study in the Adult-Gerontology Acute Care, Adult-Gerontology Primary care, or Family Nurse Practitioner Program in the SON as a source of encouragement to continue in a nursing career in an expanded role. It is presented to a student who has shown clinical and theoretical excellence, compassion in patient care, and a commitment to the nursing profession.

• **The Elizabeth Clinger Young Award** was established by the friends of Mrs. Young, a nurse, in memory of her and to honor her personal qualities of great compassion, courage, and concern for others that she maintained throughout a long illness. The award is granted to the student completing graduate study in the Adult/Geriatric Nurse Practitioner Program who exemplifies those qualities of Mrs. Young that not only endeared her to others but also provided them with a model to follow.

• **The Eleanor Hall Award** is given to an outstanding nurse enrolled in the Master’s program who demonstrates the ability to work with others, to inspire and to listen, to be a leader with integrity. The awardee is a curious, perpetual learner who demonstrates creativity and innovation while maintaining high standards and consistency in performance. This award is given at Fall Convocation.

• **The Leadership Faculty Award for Excellence in Leadership** is given to a graduate of the Leadership in Health Care Systems program who possesses superior ability and vision to create new patterns and partnerships for improving health care delivery and exceptional skills and generosity of spirit to inspire future leaders in health care.

• **The Michele Unger Memorial Award** is given to a leadership student who best exemplifies the life/character of Michele Unger, widely known for her ability to establish collaborative relationships with physicians, leaders and staff, and for leading a number of cultural, operational and financial transformations throughout her career. Michele was a powerful advocate for professional nursing practice and high quality patient- and family-centered care and was truly a leader among leaders. This award is given at Fall Convocation.
• The MNE Faculty Student Recognition Award established by the School of Nursing Master in Nursing Education faculty honors a graduating nursing education student who demonstrates academic excellence, educational leadership, and outstanding ability in evidence-based teaching as an academic or clinical educator.

**PhD Student Awards.** The following are awarded to PhD students at the Commencement ceremony or at Fall Convocation:

- The *Loretta C. Ford Fellowship* is awarded each year to a full-time student entering the PhD program who demonstrates the highest potential for academic and professional success. The Fellowship is renewed for one additional year on evidence of progress consistent with the expectations on appointment. This fellowship is awarded at Fall Convocation.
- The *Katharine Donohoe PhD Student Scholarly Practitioner Award* recognizes a PhD student, prepared as a nurse practitioner, who has undertaken research focused on improving the well-being of the population he/she serves in the practice role. The student's performance will exemplify clinical excellence, outstanding scholarship, and professional leadership.
- The *Jill Thayer Award* is awarded annually at convocation to a doctoral student whose research demonstrates a commitment to personalizing healthcare encounters and/or enhancing access to healthcare.

**DNP Student Award.** The following is awarded to a DNP student at Fall Convocation:

- The *George Spencer Terry, Jr. B’49 Fund in Nursing Entrepreneurship Award* is given to a junior faculty member or graduate student to develop a business model or plan to create innovative solutions.

**Student Life Award.**

- The *Paul Burgett Nursing Student Life Award* is awarded to a SON student who has enriched the SON environment regarding diversity, raised awareness of different cultural issues, actively participated in improving student life, been a positive catalyst for change, and has the potential to influence nursing practice to be inclusive of all cultures. This award is given at the SON Commencement ceremony.

**Grievance Procedure: Problems Concerning Course or Clinical Work**

A grievance may be considered if the student has evidence that criteria have not been applied consistently. The informal procedure consists of discussing the problem or concern with the faculty member first. Depending upon the nature of the problem, the problem may be discussed with the advisor. If the student is not satisfied with the outcome, the student should then proceed with step A. Initiation of step A should be as prompt as possible -- no more than 10 working days following the problem or concern. The purpose of this section is to provide the student with a clearly defined method of dealing with academic problems and/or concerns after he/she has exhausted the informal procedure described above.

A. The first step in this procedure is to contact the appropriate course coordinator/instructor in writing within 10 working days. It is important that the initial contact is made via letter and the student should retain a copy of all correspondence. The letter should contain a clear outline of the history of the problem including a review of the activities undertaken to try to rectify the problem. The student will be notified in writing by the course coordinator/instructor with a response to his/her concern. If the student is dissatisfied with the outcome, he/she should proceed with step B.

B. The second step is to contact the Associate Dean for Education and Student Affairs/Designee within 10 days of receiving the course coordinator/instructor ruling. All materials and communications from previous contacts in the procedure should be assembled by the student and forwarded to the Associate Dean/Designee with a cover letter. The cover letter should contain information which describes why the results of the previous steps in this procedure were objectionable and/or
unsatisfactory and a statement which explains how the student feels this problem can be solved. The Associate Dean/Designee has three options:

1. To rule that the problem is not grounds for a grievance; which then ends the grievance.
2. To rule on the problem.
3. To refer the problem to an ad hoc committee appointed by the Associate Dean for Education and Student Affairs /Designee, which is comprised of three individuals who have not been involved in the procedure thus far. The ad hoc faculty committee is appointed by the Associate Dean/Designee. The committee will review all materials and refer their written evaluation to the Associate Dean for Education and Student Affairs /Designee who will act on the recommendations.

If the student is still dissatisfied with the outcome, he/she should proceed with step C.

C. The final step in this procedure is to assemble the materials as outlined in the previous step within 10 working days, attach a cover letter (see above) and forward these materials to the Dean of the SON. The Dean will rule that the problem is not grounds for a grievance or rule on the problem.

I. **Guidelines to Assure a Professional and Respectful Learning Environment**

**University of Rochester Medical Center ICARE Values:**
The University of Rochester Medical Center’s (URMC) culture is steeped in its values – Integrity, Inclusion, Compassion, Accountability, Respect and Excellence (ICARE). These values apply to all members of the URMC community – faculty, students, staff – in all missions of the medical center: education, research, clinical care and community. A respectful and professional learning environment is an important reflection of our ICARE values.

**II. Learning Environment:**

The URMC learning environment is committed to facilitating students’ and trainees’ acquisition of the professional and collegial attitudes necessary for effective, successful careers in research, teaching, and clinical care. The development and nurturing of these attitudes is enhanced and based on the presence of mutual respect among all members of our learning community. Characteristics of this mutual respect include the expectation that all participants in an educational program assume their responsibilities in a manner that enriches the quality of the learning process, supports a spirit of inquiry, and values diversity of opinion.

Members of our learning community include all individuals educated in undergraduate, graduate, doctoral and post-doctoral programs at the University and the medical center as well as those learners from other institutions training at URMC. Faculty include all faculty, employed and volunteer, who participate in the education of learners and contribute to the learning environment. Staff include all employed staff or volunteers at the University of Rochester.

URMC expects and requires learners, faculty, and staff to conduct themselves in a professional and respectful manner while participating in any activity related to URMC. Inappropriate behavior that negatively impacts URMC’s professional and respectful learning environment is prohibited. Inappropriate behavior includes but is not limited to: sexual harassment; any discrimination or harassment based on age, color, disability, domestic violence status, ethnicity, gender identity or expression, genetic information, marital status, military/veteran status, national origin, race, religion/creed, sex, sexual orientation, or any other status protected by law; humiliation; verbal, psychological or physical punishment; and/or the use of grading and other forms of assessment in a punitive manner. The intentional or unintentional occurrence of such behavior results in a disruption of
the spirit of learning and a breach in the integrity and trust among, and between, learners, faculty, and staff.

All concerns or complaints regarding inappropriate behavior, either witnessed or experienced, should be reported to designated officers or offices in the School of Nursing or the School of Medicine and Dentistry’s Undergraduate Medical Education, Graduate Medical Education, Graduate Education and Postdoctoral Affairs, or Eastman Institute of Oral Health, as indicated below or in program handbooks. Each area is charged with taking appropriate steps consistent with their program’s processes and procedures to thoroughly review and address the reported concern.

III. **Expectations and Responsibilities for All Learners, Faculty and Staff:**

- **Non-discrimination and non-harassment:** to treat others and be treated consistent with the institution’s commitment to maintaining a workplace and academic environment free from unlawful discrimination and harassment.

- **Collegiality:** to cultivate and enjoy a welcoming environment in which to pursue research, clinical care, teaching and professional activities.

- **Respect:** to be valued as an important member of the URMC community and to treat all others with respect.

- **Conflicts of interest:** to receive appropriate instruction about conflicts of interest to avoid situations where learners and educators are unable to do their jobs with the appropriate level of impartiality.

- **Policies:** to be educated about and know how to access University of Rochester, medical center, hospital and program-specific policies including, but not limited to, grievance processes and disciplinary processes.

- **Procedures:** to receive and be aware of guidelines, policies and resources to report concerns about the learning environment or behaviors of other learners, faculty, or staff, including but not limited to reporting concerns regarding harassment or discrimination.

- **Feedback:** to be provided formative and summative information on performance at regular intervals as well as ad hoc when necessary, consistent with the program’s procedures, to provide clear guidance and expectations on performance. Additionally, provide feedback to all in a productive, prompt manner as required by educational or institutional expectations.

- **Design of instruction:** to ensure equal access for learners with diverse backgrounds and abilities to curricula, courses, learning activities, and academic support services.

- **Assessment:** to ensure valid and equitable measurement of learning through appropriate measurement instruments.

- **Confidentiality and Due Process:** to ensure that identity is protected to the greatest extent possible and due process received for any complaint or concern, as required by University policy and legal requirements.

IV. **Sexual Misconduct, Harassment, Discrimination, Unprofessional Behaviors and/or Violations of the Expectations and Responsibilities**

**Policies and Reporting Procedures**

It is the University's aim to provide a setting which is characterized by respect for all and encouragement for the development of each individual's full potential. The University will not tolerate any behavior, including verbal or physical conduct, which constitutes sexual misconduct, harassment, discrimination or other unprofessional actions. All learners, staff, and faculty are accountable for compliance with our ICARE values and codes of conduct. Violations may lead to disciplinary action which, in sufficiently severe cases, may lead to separation from the University after applicable due process.

Students or trainees in the School of Medicine and Dentistry, School of Nursing, and URMC should
advise a supervisor or other designated faculty member, leader or staff about all suspected violations of this guideline as well as all incidents of mistreatment, sexual discrimination, misconduct, harassment and acts of intolerance and discrimination. Reports should be directed to their school or program as indicated in the chart below. All individuals who file a report will be advised about the follow-up and outcome of any reported incident.

V. The chart below describes types of discrimination and harassment based on membership in a protected class and identifies applicable policies, resources, and reporting mechanisms.

VI. Discrimination and Harassment Definitions, Policies and Processes

<table>
<thead>
<tr>
<th>Sexual Misconduct and Discrimination Based on Sex</th>
<th>Harassment Based on Protected Group</th>
<th>Discrimination Based on Protected Group</th>
</tr>
</thead>
<tbody>
<tr>
<td>Definitions (see policies for complete definitions)</td>
<td>Form of discrimination which involves (1) unwelcome verbal, written, physical, or electronic conduct, (2) intended to cause or which could reasonably be expected to cause an individual or group to feel intimidated, demeaned, abused, or fearful, or to have concern for their personal safety, (3) because of membership in a protected class. The conduct must be sufficiently severe or pervasive, and must objectively and subjectively unreasonably interfere with an individual’s work or equal access to education or create an intimidating, hostile, or offensive work or academic environment.</td>
<td>Discrimination is (1) any conduct (2) that adversely affects or impacts an individual’s or group’s ability to function and participate as a member of the University community (3) because of their age, color, disability, domestic violence status, ethnicity, gender identity or expression, genetic information, marital status, military/veteran status, national origin, race, religion/creed, sex, sexual orientation, or any other status protected by law, or because of their perceived or actual affiliation or association with such individuals or groups.</td>
</tr>
</tbody>
</table>
**Examples (see policies for additional examples)**

- Sexual harassment can include:
  - unnecessary touching, patting, pinching or brushing
  - sexually degrading words or gestures
  - verbal sexual abuse or harassment
  - offensive sexual graffiti, pictures or cartoons

- Degradation and derogatory words, graffiti, pictures, jokes, epithets, statements, stereotyping verbal, visual or written messages of intimidation, unwanted physical contact, comments or threats based on membership in a protected group.

- Exclusion from or denial of access to services and/or resources based on a person’s membership in a protected group.

**Identification: University I.D. Card**

The University of Rochester ID card is provided at no charge to all students enrolled at the SON, including all matriculated and non-matriculated students. All new students will be photographed for an Identification card and must bring a government/state ID or Passport in order to receive their student ID card. It is both necessary and useful for checking out books from the library, cashing checks, positive identification and admission to various campus buildings and events. Your University ID card must be worn at all times throughout the Medical Center and University while working as a nursing student and must be visible and worn with the photo-side facing out. The ID card is not appropriate to wear while visiting a patient for personal reasons at Strong Memorial Hospital.
For UR employees, a student ID will NOT be issued since the individual already has a UR employee ID. In order to receive student privileges that differ from employee benefits, the student may request a letter from the SON registrar. Highland employees may request a student ID card by first asking the SON to email us verifying student status.

To place money on student ID cards, students can access this through blackboard and can use either a debit or credit card. Alternatively, students can either visit the Miner library or use the VTS machine to purchase a copy card. The Medical Center ID office is located at G-7009, the hours are Mon-Fri 8am-4:30pm, and the phone number is 585-273-2000. The River Campus ID office is located in the Susan B Anthony hall, the hours are Mon-Fri 10am-7pm, and the phone number is 585-275-3975. For any reason a badge has been misplaced or lost it should be reported to either ID office or Public Safety (585-275-3333). There is a $15.00 fee for a replacement. For any other issues with the badge contact the ID office.

**Immunization Policy**

To promote safety of both students and the patients they may care for, a completed Health History Form is required for every matriculated SON student.

*Each student must have:*  
Documentation to meet all the immunization requirements listed on the UHS web site  
https://www.rochester.edu/uhs/healthcare/EnteringStudentHealthRequirements.html  
A physical examination is also required for all students.  
Seasonal influenza vaccination is required for students attending clinical

**All documentation must be complete before the first day of classes.** Students will be prohibited from class or clinical rotations if immunizations are not complete and/or documentation is not filed with UHS. When changing status from part-time to full-time, the student must check with UHS to update his/her Health History Form as requirements are more stringent for full-time students. Many students in the SON are also employees of Strong Memorial Hospital. As a result, they are in an annual health update program through the hospital’s Occupational and Environmental Medicine Program (OEMP). These records are not routinely shared between UHS and OEMP. The student is responsible for obtaining his/her immunization record from OEMP. Release forms are available in the SON Student Affairs Office and online in the forms section of the School of Nursing website.

**Two common problems to avoid:**  
- Immunity to measles is the most common problematic requirement for students. Two vaccinations with live vaccine are required, the first on or after the first birthday and the 2nd at least 30 days later. Vaccines given before 1/1/1968 were not routinely live virus vaccines, were less effective, and do not meet current NYS immunization requirements.  
- Lack of a record of immunity to mumps is also a common problem. This record of immunity is required for students in NYS, but not for healthcare workers. Hospital work records alone are often insufficient.

Additional information about the immunization requirement is available on the UHS web site at  
http://www.rochester.edu/uhs  
Click on “Health History Forms” in the pink Quick Links box. Questions about student immunization requirements should be directed to UHS at hhf@uhs.rochester.edu or 585-275-0697.

**Mandatory Health Fee and Health Insurance**

All full-time students participate in the Student Health Plan, which includes the mandatory health fee and health insurance. Coverage is from August 1 through July 31, as long as the student remains a full-time student. The health fees are charged on the student’s tuition billing statement. The mandatory health fee is paid by all full-time students. This fee covers office visits at the University Health Service (UHS) and the University Counseling Center (UCC).
In addition to the mandatory health fee, all full-time students must have health insurance. Students can enroll in the University-sponsored Aetna Student Health insurance offered through the University Health Service (UHS), or they can remain on their own (or their parent’s or spouse’s) insurance if their insurance plan meets University criteria. The University criteria are available on the UHS web site at www.rochester.edu/uhs. Each year, all full-time students must complete the online Health Insurance Enrollment/Waiver Process before the start of classes to select their insurance for the year. The link to the online insurance process is on the UHS web site (www.rochester.edu/uhs) in the pink Quick Links box.

Part-time students are not eligible to participate in the Student Health Plan; however, they are welcome to come to the University Health Service on a fee-for-service basis.

Additional information about the mandatory health fee and health insurance is available on the UHS web site at www.rochester.edu/uhs in “Health Insurance for Full-time Students.” Questions about health insurance should be directed to insurance@uhs.rochester.edu.

Malpractice Insurance

The University is self-insured and provides malpractice insurance to any University matriculated student engaged in patient care to fulfill course requirements. The liability coverage requires that the student be registered for a course that is required in the student’s degree plan and that the student engage in the patient care during the time frame of the course.

Nurse Practitioner Certification

State

Upon successful completion of an approved nurse practitioner program, Master’s and post-Master’s graduates must apply for certification and registration as a nurse practitioner in order to use the title and practice in New York. The Nurse Practitioner Certification Application Packet, which contains the application forms for certification and registration, is available by contacting the Division of Professional Licensing Services.

See Appendix E for additional information on the process.

The State Education Department Office of the Professions
Division of Professional Licensing Services Nurse Practitioner Unit
89 Washington Avenue
Albany, NY 12234-1000
Phone: (518) 474-3817 ext. 270
Fax: (518)-402-5354
Email: opunit3@mail.nysed.gov
www.op.nysed.gov

Master’s and post-Master’s graduates who plan to practice in other states must contact the appropriate state regulatory agency to complete the necessary requirements. Contact information (web site, address, phone number) for all the state agencies is available at the National Council for State Boards of Nursing web site https://www.ncsbn.org/index.htm

National Certification

Passing a national certification examination in a nurse practitioner specialty is a professional expectation. Although not required for nurse practitioner certification and registration in New York, professional certification is required in almost every other state. Most employers in NYS are also requiring national certification as a condition of employment. Most insurers are requiring national certification to obtain billing numbers and to be listed as an approved provider. Web site addresses for the national certifying agencies for Master’s and post-Master’s graduates of SON NP specialty programs are shown in the following table. See Appendix E, F and G for additional information.
<table>

These credentials are Registered so may not be used generally without passing the respective certification exam.

**Patient Records/Patient Information**

School of Nursing students who are employees of Strong Memorial Hospital are not to access computerized patient information using their employee identification. Students are only to access records of their assigned patients.

**Personal Safety**

The Department of Public Safety (DPS) serves a community of over 30,000 students, faculty and staff. We staff a 24-hour Emergency Call Center with 16 Public Safety dispatchers, who each year handle over 300,000 telephone calls and dispatch officers for response to nearly 73,000 calls for service—on average 200 per day. DPS officers annually generate over 8,000 incidents, crime and motor vehicle accident.
reports. DPS also has an Investigative Unit with four highly skilled and experienced investigators who provide services for criminal and non-criminal offenses occurring in the community.

Public Safety officers patrol University properties - including the River Campus, Medical Center, South Campus, and Eastman School - 24 hours a day, seven days a week. In addition to responding to emergencies - fires, accidents, and physical crimes - Public Safety staff provide a wide range of non-emergency services including crime prevention training and awareness; distribution of "Safety Alert Bulletins"; victim and witness support; personal safety escorts; door openings for lockouts; routine building and area checks; security surveys of office space or building renovations; landscaping and exterior lighting evaluations; and lost and found property storage.

REPORTING A CRIME

If you are a victim of or witness to a crime, we urge you to contact University Public Safety immediately. Call Public Safety Dispatch at one of the numbers at right.

1. Explain the details of the incident to the dispatcher. (If incident isn’t an emergency, skip to #6.)
2. Notify the dispatcher of any weapons involved (gun, knife, baseball bat, etc.).
3. Give a description of all persons involved in the incident (physical characteristics, clothing, etc.).
4. Indicate last known direction of travel of involved persons, if applicable.
5. Explain any other pertinent information pertaining to the incident.
6. An Officer will be dispatched to the scene if necessary.
   *If you would like to meet with the Officer, be sure to provide your current location.*

You may also seek out other University resources to discuss your concerns and to disclose a criminal incident. If you do not want to pursue direct action within the University or criminal justice system, you may still want to consider making a confidential report. With your permission, we can prepare a report of the details of the incident without revealing your identity.

The information can help put in place corrective measures to safeguard you and others in the future and it also helps the University keep more complete records and assess whether there’s a pattern.

After you report a crime, we can suggest where you may get follow-up assistance. These may include your insurance carrier, our crime prevention staff, the office of the Dean of Students, a Human Resources staff member, or other law enforcement contact. If you recall helpful information after filing a report, contact us as soon as possible.

If you would like to receive a printed copy of this combined annual security and fire safety report, you can stop by the DPS Office at 612 Wilson Blvd., or you can request that a copy be mailed to you by calling (585) 275-3437.

**Probation and Progression**

**Undergraduate Admission on Probation**: Students are **admitted** on probationary status into the RN to BS program when selected criteria for admission are less than satisfactory and the Baccalaureate Program Director or the Student Affairs Committee recommends that probationary status be implemented. While on probation, students must meet with their academic advisors at least twice per semester. Students must receive grades of C or higher in all courses and a semester grade point average of 2.0 or better.
Probationary status will be removed when students achieve the standards for satisfactory progress in the BS program and the Student Affairs Committee recommends that probationary status be discontinued.

**Graduate Admission on Probation:** Students are admitted on probationary status into the graduate nursing program when (a) selected criteria for admission are less than satisfactory and the specialty faculty or Student Affairs Committee recommends that probationary status be implemented or (b) specialty faculty or the Student Affairs Committee recommends that probationary status be implemented. While on probation, students must meet with their academic advisors at least twice per semester and must receive grades of B- or higher in all courses. Probationary status will be removed when students receive grades of B- or higher for 9 hours of graduate study and the Student Affairs Committee recommends that probationary status be discontinued. Students are not admitted on probation to the RN to BS to MS program or to the Accelerated Programs for Non-Nurses. An applicant to the RN to BS to MS program who does not meet all of the criteria for admission may be admitted to the RN to BS program. Application to the MS program may be made at a later time.

**Undergraduate Satisfactory Progression** in the undergraduate programs (RN to BS and APNN) requires attaining a grade of C or higher in all required undergraduate courses. In the undergraduate programs, a grade of C- is considered to be unsatisfactory for progression in the required course sequence. A final grade of E, which indicates failing, has profound implications and may result in a student’s separation from the program.

PROBATIONARY STATUS will be assigned to any student who has received a final grade of C- or below in any required course, including WE (withdraw failing). They are required to meet with their advisors at least twice during the semester during probation and complete any requirements as outlined in the probation letter, and complete a revised degree plan.

Students who do not receive a passing grade or withdraw from a clinical or non-clinical course because of unsatisfactory achievement may retake the course only one time, on a space available basis. If the course in which the grade below C was received is pre-requisite to another course, the student must successfully complete the pre-requisite course before progressing to the subsequent course. Whenever a student needs to repeat a course, the student must meet with his/her advisor to revise the degree plan accordingly.

For students in the RN to BS to MS program where graduate courses are taken to meet the requirements of both the undergraduate and graduate degrees, a grade of less than B- in a graduate course (400 level) will not earn graduate credit. The course may be used toward the baccalaureate degree requirements, but would need to be repeated to earn graduate credit.

Progression for students in the AMPNN requires a minimum 3.25 GPA at the completion of the nursing baccalaureate degree. Students who earn a GPA between 3.0 and 3.25 at the completion of their BS coursework will be placed on probation as they enter the Master’s level. Progression for students whose GPA is below 3.0 will be contingent upon review by MS Subcommittee. Students must also successfully complete the RN licensure examination (NCLEX) prior to enrolling in clinical coursework in the Master’s Program. Students are strongly advised to complete the NCLEX examination prior to beginning Master’s level coursework.

If a student earns a second grade below C in a required course, possible consequences will be: (a) temporary suspension from the program or (b) separation. The Student Affairs Committee will base the final decision on the student's total academic record to date.

If a student receives a grade of E or WE in a required course, then the Undergraduate Subcommittee will make a recommendation to the Student Affairs Committee to either (a) allow the student to repeat the course (on a space available basis); (b) temporarily suspend the student from the program or (c) separate the student from the University of Rochester.
SEPARATION may occur if a student (a) receives a final course grade of E or (b) has been on probation the preceding semester and does not meet the standards for satisfactory progress and receives a final grade of <C in any required course. Students may be separated with an option to reapply. Students who are separated a second time are not readmitted. A notation will be made on the student’s transcript if an involuntary withdrawal, i.e., separation, has occurred.

The Student Affairs Committee makes final progression and separation decisions in conjunction with the Associate Dean for Education and Student Affairs, and Dean.

**Graduate Satisfactory Progression** requires attaining a grade of B- or higher in Master’s level courses. In the graduate program a grade of C is considered to be unsatisfactory for progression. A final course grade of E, which indicates failing, has profound implications and may result in a student’s separation from their program.

**PROBATIONARY STATUS** will be assigned to any student in a graduate program who has received a course grade less than B-. They are required to meet with their advisors at least twice during the semester during probation and complete any requirements as outlined in the probation letter, and complete a revised plan of study.

When a student achieves a grade below B- in any graduate course the course must be repeated by taking the same course at the SON at a time when the course is normally offered. If the course in which the grade below B- was received is prerequisite to another course, the student must successfully repeat the prerequisite course (receive a grade of B- or above) before progressing to the subsequent course. Whenever a student needs to repeat a course, the student must meet with his/her advisor to revise the degree plan accordingly.

For students in programs where graduate courses are taken to meet the requirements of both an undergraduate and graduate degree program (e.g., RN to BS to MS), a grade less than B- in a graduate course will not count toward the graduate portion of the program. The student may receive the Bachelor’s Degree, but will need to repeat the course for the Master’s portion of the program.

If a student earns a second grade below B-, possible consequences will be: (a) temporary suspension from the program or (b) separation. The Student Affairs Committee will base the final decision on the student’s total academic record to date.

If a student receives a grade of E or WE in a required course, then the Master’s Subcommittee will make a recommendation to the Student Affairs Committee to either (a) allow the student to repeat the course (on a space available basis); (b) temporarily suspend the student from the program or (c) separate the student from the University of Rochester.

Probationary status will be removed when students receive grades of B- or higher for 9 hours of graduate study and the Student Affairs Committee recommends that probationary status be discontinued.

SEPARATION may occur if a student (a) receives a final course grade of E or (2) has been on probation the preceding semester and does not meet the standards for satisfactory progress and receives a final grade <B- in any required course. Students may be separated once with an option to reapply. Students who are separated a second time may not be readmitted. A notation will be made on the student’s transcript if an involuntary withdrawal, i.e., separation, has occurred.

The Student Affairs Committee makes final progression and separation decisions in conjunction with the Associate Dean for Education and Student Affairs, and Dean.

**Progression in a Combined Program**

Students admitted to combined RN/BS/MS or MS/Doctoral programs who receive an unsatisfactory grade in their coursework will be reviewed by both subcommittees of their programs to make recommendations for progression to the Student Affairs Committee.
Policy on Academic and Professional Integrity

1. Introduction:

According to the Oxford English Dictionary, *Integrity* is defined as “the quality of being honest and having strong moral principles.” Integrity in academic and professional endeavors is a core value and guiding principle at the School of Nursing (SON). At the SON, we seek to promote and ensure academic and professional integrity among all members of our community: students, faculty, staff, and administrators. It is integral to our pursuit of being ‘ever better’ in our efforts towards discovery, care delivery, and translation. It is under these conditions that trust and open communication are promoted; together these qualities make intellectual inquiry and growth possible.

Academic and professional integrity requires that we approach our individual and collaborative work at the SON earnestly and honestly. It is critical that we maintain accountability for our work and acknowledge our debt to the work of others. It is expected that all students enrolled in any course or program within the SON adhere to standards set forth in this policy relating to academic and professional integrity. Members of the SON community share in the obligations to promote honesty, respect, and responsibility in all aspects of our academic and clinical work.

The SON’s academic and professional integrity policy and procedures are designed to promote a just and trustworthy community that ensures equity, clarity, and in cases of alleged academic and professional misconduct, consistency in our adjudication.

All students, matriculated or non-matriculated, must review the SON Academic and Professional Integrity Policy at the beginning of each course and complete the attestation. Failure to complete the attestation does not excuse the obligation to abide by it.

2. To whom does the policy pertain?

All SON students, graduate and undergraduate, matriculated or non-matriculated, enrolled in any SON course.

3. Violations of Academic or Professional Integrity

The University of Rochester School of Nursing Academic and Professional Integrity Policy reflects the school’s commitment to equal opportunity for student success and the fair and consistent handling of allegations of academic or professional misconduct. Any behavior that provides an unfair advantage to one student or a group of students is unacceptable. All academic and clinical work completed by a student must be solely a reflection of that student's own work, including contributions to a collaborative assignment.

Violations of academic integrity may include, but are not limited to:

**Plagiarism:** Plagiarism is a form of academic dishonesty and is committed when an individual uses the ideas or writings of another as one’s own without appropriate attribution or citation. Plagiarism is literary theft regardless of whether it is *intentional* or *unintentional*. Examples of plagiarism include: failure to cite works used in assignments, the submission of papers or assignments that are purchased, or that were originally authored by another person or previous student. It is expected that all students use APA style (6th edition) in scholarly work.

**Fabrication and Falsification:** Fabrication or falsification is altering information or inventing information, citation, or data. Examples may include:

a) A student changes an assignment after submission, then challenges the instructor’s evaluation.

b) A student invents a reference source or provides a false claim of how the information was obtained; false citation of a source of information (e.g. listing an author, title, or page number as the source for the obtained information, but the material actually came from another source). (See also plagiarism)

c) A student forges signatures or falsifies information on forms, such as clinical logs, preceptor evaluations, forms, petitions, letters of excuse or permission, grade reports, or any SON or university document.
Cheating: Cheating is the attempted or unauthorized use of assistance, materials, information, notes, study aids, technology or communication during an academic exercise. Examples include: fabrication of data; taking an examination or completing an assignment for another student; obtaining or providing, test information to another student.

Collusion: Collusion occurs when students work with another person or persons when independent work is assigned. Unless specified by the faculty, all out of class work, including take home exams, must be completed independently. Working with others to complete at home or out of class assignments is an example of collusion, which is academic dishonesty.

Violations of professional integrity may include, but are not limited to:
Professional Misconduct is defined as behavior by a nurse either in active practice or who is studying to become a member of the profession, which compromises or violates ethical standards as defined by the American Nurses Association Code of Ethics (2015). Failure to uphold the nurse’s obligations related to professional conduct includes but is not limited to non-discrimination, confidentiality, respect in all forms of behavior and communication, truthfulness, and scope of practice limitations.

Expectations of Professional Conduct:
Confidentiality: Associated with a right to privacy, the student has a duty to maintain confidentiality of protected health information (PHI) of those we serve. All personal health information is to be protected in any verbal, written, or electronic setting. Discussion of patient information in public setting constitutes a breach of confidentiality as does inclusion of PHI in any written submitted work.

Nondiscrimination: It is unethical for a student to refuse to participate in the care of person based on that person’s race, religion, ethnicity, socioeconomic status, health/disease status, gender, age, sexual orientation, or gender identity. It is not unethical for a pregnant student to refuse to participate in activities that pose a risk to her unborn fetus.

Professional Demeanor: All students are expected to demonstrate a professional and respectful demeanor at all times when interacting with members of the community at the School of Nursing (e.g. peers, faculty, and staff) as well as patients and families. Unprofessional demeanor includes the use of unprofessional dress, facial expression, body language, gestures, or remarks. Students must maintain a professional appearance and dress in attire appropriate for a healthcare environment. Professional demeanor also includes timely arrival for all academic and professional activities.

Respect for Others: All students are expected to treat classmates, faculty, staff, patients, research participants, and family members with respect and dignity at all times, both in their presence and in discussions about them with professional colleagues. It is expected that students will identify themselves as students in classroom, community, and clinical settings in order to avoid misrepresentation of licensure and certification status. Students are expected to ensure patient safety by working within the scope of practice, seeking assistance when patient needs exceed the student’s capacity, and refraining from the use of alcohol, illicit drugs, or medications that may cause impairment. Students are expected to refrain from engaging in romantic, sexual, or other nonprofessional relationships with patients or faculty.

Respect for Property: Students are expected to behave in a manner that demonstrates respect for property including buildings, green spaces, tangible goods, intellectual property, technology, and equipment. Respect for property also involves helping to foster a positive and supportive learning environment. This standard requires students to respect personal and institutional property, inside and outside the University of Rochester School of Nursing community. Violations of respect for property include but are not limited to property damage and theft.

4. The Committee on Academic and Professional Integrity (CoAPI)
   a) Purpose: The Committee on Academic and Professional Integrity investigates allegations of academic and/or professional misconduct brought by any member of the SON faculty, administration, or support staff against any student, currently or previously enrolled in SON courses.
b) **Composition and Selection of the Committee**

I. The CoAPI is composed of a Chairperson, and faculty representatives from all academic programs and two student representatives.

II. The Chairperson of the Committee is a faculty member selected by the Dean of the SON. The Chair's term is two years and is renewable.

III. Members of CoAPI are selected and invited by the Dean of the SON from among primary SON faculty. The Dean may consult with the CoAPI Chair, the Associate Dean for Education and Student Affairs, program directors and others as appropriate to identify new committee members. The member's term of service is two years and is renewable.

   In the case of resignation of a committee member, the individual appointed by the Dean or designee to replace the position will serve out the remainder of the term and may then be appointed for a full term, with the possibility of reappointment.

IV. The process for selecting student representatives shall be decided and conducted by the committee members. Student’s length of appointment will be a minimum of one year and is renewable. New student members will be recruited as needed to fill the role of an existing student member.

c) **Responsibilities of Committee Members:**

I. **Chairperson:** Participate in the selection of faculty for the CoAPI; serve as a resource for faculty, staff, and students in Committee matters; liaison with the Associate Dean for Education and Student Affairs; participate in the orientation of Committee members; oversee all aspects of the work of the Committee; carry out other tasks specified in the policy or as designated by the Dean.

II. **Committee Members:** Faculty and student members of the CoAPI will serve on ad hoc committees formed by the chair to review reported incidents of professional and academic misconduct that occur throughout the year.

5. **General Guidelines for Suspected Cases of Academic Dishonesty or Professional Misconduct**

   a. Cases of suspected academic or professional misconduct involving matriculated and non-matriculated nursing students will be acted upon, first, by the SON faculty and referred to the Associate Dean for Education and Student Affairs or appointed designee (as outlined in section 6).

   b. Ignorance of the UR and SON standards does not excuse academic or professional misconduct.

   c. Students will be presumed not responsible of wrongdoing until responsibility has been determined in accordance with the procedures outlined below.

   d. Students have the right to appeal any judgment and/or sanction in accordance with the procedures outlined below.

   e. Every effort will be made to see that proceedings will be prompt and final decisions will be rendered in a timely manner.
6. **Procedures for Reporting: Instructor Resolution Process:**

If an incident of academic or professional misconduct is suspected, the faculty member will meet with the student to address the concern. If the faculty member determines the incident is minor and likely related to inexperience, and the student demonstrates understanding of the seriousness of the problem, and agrees to take positive action to remedy the situation and not repeat the offense, the faculty member will complete a **School of Nursing Counseling Form**. The faculty member may choose to impose sanctions or not. Consultation with the Program Director or Associate Dean for Education and Student Affairs prior to meeting with the student is welcomed and recommended.

The completed form will be sent to the SON Associate Dean for Education and Student Affairs for review. It will be kept on file in the Associate Dean for Education and Student Affair's office until the student's graduation or separation from the SON. The program director and the specialty director will be notified of the Counseling Form filing whether or not a sanction is given.

a) **Counseling Form:**
   a. **Without Sanction** - used to address minor violations where faculty considers the experience level of the student and potential educational opportunity that exists with counseling.
   b. **With Sanctions** - used to address minor violations; however, the faculty member has decided to impose a sanction (e.g. point deduction/grade reduction).

7. **Procedures for Reporting: CoAPI Inquiry into Suspected Academic or Professional Misconduct:**

If the incident is not resolved at the instructor level, or if the faculty member deems the violation to be more serious (i.e. repeated minor violation or higher violation; see sanctioning guidelines), then the faculty member will review his/her concerns with the student and verbally notify the student that the incident is being forwarded to the Associate Dean for Education and Student Affairs for further review.

The faculty member will forward the facts of the incident in writing to the Associate Dean for Education and Student Affairs, who will review the case, including meeting with the person(s) involved and will decide whether to 1) dismiss the case or 2) forward the case to the CoAPI for further investigation.

a. If the Associate Dean for Education and Student Affairs rules to dismiss the case, she/he will inform the faculty member and student in writing.

b. If the Associate Dean for Education and Student Affairs rules that the case should be considered as suspected misconduct, she/he will contact the CoAPI chairperson. Further, the Associate Dean for Education and Student Affairs will compile the preliminary facts regarding the case and distribute it to the CoAPI Chair.
   i. The student will be offered the opportunity to review a copy of the statement containing the allegation in the Associate Dean’s Office

c. The CoAPI Chairperson will:
   i. Notify the student in writing that the incident has been forwarded to the committee for review and that the student has the right to submit a written statement addressing the allegation within **three business days**. The chair’s letter will describe, with reasonable specificity, the incident being reviewed and include a copy of the Academic and Professional Integrity Policy.
II. Form an ad hoc committee consisting of CoAPI members to review the case. The ad hoc committee is chaired by a faculty member, and will consist of one additional faculty member and one student representative.

III. Distribute relevant information regarding the case provided by the Associate Dean for Education and Student Affairs to the ad hoc committee members.

The Academic Integrity ad hoc Committee will review the file on the case, to include input from all involved parties and schedule a hearing.

If the suspected misconduct involves research and/or scientific inquiry, the matter will be evaluated using the process outlined in the University of Rochester’s Graduate Bulletin (see page 18-19). [https://www.rochester.edu/GradBulletin/PDFbulletin/Regulations.pdf](https://www.rochester.edu/GradBulletin/PDFbulletin/Regulations.pdf)

8. Academic and Professional Integrity Hearings

a. A formal hearing will be scheduled.
   I. The hearing is a fact-finding session to arrive at thorough understanding of the occurrence. It is not a legal proceeding. Legal counsel is not permitted to attend the hearing.

   II. The student may request to have witnesses participate in the fact finding process who can speak directly to allegation. The decision whom to include in the process is up to the ad hoc committee in its discretion. The ad hoc committee will contact any witnesses directly and request their presence.

   III. The student may have one support individual attend the hearing. This person is present to provide support, not information surrounding the case; the support person is not able to speak or advocate for the student during the hearing. The student and his/her support person will not be present when other involved persons meet with the Committee during the hearing. The student has the right to know who will be interviewed as part of the hearing.

   IV. All hearings will be digitally recorded

b. The student will be invited to the hearing and provided with an opportunity to present his/her position. Specifically, students will have the opportunity to make a statement addressing the allegation and the evidence contained in the complaint. The student may read a prepared statement, speak extemporaneously, or present a combination of the two.

c. Once the student has completed the statement the committee will ask questions of the student regarding the complaint. The questions may include not only the case under consideration but also the student’s academic experience in other courses as it may be relevant to the alleged violation. The ad hoc committee chair may excuse the student from answering a question.

d. The student may request that the committee ask particular questions of any witnesses present at the hearing. The committee shall have the discretion whether to ask them. Direct questioning of witnesses by the student is not permitted.

e. If during the hearing it is determined that additional information is needed from other identified key individuals, the student will be notified about the need for additional inquiry. A committee member will be assigned to contact the key individuals and report back to the ad hoc committee within 24 hours of the hearing, or as soon afterward as circumstances allow. The student will be informed of any additional evidence gathered and provided the opportunity to comment on it or respond to it.

f. Based on the evidence gathered prior to, during or after the hearing, the ad hoc CoAPI committee
will determine responsibility and will forward its findings and recommended actions and the complete file to the Associate Dean for Education and Student Affairs. If a student has elected not to attend the hearing, the committee will still make a finding based on all information available to it.

g. The decision is reached by majority vote; the student is not present for the ad hoc committee vote.

I. Voting is accomplished via open ballot

II. The standard of proof is preponderance of evidence, that is, if it is more likely than not that the alleged violation was committed.

III. Only after a finding of responsibility has been made by the ad hoc Committee, it will be notified by the Associate Dean for Education and Student Affairs if the student has previously been found responsible for a breach of academic or professional integrity while enrolled in the current degree (or certificate) program and what sanction was imposed.

IV. The Committee will consider previous academic and professional integrity violations to determine sanctions. The committee will forward its findings, recommended actions and the complete file to the Associate Dean for Education and Student Affairs.

V. All copies of the original materials related to the case will be returned to the Associate Dean for Education and Student Affairs. Digital recording will be sent to the office of the Associate Dean for Education and Student Affairs and saved in a password protected electronic file.

h. If an undergraduate student is deemed responsible:

I. The Associate Dean for Education and Student Affairs will review the CoAPI's findings and can accept or modify the committee's recommendations as the final determination.

II. The Associate Dean for Education and Student Affairs will:
   i. inform the SON Dean of the recommended sanction(s) and
   ii. Notify the student in writing of the outcome and imposed sanction(s) as well as his/her right to appeal the decision.
   iii. Notify the CoAPI chair of the decision

III. The reporting faculty member and program/specialty director will also be notified of the decision by the CoAPI chair.

i. If a graduate student is deemed responsible:

I. The Associate Dean for Education and Student Affairs will:
   i. Inform the SON Dean of the recommended sanction(s) (as an FYI), and
   ii. Forward his/her recommendations to the Vice Provost and University Dean for Graduate Studies to render a final decision in accordance with University of Rochester policy.

II. The Vice Provost and University Dean for Graduate Studies will impose any necessary sanction and will notify
   i. The student in writing of the outcome and imposed sanction(s) as well as his/her right to appeal the decision,
   ii. The Associate Dean for Education and Student Affairs who will notify the CoAPI chair.

III. The reporting faculty member and program/specialty director will also be notified of the decision by the CoAPI.
9. Sanctioning Guidelines:

The table reflects examples of sanctions. This table is meant to serve as an example and does not represent all possible sanctions. The School of Nursing and the University have the right to impose different sanctions than appear in the table, based on the facts and circumstances of the specific case. The table has been adapted from The Pennsylvania State University and sanctions are based on the type of offense.

a. Type of offense

I. Minor Violations (May be handled at the course level):
   a. Submitting work that misrepresents or does not fairly acknowledge the contributions of others due primarily to inexperience.
   b. Unauthorized collaboration on assignments when the identical work constitutes a small portion of the work submitted.
   c. Other behavior not directly linked to course work that is judged by the faculty or Associate Dean for Education and Student Affairs to be minor and having an academic implication.

II. Moderate violations (refer to Associate Dean for Education and Student Affairs):

Moderate violations are quantitatively and/or qualitatively more serious than minor violations, as follows:
   a. Unauthorized collaboration on assignments in which the identical work is more than a small portion of the work submitted.
   b. Submission of work done for another course, or work done in a previous attempt of a repeated course without instructor permission.
   c. Providing a fraudulent excuse for missed coursework or when requesting an extension on an assignment or a rescheduled exam.
   d. Facilitating or permitting copying of one's own work by another student.
   e. Falsifying a signature on any official university document (e.g., drop/add form, UHS form, attendance sign---in sheet). Misuse of College-issued username and password.

III. Major violations (refer to Associate Dean for Education and Student Affairs):

When a minor or moderate offense involves pre-planning, conspiracy with other students or with individuals outside the University, or is accompanied by payment to a conspirator, those factors may increase the severity to the level of a major violation.
   a. Plagiarism
   b. Receiving unauthorized assistance on quizzes and exams
   c. Deliberately denying others access to library or course materials.
   d. Facilitating or permitting cheating by another student on a quiz or exam.
   e. Submitting an altered exam for re-grading.
   f. Fabrication or falsification of data, information, citations, etc.
   g. Unauthorized distribution or publication of course-related materials.
   h. Impeding the investigation or conduct of any CoAPI matter.
   i. Obtaining an examination prior to its administration

Sanctioning Table
<table>
<thead>
<tr>
<th>Violation</th>
<th>Considerations</th>
<th>Offense: Academic Sanction Range</th>
</tr>
</thead>
</table>
| **Copying**: examples include a student looking at another student's work during an exam, a student copying an assignment from another student, students exchanging color-coded exams for the purpose of copying. | In determining severity, consider the weight of the exam or the assignment as related to total percentage of course grade, the frequency of copied answers or amount of copied material, whether or not it was premeditated or spontaneous, and any other significant factors. | Minor: Reduced exam or assignment grade to 0 for assignment or exam  
Moderate: 0 for assignment or exam to reduced course grade  
Major: E for course |
| **Submitting Another Person's Work As Your Own or Submitting Another Person's Work Without Proper Citation**: for example, a student submits work created by another person as his/her own; a student presents information indicating it is not the student's own work, but fails to properly cite the source. These are commonly referred to as plagiarism. | In determining severity, consider the weight of the assignment as related to the total percentage of course grade, whether or not the fabrication or plagiarism was a substantive portion of the assignment, and attempt to determine whether this was a clear case of intentional dishonesty or careless scholarship. | Minor: Redo the assignment with reduction in grade to 0 for assignment with or without redo of assignment  
Moderate: Reduction in final course grade in addition to 0 for assignment  
Major: E for course |
| **Unauthorized Test Possession, Purchase, or Supplying**: for example, when a student possesses an exam without the instructor’s permission; a student purchases or steals an exam; a student fails to return an exam which was requested to be returned; a student makes a copy of an exam; or sells an exam. | With rare exception, this form of misconduct is premeditated and deceptive with the intent to defraud. The manner in which the exam was obtained is critical in determining appropriate action. A student may access old exams and not be aware viewing the exam is a violation. In other instances, a student may have stolen an exam or is found in possession of an exam knowing it is not permitted. | Minor: 0 for exam  
Moderate: Reduction in course grade to F for course  
Major: E for course |
| **Ghosting**: for example, a student takes a quiz or exam or completes an exercise or assignment on behalf of another student;  
NOTE: it is possible that students involved in such violations may not be enrolled in the instructor's class and there is not an option to assign an academic sanction. In such instances the instructor should notify the Associate Dean for Education and Student Affairs. | Although this form of misconduct is inherently premeditated and deceptive, severity should be assessed based on the percentage of course grade the violation entails.  
Faculty may also consider the nature of the deception - for example, signing in for another student in order to gain class participation points vs. having another student complete an assignment or take an exam for a student. | Minor (primarily used when ghosting was for participation points or in-class low credit assignment): 0 for participation points; 0 for assignment to reduced grade for course participation credit  
Moderate: 0 for quiz or exam and reduction in course grade  
Major: E for course |
| **Altering Exams or Assignments**: for example, a student changes incorrect answers and requests a favorable grade adjustment when instructor returns graded assignments/exams for review; a student changes the letter and/or numerical grade on an exam/assignment after the instructor has assigned the final grade. | This form of misconduct is deceptive with the intent to defraud, and may also affect the credibility of an instructor. Consideration should be given to whether the act was premeditated or spontaneously committed out of panic. In determining severity, consider the extent to which the exam or assignment was altered, the weight of the exam as related to total percentage of course grade, and other significant factors. | Minor: 0 for exam or assignment  
Moderate: Reduced course grade to E in course  
Major: E for course |
**Improper Use of Technology:** for example, a student possesses and/or uses a cell phone when one is not permitted; a student uses software or electronic aides such as calculators, computers, handheld devices, etc. when not permitted by the instructor.

When sanctioning consider if the technology was used for misconduct. Also consider whether the misconduct was premeditated, the impact it potentially had on student's course grade, and the level of dishonest activity in which the student engaged.

<table>
<thead>
<tr>
<th>Minor: Warning to reduction in assignment or exam grade Note: When students possess an unauthorized electronic device but there appears no evidence of intended use, a faculty may issue a warning and</th>
<th>Moderate: Reduced course grade</th>
<th>Major: E for course</th>
</tr>
</thead>
</table>

**Facilitating Academic Dishonesty by Others:** for example, a student permits another student to copy an exam or assignment; a student provides a completed assignment to another student and allows the student to submit it as his or her own; a student writes another student's paper or completes another student's assignment and then provides it to the student so they may receive credit; a student shares information about an exam with another student who has not taken the exam.

For students who are enrolled in the class, consider the impact their actions had on the grade of the student they were assisting in measuring the severity of the violation.

<table>
<thead>
<tr>
<th>Minor: Reduced assignment grade for what the student submitted</th>
<th>Moderate: 0 for assignment student submitted</th>
<th>Major: Reduced grade in course</th>
</tr>
</thead>
</table>

**Submitting Work Previously Used Without Permission:** for example, a student submits work completed previously for another course or assignment without the instructor's permission.

*This violation assumes that the work submitted is the student's own work, submitted on more than one previous occasion.

Students appear to be less informed regarding this form of academic dishonesty, and in some cases you may find that this breach occurs to some degree in an inadvertent manner as compared to other forms of academic dishonesty.

<table>
<thead>
<tr>
<th>Minor: Warning and redo assignment to redo assignment and reduced grade for assignment</th>
<th>Moderate: Redo assignment with reduced grade to 0 for assignment</th>
<th>Major: 0 for assignment to F in the course</th>
</tr>
</thead>
</table>

**Unauthorized Collaboration:** for example, working with another student on an assignment or exam.

When sanctioning, consider whether or not the misconduct was premeditated, the impact it potentially had on the student's course grade, and the level of dishonest activity in which the student engaged.

Faculty may wish to consider a more serious sanction when students were explicitly instructed not to collaborate

| Minor: Redo assignment. Reduced assignment or exam grade | Moderate: 0 for assignment or exam | Major: 0 for assignment or exam and reduction in course grade |
Unauthorized Use of Study Aids: for example, using or possessing crib sheets; pre-programming an electronic device to provide solutions; using notes, texts, etc. without the permission of the instructor.

When sanctioning, consider whether or not the misconduct was premeditated, the impact it potentially had on student’s course grade, and the level of dishonest activity in which the student engaged.

Minor: Reduced exam grade if determined use is limited to failure of exam
Moderate: Failure of exam to reduced course grade
Major: E for course

11. Appeal Process

Grounds for appeal may include the following: (1) new evidence regarding the allegation was discovered after the formal hearing process; (2) an error in process occurred significant enough to affect the outcome, and (3) severity of sanction.

An undergraduate student who wishes to appeal the decision regarding his or her responsibility and/or sanction, may appeal that decision to the Dean of the SON in writing within 7 days of the decision. The Dean’s determination will be made within two weeks, or longer as circumstances may require. The decision of the Dean is final.

A graduate student wishes to appeal the decision regarding his or her responsibility and/or sanction, may appeal that decision to the University Provost, in writing, within 7 days of the decision. The University Provost’s determination will be made within two weeks, or longer as circumstances may require. The decision of the Provost is final.

12. Records:

a. Record Sharing: Records pertaining to matters of academic or professional misconduct will be shared with those at the school or university on a need to know basis only. In some cases, records may be disclosed outside the university, such as when required by law or governmental request, or with the student’s consent.

b. Record Keeping: All records/materials regarding a responsible case of academic or professional misconduct will be kept on file in the School of Nursing, Office of the Associate Dean for Education and Student Affairs, for 10 years or until the student completes all degree (or certificate) requirements (if program duration exceeds 10 years).

c. Document Management: Records relating to integrity cases will be kept separate from the academic file and access will be limited as described in 12.a above.

Readmission

Students who have previously matriculated in the SON and have withdrawn from work toward a degree/certificate may apply for readmission. To rematriculate, students need to obtain a Readmission Form. If readmitted, the student will be expected to reformulate a degree plan with the assistance of the advisor and will be required to pay any other indebtedness previously incurred. Nursing courses completed successfully by the student prior to withdrawal may be counted as partial fulfillment of the requirements of the degree, provided: (a) the courses form an integral part of the student’s new program and are approved for inclusion by the advisor and (b) the courses were completed not more than five years prior to the date of application for rematriculation. Students must complete the program that is in place at the time of their readmission. The maximum time for a rematriculated student to complete the program for the degree will be based on the credit hours remaining to be completed, computed at a rate of at least six credit hours a year.

Recommendations/References

For references to prospective employers or to other educational institutions, it is suggested that students/graduates provide the name(s) of their advisors and other faculty members who are most familiar
with their academic and/or clinical performance and experience. When students wish to have faculty members provide references for them, they should receive that person’s consent before submitting his/her name. References should be solicited by the student along with appropriate forms or directions in ample time (usually 3-4 weeks) prior to deadlines. Most often students should ask a faculty member to write a reference based on his/her familiarity with the student’s strengths in a specific area, which is relevant to the reference. It is recommended that students submit a copy of their resume/vitae to their advisors and schedule a short meeting to review/highlight their SON experiences.

Transcript. Through a partnership with the National Student Clearinghouse, students and alumni can order both electronic and hard copy transcripts. Electronic transcripts are securely delivered within one business day of completion of your order. Hard copy transcripts are sent within three-five business days after completion of your order. Students will need to provide either URID or Social Security number to validate their request.

You can pay for your transcript order with any major credit or debit card. Your credit or debit card is not charged until University of Rochester sends your transcript(s). However, if you use a debit card, your bank may put a hold on your funds when we pre-authorize your payment. If you have questions on the pre-authorization, please contact your bank. Order updates will be sent to you via email and, if you choose, text messages. You can also track your transcript order online. Transcripts cannot be released if the student’s account shows any type of financial hold. If you request a transcript while there is a hold on your account, you will be notified of the hold. Students will have the opportunity to upload any necessary attachments to be included with their transcript order. Please note, due to the automated nature of the electronic transcript service, the registrar’s office will not be able to complete missing field on attachments to be sent with e-transcripts. All fields must be complete prior to submission through the system.

The National Student Clearing House offers the following delivery options for transcripts:
- Electronic transcripts ($3.25 per destination address)
- Hard copy transcripts ($2.25 per destination address with up to 10 copies per destination address; example, 1 transcript or 10 transcripts to the same address within the same order would be a total of $2.25)
- FedEx options: United States ($17.25); Canada/Mexico ($32.25); all other international ($52.25)

Visit http://www.rochester.edu/registrar/transcripts.html for more information and to place an order. Questions about ordering transcripts should be directed to the University of Rochester Registrar’s transcript line at (585) 275-5131.

Tuition Refund Schedule

School of Nursing Refund Policy for Dropping a Course: this policy defines the institutional tuition refund per a course when a student voluntarily withdraws (drops) from a course during a period of enrollment. The following schedule for tuition refund is to be applied to the individual course. Note: This policy does not apply to students who voluntarily or involuntarily withdraw, take a leave of absence, or go on inactive status. For more information about these types of actions, see School of Nursing Refund Policy for Withdrawal/Leave of Absence/Inactive Status.

For students paying per credit hour for a semester-long course:
- Before the 2nd class session, 100% refund
- Before the 3rd class session, 90% refund
- Before the 4th class session, 75% refund
- Before the 5th class session, 50% refund
- After the 5th class session, no refund.

For courses that are not held for the entire semester, refunds will be prorated accordingly.
A class week is defined as the seven days following the first class session. For example, if the first day of the semester is a Wednesday, the second class week would begin on the following Thursday.

For students enrolled in a non-Fast Track, online course, or a Hybrid course: (this includes “Flex Track courses”)
- Before the 2nd week of classes starts, 100% refund
- Before the 3rd week of classes starts, 90% refund
- Before the 4th week of classes starts, 75% refund
- Before the 5th week of classes starts, 50% refund
- After the 5th week of classes starts, no refund.

A class week is defined as the seven days following the first day of the semester. For example, if the first day of the semester is a Wednesday, the second class week would begin on the following Thursday.

For the “Fast Track” on-line courses (NSG 305, 309, 310, 311, 312,313 & 315):
- No refunds given after student is given access to the course.

For the Registered Nurse First Assist Program:
- No refunds given once the class begins.

NOTE: Please note that course fees and lab fees are not prorated or refunded in any way. Also, note that the above refund policy is applicable even if you have tuition benefits. You are responsible for the cost of the course minus the refund according to the schedules above.

Students declaring withdrawal or inactive status for medical reasons or other extraordinary circumstances may be granted prorated charges throughout the term with the approval of the Associate Dean for Education and Student Affairs. Students receiving financial aid are advised to check with the Financial Aid Office before changing their status to see if their aid will be affected. Graduate students receiving SON Scholarship support should also check with the Financial Aid Coordinator in Room 3-164 (585) 276-6079.

Registered Nurse Licensure

For admission to the RN to BS, RN to BS to MS, NP Master’s, CNL Master’s, MNE, MS/PhD, Post-Master’s, and DNP Programs, students must have a current license as a registered professional nurse to practice nursing in one state in the United States, District of Columbia, U.S. Virgin Islands, Guam, or Puerto Rico.

Students who wish to work as registered nurses in New York must have an RN license and current registration to practice nursing in New York. Students who hold a current license in another state may apply to the State Education Department Office of the Professions to be granted an RN license in New York.

Registration

Matriculated students in the SON register for courses via web registration. Students are expected to register for courses as outlined on their approved degree plan.

Pre-registration occurs every semester for the purpose of planning for faculty, budget projection, and space needs for the coming semester. Pre-registration for the Summer semester is held during the Spring semester, usually in April. Pre-registration for the Fall semester is held during the Summer semester, usually in July. Pre-registration for the Spring semester is held in the Fall, usually in November. Students are expected to register for courses as early as possible, preferably during the registration period. There is a late registration fee of $50 for registration after the deadline. If students register for a clinical course less than 6 weeks before the first class date, it is unlikely that a clinical placement can be arranged that
semester. Students registering more than two weeks after the start of the term will be subject to a $150.00 late fee (this includes registrations for inactive status, leave of absence and continuation of enrollment).

**Adding Courses.** Students should always discuss the adding of another course with their advisors. If it is an appropriate action, the Drop/Add Form may be obtained from the Registrar’s Office or online, or the course may be added online via web registration prior to its start date. An updated degree plan should be filed. If the class has already begun, the course instructor signature is also required. No course may be added after the fifth week of the semester and students are generally discouraged from adding a course after the second week.

**Dropping and Withdrawing from a Course.** Students should discuss the dropping of a course with their advisors. Drop/Add forms can be obtained from the Registrar’s Office or online or the course may be dropped via web registration. Students can drop a course through the fifth week of the semester.Courses dropped will not appear on the final transcript.

Beginning with the sixth week for all students up until the twelfth week of classes, students may **withdraw** from a course. A class week is defined as the seven days following the first class session. For example, if a class starts on Tuesday, the first class week would end on the following Tuesday just prior to class time.

If the student **withdraws** from a course after the fifth week, the faculty member will declare it WP (Passing at time of withdrawal) or WE (Failing at time of withdrawal). The decision to designate WP or WE will be based on the evaluation criteria stated in the course syllabus. The designation of WP or WE will appear on the student’s transcript.

In the case of courses that do not run the full 15 week semester, the time frame to drop, and to withdraw from a course, will be prorated accordingly.

The tuition refund policy for dropping or withdrawing from a course is provided under the section “Tuition Refund Schedule.” This policy includes full-time and part-time matriculated and non-matriculated students regardless of payment method (includes UR tuition waivers). Refunds are not given, once classes start, for non-credit or audited courses. On-line **Fast Track Courses** are non-refundable. Please note that for students using tuition benefits, they are responsible for the balance of charges (after the refund).

Official drop/withdrawal from a course is the responsibility of the student, who must file a request as noted above. Notice to faculty members, telephone calls to offices on campus, or failure to attend classes are NOT considered official notice of intent to drop/withdraw. The official date of drop/withdrawal determines the amount of tuition refunded (students using tuition benefit waivers are responsible for payment of the balance).

**Audit.** Both matriculated students and non-matriculated students may audit select courses prior to the drop/add deadline with the permission of the instructor and the Associate Dean of Education and Student Affairs and with payment of the audit fee. Before student audit status is approved, the prospective auditor must reach agreement with the course faculty concerning attendance or other expectations to be met by the student, including participation in class discussions. Courses that require the registrant’s active participation are not appropriate for audit registration. Class work completed by auditors will not be evaluated by the instructor. Auditors will not receive a grade or credit for the course and should not expect any individual instructor time.

Students who later wish to receive credit for an audited course may request this by: 1) contacting the SON Registrar in writing and 2) paying the required tuition for the course. Such requests must be made within 1 year of completing the audited course and need to comply with all course requirements per the course syllabus in place at the time of the audit. Any grading would be completed by the faculty member who approved the audit.

Full-time graduate students taking at least 9 credit hours per semester may audit courses free of charge in the SON, when approved by the student’s advisor, the course instructor, and Associate Dean for Education and Student Affairs.
Change in Enrollment Status. A student who is contemplating a change in status in the program (leave of absence, etc.) needs to get approval from the advisor and Program Directors by completing the Change of Status Form. A change in status usually means a change in financial aid eligibility. Because of limited resources, the SON cannot guarantee the continued availability of a tuition fellowship or traineeship award.

- **Inactive Status (Baccalaureate Students) or Leave of Absence (Master’s, Post-Master’s, and Doctoral Students):** Students who will not register for coursework each term at the SON must apply for Inactive Status or Leave of Absence via a Change of Status Form. If inactive status/leave of absence (LOA) is granted, the charges for the first semester are waived. Subsequent semesters of inactive status/LOA require a $60 per semester fee, unless the student shows proof of taking transferable coursework at another institution as indicated on the Change of Status Form. Students on inactive status/LOA will continue to receive pre-registration reminders for the next semester and other student mailings. Students planning to request inactive status/LOA should discuss this option with their advisors and obtain the proper form from the Registrar’s Office to ensure the privilege of resuming study without going through the process of re-admission. A revised degree plan must be filed upon re-entry, but preferably when leave is initiated. The Leave will be limited to two semesters. Baccalaureate students who are granted Inactive Status must register for “NUR 300: Inactive Status,” and graduate students must register for “NUR 985: Leave of Absence” each semester they are in this category. Students are not guaranteed a clinical slot upon return to the program. Students on inactive status/LOA may lose eligibility for student loan deferments and University Health Insurance.

- **Withdrawal from SON:** The student will 1) seek advice of advisor and 2) complete Change of Status form or write a letter requesting withdrawal to the School of Nursing Registrar. For students who withdraw, the refund of tuition and fees for course work will be prorated and determined by the date on which notice is received. Refund of tuition and fees is forfeited if the student does not notify the School of Nursing of the intent to withdraw in writing.

**School of Nursing Refund Policy for Withdrawal/Leave of Absence/Inactive Status.** This policy defines the tuition refund when a student voluntarily or involuntarily withdraws from all courses within a term. An active student who withdraws or takes a leave of absence from the School of Nursing on or after the first day of classes and through the seventh day of the term (first week), will receive a full tuition and fee refund (100%). An enrolled student who becomes inactive on or after the eighth day of the term but before the time when s/he will have completed 60% of the period of enrollment will have their institutional charges and institutional aid adjusted based on a daily proration of attendance. Federal financial aid is adjusted as described below. A student who withdraws or takes a leave of absence after the 60 percent point of the period of enrollment will receive no refund of institutional charges or financial aid for that term. *(It is important to note, however, that this is likely to impact renewal eligibility for financial aid in the next period of enrollment. For more information, contact the financial aid counselor and/or see the Satisfactory Academic Progress policy for details.)*

Per Federal regulations, a student earns his/her aid based on the period of time s/he remains enrolled, including during the first week of classes. Unearned Federal Title IV funds, other than work-study, must be returned to the appropriate federal agency. During the first 60% of the enrollment period, a student earns Title IV funds in direct proportion to the length of time s/he remains enrolled. A student who remains enrolled beyond the 60 percent point earns all the aid for the payment period.

For example, if a period of enrollment is 100 days and the student completes 25 days, then s/he has earned 25 percent of her aid. The remainder of the aid must be returned to the appropriate federal agency. Unearned aid must be returned to the specific programs, in order, up to the total net amount disbursed from each source. The order of return is as follows: Unsubsidized Direct Loan, Subsidized Direct Loan, Perkins Loan, Direct Graduate PLUS Loan, Direct Parent PLUS Loan, Pell Grant, FSEOG, Iraq & Afghanistan Service Grant.

Students declaring withdrawal or inactive status for medical reasons or other extraordinary circumstances may be granted prorated charges throughout the term with the approval of the
Associate Dean for Education and Student Affairs. Students receiving financial aid are advised to check with the Financial Aid Office before changing their status to see if their aid will be affected. Graduate students receiving SON Scholarship support should also check with the SON Financial Aid Coordinator.

**Continuous Enrollment.** Matriculated students must maintain continuous enrollment by registering for at least one course at the UR each Fall and Spring semester. For students in the Accelerated Program, summer enrollment is also required. If this is not possible, contact the Registrar's Office to request inactive status (Baccalaureate students) or a leave of absence (graduate students) or continuation of enrollment status prior to the beginning of the semester. Consult with your advisor before making this decision. A Change of Status Form must be completed. For students enrolled in more than one program, registering for a course in either program meets the continuous enrollment requirement for both programs. Students failing to maintain continuous enrollment as described will be administratively withdrawn.

**Course Cancellation.** Courses may be canceled due to low enrollment. Registered students will be notified of course cancellation by the Registrar's Office.

**Degree Plan.** The degree plan outlines the student’s intended plan of study for the duration of enrollment in the program at the UR. The degree plan is intended to:
1. Assist the student and advisor in discussing the student’s career goals and plan for completion of the program.
2. Plan the ideal sequence of courses taking into consideration prerequisites, co-requisites, the student’s learning needs, and the intended time for completion of the program.
3. Allow administrators to forecast enrollment and plan resources for courses.
4. Identify cohorts of students for clinical course enrollment and progression.

All students are required to have a current degree plan on file with the Registrar. Failure to do so will result in a registration block. This plan should be completed upon admission. The degree plan serves as the student’s plan of study and may not be altered without the approval and signature of the advisor. Upon filing the degree plan, the student is committed to a clinical cohort for participation in clinical courses. Students’ registration for courses must reflect the degree plan. If the degree plan is altered, the student’s enrollment in clinical courses may be affected. Changes in the clinical cohort assignment can be granted only on a space available basis.

**Exemption/Waiver of a Course.** When a student applies for a course exemption, it is done by petitioning the course instructor. Credit is given for the course when a student successfully challenges the content. When exempting a course, the student registers and pays for the course in the semester that it is being taught and receives credit and a grade for the course based on the terms of the academic petition.

A course may be waived from a student’s program of study after a student has taken a course similar in content which has been approved for substitution by the student’s advisor, course faculty, and Program Director. The student is required to take additional coursework to make up the credit and fulfill the objectives of his/her academic program.

**Independent Study/Reading Course.** With the approvals of the Program Director and the Associate Dean for Education and Student Affairs, students may arrange independent study for variable credit if a course on the topic is not available within the SON and the faculty resources are available. Initially, the student approaches the faculty member to determine his/her interest in sponsoring the student for an independent study. If the faculty member is supportive, he/she discusses the request with the Program Director, and the Associate Dean for Education and Student Affairs. If approval is granted, the designated instructor and student design course objectives and learning experiences necessary to meet them. Materials are prepared using the Independent Study/Reading Course form.

The completed form is submitted by the student to his/her advisor/faculty member and lastly to the appropriate Program Director, and Associate Dean for Education and Student Affairs for final approval of the curricular integrity of the proposed independent study. NUR391 (for Baccalaureate students), NUR491
(for Master’s and Post-Master’s students), and NUR591 (for Doctoral students) are the course numbers used to register for non-clinical independent study.

**Matriculation and Full-time vs. Part-time Study.** Once admitted to a degree program and registered for courses, students are considered to be matriculated and are expected to maintain registration continuously until the program is completed, until they withdraw, or are separated.

Full-time status for APNN students is 12 or more credit hours per semester. “Half-time status” for federal financial aid and loan deferment purposes, is at least 6 credits. There is no full-time option for the RN to BS program.

A full-time Master’s, post-Master’s certificate, or DNP student is defined as a student who registers for 12 hours of credit per semester or 9 credits if at least one of the courses has a clinical or lab component. Full time PhD status requires registration for 12 or more credits per semester UNLESS the student is also involved in lab or clinical experiences, research or teaching assistantships, or dissertation credits, in which case 9 credits constitutes full time enrollment. “Half-time status” for loan deferment purposes, is at least 6 credits.

**Maximum Time for Completing Degree Requirements:** Master’s and post-Master’s candidates must complete all of the requirements within five years after matriculation. RN to BS and PhD students must complete all the requirements within six years after matriculation. APNN students must complete all requirements within 2 years after matriculation. Students in the Post BS to DNP must complete all the requirements within seven years after matriculation. All students must maintain continuous enrollment for each term after matriculation. Students who for good reason have been unable to complete a program within the stated time frame may request an extension of time via an academic petition. Such an extension, if granted, will be of limited duration.

**Non-Matriculated Study** (not formally admitted to a degree program in SON). A person wishing to take a course or courses not leading to a degree or certificate program may register for a course open to non-matriculated students. Clinical/Lab courses are not open to non-matriculated students. Subsequent evaluation of such work for inclusion in a degree program is subject to the limitations on transfer credit (see below).

**Overload** APNN students considering adding ANY courses over and above those required in the program must have the approval of the advisor and the Associate Dean for Education and Student Affairs. Any other student considering an overload (19 or more credit hours) must have the approval of the advisor and the Associate Dean for Education and Student Affairs.

**Transfer Credit.** For Baccalaureate students, the review of official transcripts for the purpose of awarding transfer credits occurs during the admission process and after matriculation whenever an official transcript is received by the SON Registrar’s Office. Arts and sciences courses completed at other colleges or universities (or other institutions, including CLEP or Excelsior credits) will be reviewed for transfer of credit to SON providing the courses are documented on official transcripts, have been completed with a grade of C- or higher, except APNN with a grade of C or higher. Upon admission, RN to BS or RN to BS to MS students can receive one additional “conversion credit” arts and science credit to accumulate the required 128 credits for graduation. A petition is required to transfer in non-matriculated graduate courses taken at the School of Nursing.

For the MS degree, the total amount of transfer and waiver credit cannot exceed 10 credit hours. No more than 12 nursing credits for RN to BS to MS students may be accepted as transfer credit for nursing course work previously taken as a non-matriculated student at the UR. Courses taken prior to matriculation may be accepted toward degree requirements if: 1) the subjects form an integral part of the proposed program of study; 2) they are taken within five years of the date of matriculation; 3) they carry a grade of B- or higher as interpreted in this university; and 4) they are approved by the advisor, faculty reviewing the course(s), and/or Program Director. For Master’s and Post-Master’s students, the required undergraduate
health assessment course for entry into the required graduate level assessment course (NUR 410/NUR 412, NUR 415 or NLX 422 [for MNE students]) must have been taken within the past five years.

**Religious Observance and Other Holidays**

In compliance with New York State Education Law 224-a, the School of Nursing of the University of Rochester will provide reasonable accommodation for absences of students required due to observation of religious beliefs. The School of Nursing has adopted the following statement regarding respect for students’ religious beliefs: “As provided in New York Education Law Section 224-a, each student who is absent from school (including registration for classes, attendance at classes or an inability to take exams on certain days) because of his/her religious beliefs will be given an equivalent opportunity to register for class or make up any exam, study or work requirements he/she may have missed because of such absence for religious observation, without penalties or additional fees.”

If the requested accommodations may result in students not participating in required educational experiences, the Associate Dean for Education and Student Affairs in conjunction with the involved Program Directors and Course Faculty will evaluate the reasonableness of the requested accommodations and if granting such will substantially alter the depth and integrity of the educational requirements for University of Rochester nursing students. In addition, documentation may be required to demonstrate the nature, extent, and duration of the religious observance that will require the student’s absence.

Any student who anticipates absences (including clinical absences) from scheduled educational activities due to religious observances should, to the extent possible, provide advance written notification to the program director of the anticipated days of absence NO LATER THAN TWO WEEKS FOLLOWING MATRICULATION. However, approval for an absence will not be able to be considered if the request for accommodation is not made at least 10 days prior to the day/days of religious observance.

Students are also encouraged to discuss their anticipated absences with their course faculty and/or advisor. Students are not required to be back on campus to submit papers or take exams by the mornings following the religious holiday.

There are no classes held on Martin Luther King Day.

**Student Access to Records**

Students in the SON can view their own academic records on-line through student ACCESS. To view personal course schedules, grades, academic history, and account hold information, use the ACCESS tab in Blackboard.

**Student Crisis: Process for Resolution**

The SON has the following procedure in place in order to be helpful to students who are experiencing a personal crisis. Personal crises include, but are not limited to, situations such as suicide attempts, injuries, violence, and hospitalizations, or deaths among classmates or in families. This procedure applies to all SON students.

When working with students in crisis, every effort will be made to respect the dignity and the privacy of the individual. The confidentiality of the person(s) involved will be protected. However, administration and faculty are aware that there are usually more “victims” in a crisis situation than the people immediately involved. Therefore, concern for the welfare and health of all of our students in the SON must be considered when dealing with a crisis situation. Very often classmates, faculty, and staff are deeply affected by one student’s crisis. Providing for associated “victims” of crisis will also be a consideration of the Associate Dean for Education and Student Affairs.

When a crisis occurs with a SON student, the Associate Dean for Education and Student Affairs should be notified as soon after the event as is reasonable. It may mean a call in the middle of the night in order for
him/her to be available to provide support/resources. If the crisis occurs on River Campus, the Dean of Students will call the Associate Dean for Education and Student Affairs as soon as it is determined that the student in crisis is a nursing student. Other methods for discovering that a SON student is in crisis might be through the advisor or the faculty in courses that the student is taking. Family members may call in as well as nursing colleagues from Strong Memorial Hospital. Efforts to assist students require notification of the Associate Dean for Education and Student Affairs.

The Associate Dean for Education and Student Affairs then notifies the following individuals: Program Directors, Advisor, and clergy as appropriate. The Associate Dean for Education and Student Affairs will call a Care Conference of SON personnel as soon as she/he becomes aware of a student crisis. The River Campus individuals will be used as appropriate. SON personnel who will be included in the Care Conference include, but are not limited to SON Advisor, Program Directors, Student Affairs Office, and other appropriate support offices (e.g., Rape Crisis, Student Health, Mental Health Support teams).

Whenever possible, those individuals closest to the student in crisis, including other students, faculty and staff, will be asked to intervene to help him/her. Usually the advisor will be asked to play a pivotal role in the communication with the student and others in the immediate circle such as family and classmates. Before anyone is notified about a student in crisis, the permission of the student will be solicited. If the student is reluctant to notify family or classmates, this will be discussed with him/her and ultimately, the student’s wishes will be respected. If the student is unable to make the decision about notification of others, those individuals involved in the care conference will make plans.

The Care Conference will focus on: 1) the well-being of the student in crisis, 2) communication with his/her family and the SON community, and 3) the well-being of other “victims” such as classmates, friends, faculty and staff, and how protection of confidentiality can best be accomplished.

Communication with the student and/or family will be done by the minimum number of individuals from the SON. A plan for communication will be developed at the Care Conference so as to gain some immediate control over rumors. Additional resources needed to assist in the crisis will be identified in the Care Conference and sought immediately by a designated individual. River Campus personnel will be notified as appropriate.

In the days following the incident, the Student Affairs Office will be the focus of the communication and planning. They and the Associate Dean for Education and Student Affairs will communicate closely about the content and amount of information shared with the SON community. The last phase will include transitioning the student in crisis back into the SON community as appropriate. This, too, will be coordinated through Student Affairs in collaboration with the student and her/his advisor. Assistance with making up class work and altering the degree plan may have to be done. Every effort will be made to ease the transition of the student back into as much of the SON routine as is appropriate.

Student Records: SON

The SON maintains academic information on all students and graduates of the School. Student records are considered confidential and are kept in a secured area. Students who wish to examine their records may do so by making an appointment with the Registrar. The following information is maintained in each current student record:

- Student’s name, classification, advisor, and major concentration
- Student’s advising record (unofficial transcript)
- Clinical evaluations and documentation of hours completed

Additional types of information that may be found in some records of current students when appropriate include:

- Change of Status Form
- Program degree plan
• Letters regarding academic action (e.g., probation, separation)
• Academic alerts
• Approvals for courses taken outside the SON
• Transfer and re-admit evaluations of credits
• Prize and award letters
• Transcripts from other institutions attended
• Notices regarding compliance issues (RN license, CNET Medication Test, City-Wide Post-Test)
• Advisor and faculty comments about students regarding academic issues
• Descriptions and evaluations of independent study courses
• Address Change Form

Transportation

Clinical experiences require that students have access to transportation. Since many clinical experiences occur in the community and other affiliated agencies, students are well served to have access to a car. If the student does not have a driver’s license or access to a car, public transportation in Rochester may be utilized. However, some clinical placements may not be directly on a bus line. Unavailability of private transportation will not excuse the student from meeting course objectives. Baccalaureate students are encouraged to proactively arrange their transportation needs. Car-pooling with other students to and from community agencies may be an option. Faculty and clinical preceptors do not provide transportation for students.

Video and Still Camera and Audio Use at the School of Nursing

The student use of still/video recording devices/cameras (film or digital) in any classroom, laboratory, or clinical setting is prohibited in most circumstances. The student use of audio recording devices in any classroom or laboratory is allowed only with the permission of the faculty member/guest lecturer, which may be granted or denied at the faculty member’s discretion. Use of the audio tape/file is restricted to the student’s individual and personal use and may not be posted on the Internet or other social media. Students may not use earphones (ear buds, etc.), such as for an MP3 player, iPod, or other similar device, in any classroom, laboratory, or clinical setting without explicit course faculty approval.

This policy applies both to stand-alone video/camera and audio recording devices and use of still/video/camera or audio recording functions on other devices, including but not limited to, mobile/smart phones and other digital/recording devices. This policy is intended to protect copyright, intellectual property, and privacy and confidentiality concerns. The following exceptions are considered:

1. The use of such equipment is expressly authorized by the course faculty as part of a class or clinical assignment or activity.
2. Faculty permission is also required for any still/video/audio/recording in a clinical setting in addition to institutional policy, which may require human subject’s protection authorization and explicit, written permission of the participant.
3. This policy may not supersede any duly authorized ADA accommodations a student may have in place.

Consequences of failure to adhere to this policy may warrant review as a case of suspected Professional and/or Academic misconduct, in accordance with procedures specified in the SON Student Handbook.

Writing Skills: Expectations of the Faculty Regarding the Quality of Student Papers and Use of APA Formatting Guidelines

Faculty members expect that all required papers prepared by students will be carefully typed (double spaced) and proofread before submission. Papers are expected to be well written in terms of logical composition, grammar, and spelling. Properly citing referenced material, both paraphrased content and direct quotations, is essential to satisfactorily complete written assignments in the School of Nursing.
Failure to follow these basic requirements may subject a student to be unsuccessful on an assignment. If a faculty member judges that a paper does not meet these basic standards of writing, the paper may be returned to the student ungraded and the student may be required, at the faculty member’s discretion, to rewrite the paper before it is graded for content. Additionally, at the faculty member’s discretion, the final grade of the revised paper may be adjusted downward. Most importantly, a charge of academic misconduct for plagiarism may be made by a faculty member for failure to give credit to sources used (see section in this Handbook on “Professional and Academic Honesty” for details of the policy). Any policies about seeking ungraded critique, grading, and rewriting papers are determined by individual course faculty and described in each course syllabus.

APA formatting for papers and reference citations (both in-text and in the references list) written for course work in the SON must comply with current APA format, unless directed otherwise by a faculty member. Students are encouraged to purchase a copy of the most current version of the Publication Manual of the American Psychological Association (APA) for reference (see full citation below). Resources for students are available at the CERC, via Blackboard, and at the Miner Library.

At a minimum, students are expected to adhere to the following APA guidelines for submitting papers at the SON:

- Title page includes:
  - Running head: AND A BRIEF TITLE (ALL INCAPS)
  - Full title of the paper (Centered upper half of page, Upper and Lower Case)
  - Author name and affiliation
- Brief title is on all pages, upper left-hand corner, except for page 1 (this is the same phrase as the Running head). Place in the header section of the paper.
- Page number goes in the upper right-hand corner on all pages (title page starts with 1), also place in the header section.
- Repeat the Full Title of the Paper at the top of the first page of text (titles are NOT considered headings; Centered, Upper and Lower Case, NOT bolded)
- Abstract (optional, only if required by faculty) goes on a separate page
- Headings and subheadings used appropriately throughout manuscript
- 1" margins at top, bottom, right, and left on every page; only left margin is justified
- 12-pitch serif font (e.g., Times New Roman or Book Antiqua)
- Manuscript double spaced throughout
- Citations for all ideas, quotations, and references used
- Citations in correct format in manuscript text (e.g., Author, date)
- Direct quotations identified by quotation marks or indented blocks (if >39 words)
- Citation and page number given for all direct quotations (Smith, 2019, p. 159)
- Abbreviations and numbers use APA style
- Direct quotations are used sparingly – focus on paraphrasing and synthesis of ideas
- Language does not introduce bias (gender, age, ethnicity, sexual orientation, etc.)
- References in required format, on a separate page, labeled: References (not bolded)
- References double spaced
- Tables and figures follow APA format

Detailed information on use of these requirements is included in the APA Manual. An additional reference is Diana Hacker’s A Writer’s Reference (see full citation below). Hacker’s book includes a helpful guide to academic writing, sentence structure, grammar, and punctuation. Faculty may specify additional APA format requirements by including such information in their course syllabus.

Students are also advised to use a contemporary dictionary and thesaurus, and a manual on writing skills when preparing papers. For example, The Elements of Style, by William Strunk, Jr. and E. B. White (citation below), is an excellent reference that students may wish to use. Other writing resources include:

- Purdue Online Writing Lab (“OWL”): http://owl.english.purdue.edu/owl/resource/560/01/
• Merriam-Webster Online Dictionary and Thesaurus: https://www.merriam-webster.com
• Oxford English Dictionary online version is available through E. G. Miner Library
• School of Nursing CAPS program and Writing Tutors

Students who anticipate, or are experiencing, difficulty in writing should promptly discuss their concerns with their course faculty. Students may also consult their academic advisor or contact the Center for Academic and Professional Success (CAPS) regarding available resources, including a writing tutor and additional course work.

APA Citations for texts noted above:

SECTION III: FACILITIES, RESOURCES AND SERVICES

Blackboard Learning Management System

The entry point for Blackboard is available at https://learn.rochester.edu. It is normally available 24 hours a day, 7 days a week, and may be accessed either on or off campus.
All students should be aware of their Blackboard accounts. If you have taken courses at the School of Nursing (including FastTrack courses) or have taken online employee refresher lessons from Strong or Highland Hospitals, you will use the same Blackboard account. If you are new to the University, your Blackboard log-in will be sent to you.

Troubleshooting
If you had a Blackboard account in the past, but don’t remember the username, it may have changed.
Please follow these steps:
• Connect to http://tech.rochester.edu/services/netid/.
• Click the “Manage your NetID” link.
• Click the “Forgot NetID?” link and follow instructions

If you know your NetID, but require a password reset, follow the same steps above, but select “Forgot NetID Password?” in the final step.

If you are having any other difficulty with your Blackboard account or have any other questions regarding Blackboard, please contact the Blackboard Support team at SON_HelpBB@urmc.rochester.edu or call 585-275-7500. If you are trying to connect to the web site and it simply does not load, please feel free to copy Blackboard@urmc.rochester.edu in your email.

The School of Nursing has helpful information available online, such as frequently-asked questions and a link to the URMC Online Bookstore. This information can be found in the SON’s Online Learning Center: http://www.son.rochester.edu/online-learning.

The Center for Academic and Professional Success (CAPS)

The Center for Academic and Professional Success (CAPS) assists students to develop learning strategies, and improve study habits, critical thinking skills, and career management skills requisite to successful academic performance and professional advancement. It does so within the context of promoting a healthy balance between personal and professional goals. CAPS services (e.g., tutoring, test-taking support, assistance with writing and math skills, library and database searching, mentoring, resume writing and other career advancement services, and wellness services) are based on a belief that
academic success and professional growth occur within strong mutual connections with peers and faculty. More information can be found at www.son.rochester.edu/caps/

The Center for Lifelong Learning (CLL)

The Center for Lifelong Learning provides continuing professional education and nursing school prerequisites for nursing and healthcare professionals. Some of the courses are credit-bearing courses and others are non-credit courses, many of which offer continuing nursing education credits.

The Center for Nursing Entrepreneurship (CNE) houses innovative community oriented clinical services provided by the School of Nursing. The clinical services meet specific needs in the community, serving under represented children, international travelers and employees with health risks. Our clinical mission also provides unique practice opportunities for nurses and nurse practitioners. Currently there are 3 clinical service lines:

- **Passport Health**: Passport Health is a nurse run clinic that provides comprehensive services to international travelers- individuals, families and groups. Services include an intake assessment, individualized interventions including education, immunization(s), travel products, and a “customized” travel guide specific to the travel region.

- **Center for Employee Wellness (CEW)**: The CEW provides clinical services focused on maximizing the health and well-being of employees and their workplaces. The CEW works closely with organizations and corporations in understanding and managing the health and wellness needs of employees. The menu of services includes comprehensive personal health assessments which include biometric screenings, online life style and behavior assessment, employee portal which include summary risk profiles with customized recommendations. The program also includes one to one wellness coaching for chronic condition management or life style risks. The CEW also provides executive level process and outcomes reporting which informs decisions about program development, measures program success and details return on investment.

- **School Based Health Centers (SBHC)**: We currently offer 2 SBHCs in the city of Rochester. These nurse practitioner (NP) run clinics provide primary and mental health care services to some of the most vulnerable children in the community. The NPs also provide primary prevention services and promote healthy lifestyle choices.

Center for Research Support

The purposes of the Center for Research Support are to:

1. Facilitate the research and scholarly development of the School of Nursing faculty and their intra and interdisciplinary collaborators.
2. Provide training opportunities for pre and postdoctoral fellows in all phases of the research process.
3. Advance research dissemination and evidence-based practice.
4. Provide support to the Centers of Excellence
   - Elaine Hubbard Center for Nursing Research on Aging
   - Center for Research Implementation and Translation

Pre and Post Award Administrative Service

The goal of this group is to provide support to faculty and students. Assisting in achieving research goals by providing general administrative support, working closely on preparation of grant proposals, oversight of post-award financial management and the dissemination of research findings.

- **General Support Services**: preparation of research related presentations materials, including slides and posters.
- **Grant Proposal Submission**: scientific critique of proposals; mock NIH-style reviews; budget development and review; biographical sketch (maintain); other support (maintenance);
assistance with reference software; boiler plate documentation; graphic support (table, charts, models), electronic submission and facilitation of process

- Research Management Post Award Management: financial management; interpretation of federal regulations and guidelines; liaison with external agencies and internal departments; assist with non-competing renewal preparation and provide certified grant administrator

Research Facilitation Group
These are a comprehensive, vertically integrated set of services designed to speed research development by making experts and resources readily accessible to the investigator at each phase of the research process.

- Consultation Design: mentorship, biostatistician consultation, sample size determination, design and methods, proposal development
- Project Management: recruitment, IRB support, management of Information system (MIS)
- Technical Support: instrument development, database design, data management/processing, computer assisted data gathering (QDS), on line data collection, development of observational coding systems, variable creation and psychometric evaluation
- Data Gathering: interviewer training, data collection, focus groups

Conflict of Interest  https://www.rochester.edu/orpa/_assets/pdf/compl_COIPolicyFaculty.pdf Students submitting grant proposals must complete a UR Conflict Disclosure Form annually. Verification of annual disclosure is made at the time of proposal sign-off by ORPA (refer to items #11, 12 and 13 UR Sign-Off Checklist). University policy, guidelines, and forms are available from the Assistant to the Associate Dean for Finance & Administration office (3W140). The University of Rochester has implemented an electronic process for the completion and submission of conflict of interest.

External Proposals – UR Sign-Off. The U of R sign-off form must be completed by SON faculty/students prior to the submission of any proposal for external funding. Students should contact the Center for Research Support Administrative Assistant (Grants Coordinator) for guidance in completing the sign-off forms. It is important to allow at least 48 hours for completion of this process.

Intellectual Property Agreement. Students (graduate and undergraduate) who participate in any manner in a sponsored research project must sign an Intellectual Property Agreement (IPA) when hired or when filing for sponsor support. Students should contact the Center for Research Support Administrative Assistant (Grants Coordinator) for guidance in completing this form. Intellectual Property policies may be found at the following University of Rochester website http://www.rochester.edu/ventures/for-ur-innovators/for-inventors-university-policy-on-intellectualproperty-and-technology-transfer/

Publications and Abstracts of Presentations. Nursing students are encouraged to submit their writings for publication in professional journals. Manuscripts bearing identification with the UR should be discussed with a member of the faculty prior to submission.

-Students also are encouraged to present papers and posters at SON Clinical & Research Grand Rounds.

SON Clinical & Research Grand Rounds. The Center for Research Support sponsors regular research forums and development sessions for the presentation and sharing of research methods, conceptualization, study design and findings. The purpose of these forums is to enhance community collaboration pertaining to ongoing research and methodological issues as well as to enhance knowledge development in conducting research and utilizing research results. Announcement of meeting times and place appear in email communication to the SON. Faculty, doctoral students, post-doctoral fellows, clinical nurses and other interested persons are encouraged to present and attend.

Scientific Misconduct. The academic system demands that those engaged in research are dedicated to the highest ethical standards. Misconduct in scholarship and research by any member of the university community threatens the university as well as the individual. Students are referred to the Policy on Misconduct in Scholarship and Research (UR Faculty Handbook) for guidelines concerning the process
followed in response to an allegation of misconduct in scholarship and/or research or you may go to the following website and download the policy [https://www.rochester.edu/orpa/training/facportal/page_06.html](https://www.rochester.edu/orpa/training/facportal/page_06.html)

**Human Subjects Procedures:**

**UR SON IRB Full Application/Protocol Submission**

All RSRB applications submitted by SON researchers are required to have SON administrative signoff for scientific integrity prior to being submitted to ROSS.

Please ensure that you have identified other approvals that may be required for your proposed project prior to completing the RSRB application. For projects involving the UR Medical Center, contact Dr. Mary Carey or the appropriate Associate Director of nursing to review the feasibility and acceptability of the project. Certain projects may also require scientific review prior to RSRB review. Examples of these projects are: The Cancer Center, Obstetrical, Neonatal Clinical Trials, Emergency Medicine, Institutional Biosafety, Surgical Pathology, Human Use of Radiation, Clinical Research Center, and Rochester Center for Brain Imaging.

The following individuals will be responsible for the internal reviews:

**SON Faculty, Post-Doc, and PhD Student Reviewers:**
- Associate Dean for Research (ADR) & Director of SON Research Compliance (DRC)

**SON DNP Student Reviewers:**
- Director of SON Research Compliance & Director of DNP Program

**SON RSRB Support Staff:**
- Administrative Assistant to ADR (AA to ADR) & Research Compliance Officer (RCO)

**UR SON IRB Application and Amendment Protocol Submission Procedures**

The following steps are required to complete SON administrative signoff:

**SON PhD Students & DNP Students**

**SON PhD** Students do not have accessibility to submit IRB applications on their own. The application will be submitted under the designated chair or mentor. Students must contact their committee chair or mentor and work closely with them prior to submission. Together, the student and committee chair will follow submission requirements listed for SON Faculty.

**SON DNP** Students submitting IRB applications with minimal risk, do have accessibility to submit on their own, as long as their committee chair is listed as Co-PI. If the study is greater than minimal risk, the student's committee chair will need to be listed as PI.

*The Scientific Review for Human Subjects Research* form is composed of 3 sections: Scientific Merit, Risk Identification and Management, and Investigator Qualifications/Resources. Required core elements of the first 2 sections match required elements of the RSRB protocol template. However, the RSRB protocol template does not require information needed to evaluate Section III of the Standards Checklist. It is therefore incumbent on the PI to include sufficient information related to Section III of the Standards Checklist within the RSRB protocol (please include the relevant information under Methods and Procedures.)

**Amendment Procedure**

The amendment procedure applies to ALL SON RSRB protocols. Amendments made to the initial submission need to be reviewed by ADR or DRC except for UR personnel changes.

1. Please email AA to ADR your amendment(s) and she will have it reviewed by the available reviewer.
2. Once reviewed AA to ADR will notify the PI of approval to submit amendment.
3. If there are revisions requested upon review of the amendment(s) the reviewer will notify the PI and AA to ADR of the required revisions. The reviewer will specify if a review of the revisions is required. If not, upon making any revisions the PI can upload the amendment(s) into the ROSS system.

**Following RSRB Approval**

Please complete the following:

1. PI or study staff will email AA to ADR the RSRB approval letter or confirmation email.
2. *All Prospective study PIs* will meet with the Office of Human Subjects Protection: Research Quality Improvement team for startup consultation, preferably prior to recruitment and informed consent procedures with participants. If OHSP-QI staff is not available to meet within 4 weeks after RSRB approval, please contact the AA to ADR who will notify the ADR and DRC who can then provide guidance on study startup. This is to ensure appropriate documents and procedures are in place to conduct the study. After this meeting the study team will develop a comprehensive QMP for the study.
3. *All retrospective chart reviews* will meet with either ADR or DRC, to review important guidelines, documentation and procedures for conducting ethical research. The study team will then develop a comprehensive QMP for the study.
4. The QMP will be submitted electronically to the designated BOX folder for review and approval by the ADR or her designee.
6. Examples of comprehensive QMPs for different risks levels can be found at http://www.rochester.edu/ohsp/documents/quality/pdf/qmp/Appendix_A.pdf
7. Based on the study’s QMP, the internal study evaluation report will be uploaded to the BOX folder for the PI’s and ADR review and corrective action, if applicable.
8. The ADR will provide the Dean with an annual report of all QMP internal evaluations.

**Internal SON QMP Evaluations**

*6 months after start of research activities and at regular intervals depending upon the risk level and where in the research cycle the study is an internal SON evaluation will be conducted.*

All studies will be internally evaluated by either ADR or DRC. The PI will be sent a checklist to assure all materials are ready for review prior to the internal evaluation. This evaluation will be a comprehensive review of all study materials, regulatory binders etc., along with review of internal study QMP reports. For any issues discovered, a Corrective and Preventative Action (CAPA) plan will be developed by the study team and approved by the ADR or her designee.

**OHSP quality assurance audits:**

Ongoing- Any routine OHSP quality assurance notifications and audit results are to be sent to the ADR. Full board determination and any further corrective action including all CAPA plans should be sent to the ADR. Finally, any sponsor audit results, serious adverse events or OSHP required action for non-compliance need to be sent to the office of the ADR.

**Clinical and Educational Resource Center**

The Clinical and Educational Resource Center (CERC) was established to provide nursing faculty, staff, and students with facilities to support alternative forms of learning. Resources are available to encourage independent learning and enhance traditional teaching methods. Any of the following services are available to the School of Nursing community and may be scheduled for individual or group use through the CERC at x55913 or by contacting the Administrator at x50535:

- Access to the Nursing Skills Lab, equipped with wall-mounted suction, oto/ophthalmoscopes, blood pressure cuffs, and VCR monitors for viewing, practicing, and demonstrating a variety of nursing skills and procedures. The skills lab also houses 4 IBM compatible computers. Room 1W112 has a variety of beds,
stretcher, and examination tables for use.

- Access to nursing related audio-visual support programs (e.g., video, slide, audiotape, computer aided instructional programs). CERC has an extensive collection of nursing related videos available for viewing in the viewing lab (described below). The video collection includes well over 500 titles including several popular series covering such diverse topics as physical assessment, basic and advanced clinical skills, child development, and ethical issues concerning health care workers.
- Use of 22 computers connected to the SON network with Office 2007 and internet access available located in Computer Lab (1W216).
- Viewing Room (1W216A) for viewing videotape, and instructional computer programs. Three additional computers are also available with printer access.
- Assistance in finding and navigating computer programs on the network. Email assistance is also available for SON students, if needed.
- Assistance with selection and use of teaching aids, audio-visual support materials, and computer based instructional programs.
- Reservation of skills lab, computer room, media, equipment, and supplies for instructional use within the CERC.
- Check out of approved teaching media, equipment, and supplies for instructional use outside the CERC. The CERC hours will vary slightly from semester to semester and during school breaks and recesses. Also, not all facilities may be available at all times due to scheduled instructional activities. Please observe CERC’s posted schedules for each semester or call ahead to verify hours of operation.

In general, the center is open the following hours:
Monday-Thursday  7:30 a.m. – 8:00 p.m.
Friday           7:30 a.m. – 4:00 p.m.
Saturday         12:00 noon – 4:00 p.m.

During school breaks and recesses, hours are 7:30 a.m. – 4:00 p.m., Monday-Friday, with no weekend hours.

Open hours may vary due to scheduled evening classes. Please see posted hours at the CERC desk. If you should have any questions, please contact the CERC Secretary at 585-275-5913. You may also visit us on the web at http://www.son.rochester.edu.

Clinical Site Coordination

All clinical placements are coordinated through the SON Preceptor and Clinical Site Coordinator. Every effort is made to secure appropriate placements for each student. All arrangements for preceptors are made in conjunction with the course coordinators and Program Directors. If there is a special request or specific need for GRADUATE clinical placements, this should be discussed with the course coordinator before the semester begins. Students are not permitted to contact any clinical site or preceptor directly to request placements.

Computer Consultation

Assistance with Blackboard, Microsoft Office components, computer accounts, and computer troubleshooting is available through the SON ITS (Information Technology Services) team. Basic questions can be answered at the CERC desk. Further support is prioritized by severity of need as seen by the SON Information Technology Services director. Please contact the network administrator at sonhelp@urmc.rochester.edu to request support.

Computer Lab and Copy Card

Students have access to the first-floor computer room located in room 1W216, and the viewing room 1w216A. These rooms are utilized primarily for student course work, Internet access, and student email. Students may use the Computer Room for printing purposes. There is a ten cents per page fee for printing.
Printing and photocopying at Miner Library
To print or make photocopies, you can use your UR ID or purchase a print/copy card at the Library.

To use your UR ID
You'll need to have funds in your URos account. URos accounts are automatically activated for incoming SON students and ready for funds to be added.
To add funds:
- Log in to your Blackboard account
- Click Services, then Accounts, then select the eAccounts link
- Click Sign In, enter your NetID and password, then click URos
- Minimum deposit is $20

For questions regarding URos accounts, contact River Campus ID Office, Susan B. Anthony Hall - Room 114A, at mealplans@services.rochester.edu or 585-275-3975.

To purchase a print/copy card
Preloaded $5 cards are available for purchase at the Miner Library Answer Desk (cash or check). Print/copy cards do not expire and can be used anywhere that accepts URos.

Course Descriptions
School of Nursing’s course descriptions can be found on the School of Nursing website www.son.rochester.edu.

Electronic Mail and Etiquette
All matriculated students in the SON receive an e-mail account that is secure within our system. Faculty and staff frequently use e-mail to communicate course material with students. Students are responsible for checking their e-mail for messages. Students must use their URMC e-mail account for all communication with SON faculty and among other students for school-related business.

Use of E-Mail in Academic and Professional Contexts: Twenty Points to Consider
1. In the academic context, all electronic-mail (e-mail) correspondence should be considered formal, professional communication.
2. Always include a topic in the “Subject” heading of your e-mail
3. To this end, begin e-mails with a formal salutation (“Dear X,” or “Carolyn,”).
4. The body (text) of the e-mail should be written in complete sentences, without the use of slang or contemporary e-mail jargon (BTW, LOL, By 4 Now, Where RU, smiley faces [emoticons], etc.).
5. E-mail correspondence should be ended formally followed by your name (“Thank you,” “Sincerely,” “Best Wishes,” etc.).
6. It is strongly suggested that you use an electronic signature for professional correspondence. This should include your full name, credentials, position, and appropriate contact information (office location, office phone number, fax number, etc.).
7. Strive to be concise and to the point; avoid multiple, lengthy paragraphs.
8. Do not include witty quotations, religious verses, or sales pitches in your signature.
9. Do not send e-mail in the academic/professional context that is sloppy, whining, or abusive.
10. Always proofread e-mail before sending it. Try to envision what the receiver will see when they open your e-mail. Use the proofreading feature of your communication program.
11. Use the spell checking function of the program.
12. Do not use ALL CAPS in your correspondence (this is considered to be “screaming” in e-mail).
13. Remember that e-mail always provides a very traceable “paper trail.” Do not send an e-mail that is likely to haunt you in the future.
14. Never use foul (obscene) language or send anything that might be considered racist, sexist, libelous, or defamatory.
15. Do not send confidential or HIPAA-protected information in an e-mail.
16. If (when?) you receive an e-mail that makes you see red—close it—think about it overnight, and consider whether you should just delete it or compose a response, keeping all of the above considerations in mind.
17. Be very careful when responding to e-mail that you use “Reply All” only when absolutely necessary, or when specifically requested to do so (for example, when setting up a small group meeting). Ask yourself, “Does my response really need to go to all 100 people on this mailing list?”
18. Do not forward virus hoaxes, chain letters, jokes-of-the-day, etc.
19. At the most serious extreme, in either professional or academic settings, inappropriate use or content of e-mail may be considered as grounds for termination and/or a charge of academic misconduct.
20. E-mail is a very convenient form of communication. Use it thoughtfully. Do not abuse it.

**Fire Alarms/Drills**

When a fire alarm is activated, students should immediately take their personal belongings from the classroom/space and exit the building. If a computer is in use, the computer should be turned off. The elevator will not be usable; persons should go immediately to the nearest stairwell. Everyone must remain outside until given clearance to return. If a student locates a fire, he/she should activate the fire alarm and call Security (dial 13).

**Libraries**

All full- and part-time students, faculty members, and staff of the University may use any of the University libraries. The University ID card serves as a library card. The major libraries are Edward G. Miner Library (serving School of Nursing, School of Medicine and Dentistry, Strong Memorial Hospital), and Rush Rhees Library (serving River Campus). Students also are welcome to use other UR libraries, including Williams Health Sciences Library at Highland Hospital and Basil G. Bibby Library at Eastman Institute for Oral Health. Graduate students seeking literature for preparation of these are encouraged to use the Miner and Rush Rhees libraries. Edward G. Miner Library, 1-6220 (275-3361), has a comprehensive collection and also subscribes to thousands of electronic journals and hundreds of electronic books. Go to Miner Online at [http://www.urmc.rochester.edu/libraries/miner](http://www.urmc.rochester.edu/libraries/miner) to access all of Miner’s electronic resources or use the library tab in Blackboard. Miner Library also has many computers (both PC and MAC) which provide access to its electronic resources and graphics and statistical software.

Reference librarians are available to assist you, Monday – Friday, 9:00 am – 5:00 pm.

- We can help you learn to search the literature quickly and effectively and work together through your research question locate relevant citations.
- Get help and learn more about library supported citation managers: EndNote and RefWorks.
- Learn about Miner Library and which Miner Resources are best suited for your specific research needs.
- Instruction about how to search databases such as PubMed and CINAHL.
- Darcey Mulligan is the library liaison to the School of Nursing. Contact her for personal assistance at Darcey_mulligan@urmc.rochester.edu or quickly make an appointment to meet at Miner or using Zoom here: [https://minerca1.urmc.rochester.edu/appointments/mulligan](https://minerca1.urmc.rochester.edu/appointments/mulligan)

Tours of Miner Library are offered for all new students and faculty. Students are encouraged to go on a tour which can be scheduled by contacting Darcey Mulligan.

**Printing and photocopying at Miner Library**

To print or make photocopies, you can use your UR ID or purchase a print/copy card at the Library.

**To use your UR ID**
You’ll need to have funds in your URos account. URos accounts are automatically activated for incoming SON students and ready for funds to be added.
To add funds:
- Log in to your Blackboard account
- Click Services, then Accounts, then select the eAccounts link
- Click Sign In, enter your NetID and password, then click URos
- Minimum deposit is $20

**Lockers**

Lockers are provided in HWH 1W207 and HWH 1W204 for student use. Arrangements for lockers are made through the Student Affairs office. Individuals furnish their own locks. Before graduation students are expected to remove their locks and contents from their assigned lockers. Locks not removed by graduation will be cut off and contents of lockers disposed of in order that the lockers may be reassigned. Refrigerators and microwave ovens are also available in HWH 1W204 for students’ use and students are responsible for keeping the appliances and room neat and welcoming to others.

**Lost and Found**

CERC serves as a “Lost and Found” collection site for SON. Items should be taken there immediately.

**Mail Boxes**

Each Accelerated Program for Non Nurses student in the SON has an individual hanging file in the locker room located in 1W204. MS/PhD &PhD, and MS/DNP & DNP student mailboxes are located in room 4W212. Intramural correspondence from faculty members and administration (e.g., memos, appointments, notes) will be placed in the student’s hanging file or mailbox in a secure envelope. Therefore, students are responsible for checking their mailboxes regularly.

**Parking**

All faculty, staff, students and University affiliates who wish to park on any Campus must register their vehicles with the Parking Office. A parking permit is required at all times including the visitor’s lot. The Medical Center Parking Office is located at 70 Goler House. Please have your plate number, make and year of your vehicle and student ID when you register. Office hours are 8:30 a.m. – 4:30 p.m. (M-F). Payment can be made via cash, check (payable to the UR Parking Department) or Credit Card (VISA, MC or Discover). Parking permits are required for all non-gated lots issued by the Parking Department or by the direct department. Cars illegally parked will be ticketed.

Students/Employees with existing Parking Permits:

**U of R Employees:**
- When attending classes, will continue to park in their assigned parking lot

**Highland Hospital Employees:**
- Who display a paid Highland permit will park in College Town Garage
  - To enter and exit the garage you will state your name and your HH permit number

Visit rochester.edu/parking for information and services available through My Parking Online.

**Room Reservations: Helen Wood Hall**

HWH is open Monday-Friday from 6 am to 8 pm. On evenings and weekends, the building is locked but access can be gained by using a valid UR ID card. If you must access the building outside of the normal building hours, Public Safety will open the front door upon request providing you have a form of ID.
It is helpful to note that the room numbers in HWH always begin with a number that specifies on which floor
the room is located. It is then followed by a W and three numbers which denote the actual room number on
that floor.

Reservations for the use of all classrooms, conference rooms, and Evarts Lounge are made by emailing
the SON Education Resource Office at SON-Room-Scheduler@URMC.Rochester.edu. Requests are
determined on a first-come, first-served basis. When making room reservations for a special meeting,
always communicate the date, time, meeting title, approximate number of attendees, and indicate if you
need media.

When leaving a classroom or the Lounge, students and faculty should assume the responsibility for the
room by closing and locking windows and doors, turning off lights, straightening chairs, erasing
blackboards, and putting any trash into the wastebaskets. If tables or chairs have been rearranged, they
must be returned to the position they were in when entering the room. Removing chairs from classrooms to
accommodate a larger amount of people is prohibited. If a key is borrowed, please return it to the
appropriate office. Misuse of facilities or lost keys will necessitate restriction of their availability. If anything
is amiss, please email SON-Room-Scheduler@URMC.Rochester.edu or call 585-276-3727.

School of Nursing Committees

The School of Nursing offers leadership opportunities to undergraduate, graduate and doctoral students
during the course of the academic year to serve as a student representative on School of Nursing Standing
Committees. These committees are: Curriculum Committee, PhD Subcommittee, DNP Subcommittee,
Master’s Subcommittee, Student Affairs, and Undergraduate Subcommittee. Students will be contacted
early in the school year asking if they are interested in serving as a student representative on one of these
committees.

Teaching Assistants

Teaching Assistants may be assigned to course faculty to assist in their teacher assignments.

Telephone Bulletins

Recorded announcements of major University events are provided by the Office of University
Communications. From outside the University, dial 275-6111, and from inside, 5-6111. Direct input for the
recorded message can be made only by designated personnel. If an emergency schedule change has
broad impact and notice through the telephone bulletin is required, college deans can arrange it. During
emergencies (e.g., a major snowstorm), call 275-6111 for information. See “Emergency Operation” for
additional procedures.

Telephone Numbers

See Appendix H for contact persons’ telephone numbers.

University Health Service (UHS)

http://www.rochester.edu/uhs/
585-275-2662

The University Health Service (UHS) provides a full range of confidential, high-quality health care services
for full-time University of Rochester students. The UHS clinical staff includes physicians, nurse
practitioners, and registered nurses. To provide students with a more personal and effective interaction, all
students are assigned a primary care provider (PCP) at UHS. Visits to the University Health Service are
covered by the mandatory health fee that full-time students pay. Visits to UHS are by appointment. Please
call 585-275-2662 to schedule. Whenever possible, appointments are scheduled with the student’s primary
care provider.
All visits to UHS are confidential. UHS will not share any information about the fact or nature of a patient’s visit to UHS without the patient’s permission. Notification of others, including friends, parents, supervisors, and University administrators and faculty, is considered the student’s responsibility unless the condition is serious and the student is unable to assume responsibility for informing others.

The University Health Service has offices on the River Campus, in the Medical Center, and at the Eastman School of Music. The UHS River Campus Office is located on the first floor of the UHS Building on the River Campus. This office is open seven days a week during the academic year with evening hours Monday through Thursday. The office is open weekdays during school vacations and the summer. The UHS Medical Center Office is located in 1-5077, which is on the Crittenden Boulevard side of the Medical Center. This office is open weekdays throughout the year. Whenever UHS offices are closed, a UHS physician is on-call and available by phone (585-275-2662) for patients with urgent concerns that cannot wait until the offices re-open. Full-time students are encouraged to call UHS before seeking care outside UHS.

The University Health Service (UHS) does not provide retroactive excuses for missed classes. Students who are seen at UHS for an illness or injury can ask for documentation that verifies the date of the student’s visit(s) to UHS without mention of the reason for the visit. If the student’s UHS provider determines the student should curtail activities in the coming days or weeks, the provider will give the student written instructions with specific recommendations. Documentation cannot be provided to students who were not seen at UHS for their illness or injury. Students are encouraged to make every effort to resolve health-related absences and issues by talking with the faculty directly.

University Counseling Center (UCC)
http://www.rochester.edu/ucc/

The University Counseling Center (UCC) offers time-limited individual and couples therapy and yearlong group therapy to full-time students. Visits to the University Counseling Center are covered by the mandatory health fee. Students can be seen in the UCC offices on the River Campus, in the Medical Center, and at the Eastman School of Music. The office on the River Campus is located on the third floor of the UHS Building. If concerned about a University student, call the UCC emergency service. The mental health professional on-call can be reached 24 hours/day throughout the year by calling 585-275-3113.

All contacts with UCC are confidential. The fact that a student is using UCC will not be disclosed to any University official or faculty member, or to family, friends, or roommates without permission of the student. In addition, UCC will not release any clinical information about a student’s visit, even with the student’s written request, except to another therapist or the primary healthcare provider for purposes of further treatment.

Therapists at UCC have experience in assisting students with a variety of concerns including anxiety, depression, relationship difficulties, family problems, eating concerns, sexual functioning, sexual identity, grief, school-related problems, and general discomfort about what is happening in a person’s life. UCC also offers a variety of therapy groups on topics such as women’s or men’s issues, survivors of trauma group, and women of color discussion group, adult children of alcoholics, eating disorders, and bereavement. For information about groups being offered during the current academic year, call UCC at 585-275-3113.

SECTION IV: GENERAL INFORMATION ON THE BACCALAUREATE CURRICULUM AND PROGRAM

| Accelerated Baccalaureate Program for Non-Nurses |
| Baccalaureate Program for Registered Nurses (RN to BS) |
| RN to BS to MS Program |

Admission
Application deadlines for the APNN are July 1st for January admission, November 1st for May admission, or March 1st for September admission. The RN to BS program has rolling admissions. See the appropriate sections for RN to BS to MS application due dates.

For admission to the Accelerated Bachelor’s Program for Non-Nurses:
1. Completion of a non-nursing baccalaureate degree from an accredited school.
2. Cumulative grade point average (GPA) of 3.0 preferred from the non-nursing baccalaureate degree.
3. Two favorable references which address professional and academic ability.
4. Professional goal statement.
5. Current résumé (CV)
6. Personal interview.
7. Prerequisite courses with grade of C or above (Anatomy and Physiology I & II, Microbiology, Nutrition, Human Growth and Development, and Statistics).
8. TOEFL scores (>560 for paper-based test, >88 for i-based test and >230 for computer-based test) for international students.

For admission to the RN to BS program:
1. Completion of a Diploma or Associate Degree in Nursing from an accredited school of nursing. Applicants who graduated from a non-accredited Diploma or Associate Degree nursing program are encouraged to apply to the SON; if admitted, they must complete the Excelsior College Examinations (before beginning SON nursing courses) to receive credit for their basic nursing education.
2. Cumulative grade point average (GPA) of 3.0 preferred.
3. Completed letter of support from supervisor (for those who are working) or nursing faculty member (for those still in school).
4. RN licensure within the United States or U.S. territory.
5. TOEFL scores (>560 for paper-based test, >88 for i-based test and >230 for computer-based test) for international students.

For admission to the RN to BS to MS programs:
1. Completion of a Diploma or Associate Degree in Nursing from an accredited school of nursing.
2. RN licensure within the United States or U.S. territory.
3. Cumulative GPA of at least 3.0 preferred from nursing program.
4. Statistics course with a grade of C or above.
5. Submission of a professional goal statement describing reasons for seeking admission to the program as well as career goals
6. Current résumé (CV)
7. Writing sample (e.g., prior scholarly paper, published article)
8. Two favorable letters of reference that address clinical, professional, academic and leadership ability. It is desirable that one of the letters be from a professional/supervisor in health care.
9. Personal interview(s) with program faculty member at discretion of the faculty
10. For international students, TOEFL with a minimum score of 560 (paper-based), 230 (computer-based) or 88 (“i-based”)

**Curriculum for Accelerated Baccalaureate Program for Non-Nurses**

**First Semester (17 credits)**
- NUR 370 Pathophysiology/Pharmacology 6 credits
- NUR 362 Nursing Health Assessment 3 credits
- NUR 372 Beginning Medical-Surgical Nursing 4 credits
- NUR 373 Foundations of Nursing Practice 2 credits
- NUR 378 Genetics 2 credits
Second Semester (16 credits)
NUR 374 Women’s Health, Neonatal and Pediatric Nursing 7 credits
NUR 375 Psychiatric Mental Health 3.5 credits
NUR 301 Principles and Application of Evidence for Nursing Practice 3 credits
NUR 376 Intermediate Medical-Surgical Nursing 2.5 credits

Third Semester (16 credits)
NUR 377 Advanced Medical-Surgical Nursing 8 credits
NUR 371 Management of Care 4 credits
NUR 379 Nursing Integration and Transition to Practice 4 credits

The above program includes 49 credits generalist nursing courses (90 laboratory hours and 700 clinical hours); 79 credits are transferred from previous baccalaureate degree. The 49 credits in the program are considered a residency requirement and are the minimum number of credits that must be completed at the University of Rochester School of Nursing.

Any changes to the prescribed full-time plan require permission of the Program Directors. If an APNN student requests a change, or failure in a course results in a change, in the standard program plan, placement in future course(s) will depend on availability of space in the subsequent cohort(s).

The student who has failed a course is responsible for investigating any financial implications of these changes (e.g., the flat rate versus the per credit hour tuition rate). Note that APNN students unable to progress to NUR 379 will remain charged at the full time flat rate for that semester; in the subsequent semester, when NUR 377 is repeated with NUR 379, charges will be at the per credit rate.

Prerequisites for Undergraduate Courses in the Accelerated Programs for Non-Nurses

All clinical courses require matriculation. Course numbers and prerequisites may be subject to change.

Curriculum for RN to BS Program

RN to BS PROGRAM REQUIREMENTS (128 credits):

FOUNDATIONAL ARTS AND SCIENCES COURSES (64 credits)
Humanities (examples – Fine Arts, Languages, Philosophy, Religion, History) | English Composition and an additional writing course (NSG 301) | NSG 316 NSG 317 | 3 | 9-12

Natural Sciences (examples – Chemistry, Biology, Microbiology, Anatomy, Physiology, Physics, Geology, Environmental Science) | Genetics Nutrition | NUR 378 NSG 310 NSG 318 NSG 326 | 4 | 12-16

Social Sciences (examples – Psychology, Sociology, Anthropology, Human Development, Economics) | Statistics | NSG 311 NSG 325 NSG 328 NSG 329 NSG 336 NSG 337 NSG 338 | 4 | 12-16

Free electives to total 64 credits | | | varies | varies

The above courses can be completed through the College Level Examination Program (CLEP) challenge examinations, accredited community colleges or universities or through elective coursework at URSON. Foundational coursework must be completed prior to starting the RN to BS core courses.

64 arts & sciences credits awarded automatically upon matriculation if the student has a non-nursing Bachelor’s Degree. Statistics, genetics, nutrition, and an additional writing course (NSG 301) are also required and any of these credits, if completed at UR SON, may be used toward the nursing elective requirement.

NURSING COURSES (64 credits)

First 32 credits awarded automatically upon matriculation for all nursing coursework from an accredited diploma or associate’s degree program.

The RN to BS program is Part-Time only – there is no Full-Time option.

Beginning in September 2013, nutrition and genetics are graduation requirements; beginning in September 2014, an additional writing course is a graduation requirement; beginning in September 2017, the additional writing course must be NSG 301.

Remaining 32 credits must be completed at UR:

An additional semester will be required if the student is not petitioning for prior experiential learning credit through the Portfolio process as part of NUR 350.

**Curriculum for RN to BS to MS NP Program**

**BS Portion**

**FOUNDATIONAL ARTS AND SCIENCES COURSES** (see RN to BS Curriculum)

**NURSING COURSES** (64 credits)

First 32 credits awarded automatically upon matriculation for all nursing coursework from an accredited diploma or associate’s degree program

Final 32 credits toward baccalaureate portion of the degree must be completed at UR:

- Six core bridge courses (total 22 credits)
  - NUR 354 Concepts of Leadership and Management of Care (4 credits)
  - NUR 356 Population Health (5 credits)
  - NUR 364 Biopsychosocial Health Assessment of the Individual and Family (3 credits)
  - NUR 400 Research Principles for Evidence Based Practice (5 credits)
The student then continues on with one of the NP specialty program plans (which appear in the Master’s NP section [Section V] of the Student Handbook), having already completed NUR 400, NUR 401 and NUR 403. The BS degree is awarded when student has completed 32 nursing credits at UR, as well as 64 arts and sciences credits.

RN to BS to MS-NP students **must complete 64 arts and science credits** prior to beginning the nursing bridge coursework.

RN to BS to MS students must complete the requirements for the baccalaureate degree, including the arts and sciences requirements, prior to beginning NUR 410/412/415. An exception is allowed when the credits from NUR 410/412/415 are needed to meet the required 32 credits of nursing coursework of the BS degree. Credits from NUR 410/412/415 do not meet the arts and science requirement. Sample plans for the RN to BS to MS/NP are available from advisors and Program Directors.

---

### Curriculum for RN to BS to MS Nurse Education Program

#### BS Portion

**FOUNDATIONAL ARTS AND SCIENCES COURSES** (see RN to BS curriculum)

**NURSING COURSES (64 credits)**

First 32 credits awarded automatically upon matriculation for all nursing coursework from an accredited diploma or associate’s degree program

Final 32 credits toward baccalaureate portion of the degree must be completed at UR:

- NUR 350 RN/BS Transition: Reflective Professional Practice (4 credits)
- Nursing elective (0-4 credits) and/or NUR 350 Variable portfolio credits (0-4) (must total to 4 credits)
- NUR 319 Pharmacology/Pathophysiology Update for RNs (4 credits)
- NUR 354 Concepts of Leadership and Management (4 credits)
- NUR 356 Population Health (5 credits)
- NUR 355 Contexts of Health Care: Policy, Finance and Regulatory Environments (3 credits)
- NUR 364 Biopsychosocial Health Assessment of the Individual and Family (3 credits)
- NUR 401 The Writing Workshop (1 credit)
- NLX 420 Theory and EBP for Nurse Educators (4 credits)

**Total: BS awarded upon completion of a total 128 credits**

The BS degree is awarded when student has completed 32 nursing credits at UR, as well as 64 arts and sciences credits. RN to BS to MS-MNE students **must complete 64 arts and science credits** prior to beginning the nursing bridge coursework.

Sample plans for the RN to BS to MS/MNE program are available from advisors and Program Directors.
**Additional Information Specific to Baccalaureate Students**

**Dean’s List for Baccalaureate Students.** Dean’s List appointment requires a semester GPA of at least 3.6 based on successful completion of all coursework taken, anywhere at the University, with a minimum of 6 credits completed for letter grades and no grades of I, N, WE or E in a given semester.

**Dress Code.** Students are expected to dress appropriately when involved in professional activities, for which faculty set and enforce professional standards. Individual units or agencies may also determine dress regulations. The uniform for clinical is a white scrub top (with a plain white tee shirt underneath) and navy scrub pants. The SON Student Patch is to be permanently attached to the left mid-clavicular area. Accessories include a watch with second hand, black pen, and stethoscope. Hospital-issued scrub clothes are not to be worn outside of clinical patient care areas without a white lab coat or appropriate jacket/coat. When preparing clinical assignments, attire is business casual (no denim). Specialty areas (e.g., Home Health, OR, etc.) may have specific attire requirements. Please refer to appropriate course syllabi.

The dress code is adapted from requirements of Strong Memorial Hospital and Highland Hospital Nursing Practice. It is the responsibility of all nursing students to maintain a professional image. Apparel and appearance shall reflect the nature of professional practice. Individuals entering operating rooms must adhere to AORN standards for scrub attire.

</tr>
<tr>
<td>Wrinkled, torn, or stained scrubs are not permitted. No graphics or logos on tee-shirts. Skirt length should be no shorter than 2 inches above the knee. Undergarments – no visible colors, prints, or contour lines; no thongs</td>
<td></td>
</tr>
<tr>
<td>Footwear</td>
<td>Clean shoes, clogs with a back, or sneakers are acceptable.</td>
</tr>
<tr>
<td>No fluorescent colors</td>
<td></td>
</tr>
<tr>
<td>Jewelry</td>
<td>Jewelry should be modest and safe.</td>
</tr>
<tr>
<td>Dangling earrings and ankle bracelets are not permitted. Wrist jewelry, which interferes with adequate hand washing or scrubbing, must not be worn. Eyebrow or lip piercings are not permitted; a single nose stud is permitted. Rings – only wedding bands</td>
<td></td>
</tr>
<tr>
<td>Jewelry (continued)</td>
<td>Hair should be styled neatly and shoulder-length or longer hair secured away from the face. Hair accessories should be minimal.</td>
</tr>
<tr>
<td>No perfume or scented lotions or sprays.</td>
<td></td>
</tr>
<tr>
<td>Miscellaneous</td>
<td>Nail polish – none (preferred) or clear</td>
</tr>
<tr>
<td>No artificial or enhanced fingernails. Nails no longer than ¼ inch from the fingertip.</td>
<td></td>
</tr>
</tbody>
</table>

*Artificial or enhanced nails are associated with increased colonization of bacteria capable of causing infection. Nail polish that is chipped can harbor bacteria. These situations may increase the risk of infections among patients who come in contact with the nails. Long nails may tear gloves worn by
healthcare personnel.

Stethoscopes should be cleaned before and after every use with a hospital approved disinfectant.

Capstone (NUR 379). Capstone placements are made in the area and not out-of-state, because site visits by faculty are required.

Student names (confirming status as a new graduate, and necessary for NCLEX) will not be forwarded to New York (or any other) State if there is an outstanding student account balance.

Electives. Assignment of credit on the student transcript will be established based on the number of credits for which the student registers. Graduate level, 3 credit electives may be taken by non-matriculated RNs and RN to BS Baccalaureate students. The student should register for and receive 4 credits for the course.

Infectious Disease Work Restrictions – https://sites.mc.rochester.edu/departments/infection-prevention/ – section 7.6

**Clinical experience**

- One year clinical experience
  - Preferred for AGPCNP, FNP, PMHNP, and PNP
  - For AGACNP, requires one year full–time (or equivalent) RN experience in acute care prior to enrollment in NUR 411
  - Two years NICU required for NNP

For post-Master’s NNP, Master’s in maternal-infant or maternal-child health or pediatrics; two years NICU experience in the last five years.

| Declare specialty area when applying | Required | Required |

For admission to the Accelerated Master’s Program for Non-Nurses:

1. Completion of a non-nursing baccalaureate degree from an accredited school.
2. Cumulative grade point average (GPA) of 3.0 preferred from the non-nursing baccalaureate degree.
3. Applicants must declare a specialty when applying for admission.
4. Two favorable references which address academic ability and nursing potential.
5. Typewritten professional statement with career goals that are compatible with program objectives and a strong commitment to nursing.
6. Curriculum Vitae or resume
7. Personal interviews (undergraduate and master’s specialty faculty).
8. Prerequisite courses with grade of C or above (Anatomy and Physiology, Microbiology, Nutrition, Statistics and Human Growth and Development).
9. TOEFL scores (>560 for paper-based test, >88 for i-based test and >230 for computer-based test) for international students.
10. NNP track not available in this program due to national certification practice requirements.

---

**Overview of the Master’s Degree NP Programs**

The primary objective of the Master of Science (MS) Degree Program in Nursing is to prepare professional advanced practice nurses who will contribute to the improvement of nursing care and who are responsive to the challenge of unresolved problems within the health care system. Each of the clinical specialty programs prepares nurses with advanced clinical knowledge and skills who can assume leadership positions in nursing practice, education, research or administration.

The Master’s Degree NP Programs, which are registered with the New York State Education Department and accredited by the Commission on Collegiate Nursing Education, prepare advanced practice registered nurses (APRNs), specifically nurse practitioners, in selected areas of clinical practice. Through classroom learning activities and guided clinical practice, students develop clinical expertise and in-depth knowledge in their selected areas of practice. The development of the leadership role through problem-solving involvement in the clinical setting, and the preparation of the student to contribute knowledge through scientific inquiry are integrated in the curriculum of each specialty program.

The SON offers the following clinical specialties within the Master’s Degree (MS) Program:
Overview of the Post-Master's Certificate Program for Existing Advanced Practice Registered Nurses

The Post-Master's Certificate Program is a non-degree, advanced certificate program for nurses with a Master's Degree in Nursing who are seeking Nurse Practitioner certification in New York and nationally. Post-Master's students are considered matriculated students in the SON. They are subject to the same rules of the University of Rochester as outlined in the Regulations and University Policies Concerning Graduate Studies. The Post-Master's Certificate Program is registered with the New York State Education Department and accredited by the Commission on Collegiate Nursing Education.

The SON offers the following clinical specialties within the Post-Master's Certificate Program:

- AGACNP: Adult-Gerontology Acute Care Nurse Practitioner
- AGPCNP: Adult-Gerontology Primary Care Nurse Practitioner
- FNP: Family Nurse Practitioner
- FPMHNP: Family Psychiatric Mental Health Nurse Practitioner
- NNP: Neonatal Nurse Practitioner
- PNP: Pediatric Nurse Practitioner
- PNP/NNP: Pediatric Nurse Practitioner/Neonatal Nurse Practitioner

Post-Master’s students must complete clinical hours in the specialty program, either via supervised clinical hours in the post-Master’s specialty, or by transferring in clinical hours from their prior Master’s programs. The total number of hours required depends on the specific program. The Post-Master’s student's prior clinical and academic background in advanced practice nursing will determine the exact number of clinical hours required at the University of Rochester School of Nursing. A transcript analysis is conducted by the student’s advisor, in consultation with the Program Director; findings are then used to develop the student’s post-Master’s degree plan. Nurse practitioners, physicians, and psychologists (in the FPMHNP program) serve as clinical preceptors in the specialty courses.

In the Post-Master’s Certificate Program, completion of course work is recorded on the official UR transcript. The SON awards a certificate of completion.

Overview of the Curriculum for the NP Master's Degree & Post-Master's Certificate Programs

Graduate study at the UR SON integrates nursing practice, education, and research. The curriculum for the Master’s Degree Program includes professional advanced practice nursing core courses and clinical specialty courses. The professional core courses provide common substantive areas of study for students. Clinical specialty courses provide specialty-specific, in-depth areas for study, including clinical learning experiences. Students are strongly urged to continue with clinical coursework immediately after the advanced health assessment course with no lapse in enrollment. Consecutive and timely completion of each clinical course is critical to program success.

Professional Core Courses
- NUR 400 Research Principles for Evidence Based Practice (5 credit hours)
- NUR 401 The Writing Workshop (1 credit)
- NUR 403 Ethics and Public Policy in the Health Care System (3 credit hours)
The curriculum for the Post-Master’s Certificate Program is composed of selected professional core and clinical courses. The Master’s Degree and Post-Master’s Certificate (PMC) Programs may be pursued on a full-time or part-time basis. With faculty advisement, students are responsible for designing appropriate degree plans.

The following pages present the MS degree and PMC requirements for the specialty programs. Please note that these requirements are subject to change.

### Adult-Gerontology Acute Care Nurse Practitioner (AGACNP)

**Master of Science** 47 credit hours (672 clinical hours)

**Professional core courses:**
- NUR 400 Research Principles for Evidence-based Practice (5 credit hours)
- NUR 401 The Writing Workshop (1 credit hour)
- NUR 403 Ethics and Public Policy in the Health Care System (3 credit hours)
- NUR 410 Advanced Health Assessment (4 credit hours; includes 2 credits for lab, or 4 hours/wk)
- NUR 407 Advanced Physiology and Pathophysiology (5 credit hours)
- NUR 419 Advanced Pharmacology (3 credit hours)

**Clinical specialty courses:**
- NUR 411 Evaluation and Management of Adult Lifespan Patients (8 credit hours, 224 clinical hours)
- NUR 414 Nurse Practitioner Procedure Lab (1 lab credit hour)
- NUR 424 Adult-Gerontology Acute Care Nurse Practitioner I (9 credit hours, 224 clinical hours)
- NUR 425 Adult-Gerontology Acute Care Nurse Practitioner II (8 credit hours, 224 clinical hours)

### Adult-Gerontology Acute Care Nurse Practitioner (AGACNP)

**Post-Master’s Certificate**

**Professional core courses:**
- NUR 410 Advanced Health Assessment (4 credit hours)
- NUR 407 Advanced Physiology and Pathophysiology (5 credit hours)
- NUR 419 Advanced Pharmacology (3 credit hours)

**Clinical specialty courses:**
- NUR 411 Evaluation and Management of Adult Lifespan Patients (8 credit hours, 224 clinical hours)
- NUR 414 Nurse Practitioner Procedure Lab (1 lab credit hour)
- NUR 424 Adult-Gerontology Acute Care Nurse Practitioner I (9 credit hours, 224 clinical hours)
- NUR 425 Adult-Gerontology Acute Care Nurse Practitioner II (8 credit hours, 224 clinical hours)

### Adult-Gerontology Primary Care Nurse Practitioner (AGPCNP)

**Master of Science** 45 credit hours (672 clinical hours)

**Professional core courses:**
- NUR 400 Research Principles for Evidence-based Practice (5 credit hours)
- NUR 401 The Writing Workshop (1 credit hour)
- NUR 403 Ethics and Public Policy in the Health Care System (3 credit hours)

</tr>
</thead>
<tbody>
<tr>
<td>NUR 411 Evaluation and Management of Adult Lifespan Patients (6 credit hours, 112 clinical hours)</td>
</tr>
<tr>
<td>NUR 414 Nurse Practitioner Procedure Lab (1 lab credit hour)</td>
</tr>
</tbody>
</table>
- NUR 413 Family Theoretical Frameworks and Application to Nursing Care of Families (3 credit hours)
- NUR 437 Pediatric Primary Care I (4 credit hours, didactic only)
- NUR 444 Adult-Gerontology Primary Care I (8 credit hours, 224 clinical hours)
- NUR 445 Adult-Gerontology Primary Care II (7 credit hours, 224 clinical hours)
- NUR 449 Women’s Health Care for Primary Care Generalists (3 credit hours, 112 clinical hours)

If a Post-Master’s student is already recognized as an ANP, then the typical requirements for the FNP consist of the following courses: NUR 412 (4 credit hours including 112 clinical hours), NUR 413 (3 credit hours), NUR 437 (6 credit hours including 112 clinical hours), and NUR 449 (3 credit hours including 112 clinical hours).

### Family Psychiatric Mental Health Nurse Practitioner (FPMHNP)

**Master of Science Degree 54 credits (616 Clinical Hours)**

**Professional core courses:**
- NUR 400 Research Principles for Evidence-based Practice (5 credits)
- NUR 401 The Writing Workshop (1 credit)
- NUR 403 Ethics and Public Policy in the Health Care System (3 credits)
- NUR 407 Advanced Physiology and Pathophysiology (4 credits)
- NUR 410 Advanced Health Assessment (6 credits, including 2 lab credits, alternative to NUR 415)
- NUR 415 Advanced Health Assessment – Lifespan (4 credits, including 1 lab credit; for new degree plan students)
- NUR 419 Advanced Pharmacology (3 credits)

**Clinical specialty courses:**
- NUR 450 Psychopathology and Psychiatric Assessment and Diagnosis across the Lifespan (5 credits)
- NUR 451 Individual Psychotherapy across the Lifespan I (3 credits)
- NUR 452 Pathophysiology and Psychopharmacology of Mental Health Disorders across the Lifespan I (3 credits)
- NUR 453 Pathophysiology and Psychopharmacology of Mental Health Disorders across the Lifespan II (3 credits)
- NUR 454 Group & Family Psychotherapy across the Lifespan (3 credits)
- NUR 455 Theoretical Frameworks for Advanced Psychiatric Nursing Practice (3 credits)
- NUR 456 Practicum in Advanced Family Psychiatric Mental Health Nurse Practitioner Role I (3 credits, 168 clinical hours)
- NUR 457 Practicum in Advanced Family Psychiatric Mental Health Nurse Practitioner Role II (4 credits, 224 clinical hours)
- NUR 458 Practicum in Advanced Family Psychiatric Mental Health Nurse Practitioner Role III (4 credits, 224 clinical hours)
- NUR 459 Individual Psychotherapy Across the Life Span II (3 credits)

### Family Psychiatric Mental Health Nurse Practitioner (FPMHNP)

**Post-Masters Certificate**

**Professional core courses:**
- NUR 407 Advanced Physiology and Pathophysiology (4 credits)
- NUR 415 Advanced Health Assessment – Lifespan (4 credits, including 1 lab credit for new degree plan students)
- NUR 419 Advanced Pharmacology (3 credits)

**Clinical specialty courses:**
- NUR 450 Psychopathology and Psychiatric Assessment and Diagnosis across the Lifespan (5 credits)
- NUR 451 Individual Psychotherapy across the Lifespan I (3 credits)
- NUR 452 Pathophysiology and Psychopharmacology of Mental Health Disorders across the Lifespan I (3 credits)
- NUR 453 Pathophysiology and Psychopharmacology of Mental Health Disorders across the Lifespan II (3 credits)
- NUR 454 Group & Family Psychotherapy across the Lifespan (3 credits)
- NUR 455 Theoretical Frameworks for Advanced Psychiatric Nursing Practice (3 credits)
- NUR 456 Practicum in Advanced Family Psychiatric Mental Health Nurse Practitioner Role I (3 credits, 168 clinical hours)
- NUR 457 Practicum in Advanced Family Psychiatric Mental Health Nurse Practitioner Role II (4 credits, 224 clinical hours)
- NUR 458 Practicum in Advanced Family Psychiatric Mental Health Nurse Practitioner Role III (4 credits, 224 clinical hours)
- NUR 459 Individual Psychotherapy Across the Life Span II (3 credits)

### Pediatric Nurse Practitioner (PNP)

**Master of Science Degree 45 credit hours (616 clinical hours)**

**Professional core courses:**
- NUR 400 Research Principles for Evidence-based Practice (5 credit hours)
- NUR 401 The Writing Workshop (1 credit hour)
- NUR 403 Ethics and Public Policy in the Health Care System (3 credit hours)
- NUR 407 Advanced Physiology and Pathophysiology (5 credit hours)
- NUR 412 Advanced Pediatric Health Assessment and Care of Well Children and Adolescents (5 credit hours, 112 clinical hours)
- NUR 419 Advanced Pharmacology (3 credit hours)

**Clinical specialty courses:**
- NUR 437 Pediatric Primary Care I (7 credit hours, 112 clinical hours)
- NUR 438 Pediatric Primary Care II (6 credit hours, 168 clinical hours)
- NUR 439 Pediatric Primary Care III (7 credit hours, 224 clinical hours)
- NUR 452 Pathophysiology of Mental Illness and Pharmacology across the Lifespan (3 credit hours)

### Pediatric Nurse Practitioner (PNP)

**Post-Master’s Certificate**

**Professional core courses:**
- NUR 407 Advanced Physiology and Pathophysiology (5 credit hours)
- NUR 412 Advanced Pediatric Health Assessment and Care of the Well Children and Adolescents (5 credit hours, 112 clinical hours)
- NUR 419 Advanced Pharmacology (3 credit hours)

**Clinical specialty courses:**
- NUR 437 Pediatric Primary Care I (6 credit hours, 112 clinical hours)
- NUR 438 Pediatric Primary Care II (3-6 credit hours, 168 clinical hours)
- NUR 439 Pediatric Primary Care III (4-7 credit hours, 224 clinical hours)
- NUR 452 Pathophysiology of Mental Illness and Pharmacology across the Lifespan I (3 credit hours)

### Pediatric Nurse Practitioner/Neonatal Nurse Practitioner (PNP-NNP)

**Master of Science Degree 54-58 credit hours (976-1216 clinical hours)**

**Professional core courses:**
- NUR 400 Research Principles for Evidence-based Practice (5 credit hours)
- NUR 401 The Writing Workshop (1 credit hour)
• NUR 403 Ethics and Public Policy in the Health Care System (3 credit hours)
• NUR 407 Advanced Physiology and Pathophysiology (5 credit hours)
• NUR 412 Advanced Pediatric Health Assessment and Care of Well Children and Adolescents (5 credit hours, 112 clinical hours)
• NUR 419 Advanced Pharmacology (3 credit hours)

Clinical specialty PNP courses:
• NUR 437 Pediatric Primary Care I (7 credit hours, 112 clinical hours)
• NUR 438 Pediatric Primary Care II (6 credit hours, 168 clinical hours)
• NUR 439 Pediatric Primary Care III (7 credit hours, 224 clinical hours)
• NUR 452 Pathophysiology of Mental Illness and Pharmacology across the Lifespan I (3 credit hours)

Clinical specialty NNP courses:
• NUR 492 Advanced Practicum in the Care of the High-Risk Neonate (6-10 credit hours, 360-600 clinical hours)
• NUR 436 Care of the High Risk Neonate (3 credit hours)

---

**Neonatal Nurse Practitioner (NNP)**

Post-Master’s Certificate

Two years NICU required for NNP.

For post-Master’s NNP, Master’s in maternal-infant or maternal-child health or pediatrics; two years NICU experience in the last five years.

Professional core courses:
- NUR 407 Advanced Physiology and Pathophysiology (5 credit hours)
- NUR 412 Advanced Pediatric Health Assessment and Care of the Well Children and Adolescents (5 credit hours, 112 clinical hours)
- NUR 419 Advanced Pharmacology (3 credit hours)

Clinical specialty courses:
- NUR 436 Care of the High Risk Neonate (3 credits)
- NUR 492 Advanced Practicum in the Care of Neonates I (6-10 credit hours, 360-600 clinical hours)

---

**Prerequisites for Graduate Courses**

All clinical courses require matriculation into the Master’s NP or Post-Master’s NP Program.

*Course numbers and prerequisites subject to change
**Registration of non-matriculated students in courses may be restricted due to class size*

**Additional Information Specific to Accelerated Master’s Program for Non-Nurses, Master’s Programs, RN to BS to MS program and Post-Master’s Students**

**NUR 492 Clinical Practicum for Advanced Practice Nursing.** Some Master’s and post-Master’s students may elect to take additional clinical hours. After consultation with the faculty advisor and the course faculty who will evaluate the student’s clinical experience, the student obtains from the Registrar the form “Statement of Proposed Activity for NUR 492 Clinical Practicum in Advanced Nursing Practice.” The NUR 492 form must be completed by the student and signed and dated by the student, faculty, Master’s Program Director, and Associate Dean for Education and Student Affairs. When this form is properly completed and signed and when documentation of mandatory clinical requirements (e.g., RN license, CPR) is current and on file in the student’s record, then registration for NUR 492 is processed. The actual clinical hours for NUR 492 begin only after the registration is complete, on or after the stated date for starting NUR 492, and end before or on the stated date for ending NUR 492.
The Leadership in Health Care Systems (LHCS) program was established in 2004 and has since been revised to reflect the changing landscape of health care. This Master of Science (MS) program has the following concentrations of study: Health Care Organization Management and Leadership (HCM); and Clinical Nurse Leader (CNL). Courses are organized to expose students to theoretical foundations and to provide practical experiences that assure success.

The Health Care Organization Management and Leadership (HCM) program was specifically designed to align with national and international health professional education reform principles. The goal of interprofessional education is to increase team learning among professionals from different backgrounds for the purpose of improving health care for individuals and populations. The distinct feature of the HCM program is core leadership knowledge. Subject matter includes formalized management tools, but goes further to emphasize leadership theory, principles, and practices. The HCM program has been developed for health professionals seeking career advancement and for professionals transitioning to a health care career from other fields.

In 2006, the Clinical Nurse Leader (CNL) program was added to the LHCS program. The CNL program is only open to registered nurses. The purpose of the CNL program is to prepare nurses for leadership roles at the point of care delivery in a variety of health care settings. The CNL is a Master's-prepared nurse generalist educated to direct and coordinate care at the unit and system level.

Admission

Admission Requirements for Health Care Organization Management and Leadership Concentration:

1. Completion of a Bachelor’s degree from an accredited college or university.
2. Cumulative GPA of 3.0 (on a 4.0 scale) preferred from a Bachelor’s degree program.
3. Statistics course with a grade of C or above.
4. Professional statement.
5. Two favorable references that address professional and/or academic ability, and leadership ability. It is desirable that one of the letters be from a professional in health care.
6. Personal interview(s) with program faculty members.
7. There is no minimum work requirement for the interprofessional leadership program. Successful candidates are able to demonstrate academic ability, leadership experiences and accomplishments in a variety of settings, and contributions to groups and communities through volunteerism or community service activities.
8. TOEFL scores (>560 for paper-based test, >88 for i-based test and >230 for computer-based test) for international students.
9. Writing Sample (prior term paper, published article).
### Health Care Organization Management and Leadership

**Master of Science 31 credit hours (224 field immersion hours)**

- NUR 401 Writing Workshop (1 credit)
- NLX 464 Informatics, Process Improvement and Value in Health Care (3 credits)
- NLX 466 Epidemiology (3 credits)
- NLX 467 Population Health and Program Design (3 credits)
- NLX 468 Program Evaluation (3 credits)
- NLX 470 Foundations of Leadership and Organizational Behavior (4 credits, 56 field immersion hrs.)
- NLX 471 Trends in Health Economics, Policy and Regulation (4 credits)
- NLX 473 Healthcare Financial Management (3 credits)
- NLX 474 Human Resource Management (3 credits)
- NLX 486 HCM Capstone (4 credits, 168 field immersion hours)

### Admission Requirements for the Clinical Nurse Leader Concentration:

1. Completion of a Bachelor of Science degree in nursing from an accredited school (for the post-Masters CNL, a Master's degree is also required)
2. RN licensure within the United States or a U.S. territory.
3. Cumulative GPA of 3.0 (on a 4.0 scale) preferred from a baccalaureate program.
4. Statistics course with a grade of C or above.
5. Professional statement.
6. Clinical practice exemplar relating to patient care which describes what happened, the intent and the outcomes of actions and interactions with other members of the health care team.
7. Two letters of reference that address clinical expertise and leadership talent (one of which is from an immediate supervisor).
8. Personal interview.
9. A minimum of three years of employment as a registered nurse in a clinical setting (preferred).
10. Writing Sample (prior term paper, published article).

### Clinical Nurse Leader (CNL)

**Master of Science 36 credit hours (448 field immersion hours)**

- NUR 401 Writing Workshop (1 credit)
- NUR 400 Research Principles for Evidence-Based Practice (5 credits)
- NLX 421 Physiology, Pathophysiology, & Pharmacology for Nurse Leaders and Educators (4 credits)
- NLX 422 Health Assessment for Nurse Leaders and Educators (2 credits, including 1 credit lab)
- NLX 464 Informatics, Process Improvement, and Value in Health Care (3 credits)
- NLX 466 Epidemiology (3 credits)
- NLX 467 Population Health and Program Design (3 credits)
- NLX 470 Foundations of Leadership and Organizational Behavior (4 credits; 56 field immersion hours)
- NLX 475 Leadership in Clinical Nursing (4 credits; 56 field immersion hours)
- NLX 476 CNL Immersion Experience (3 credits; 168 field immersion hours)
- NLX 485 CNL Capstone (4 credits, 168 field immersion hours)

*All field immersion and lab courses require matriculation into the Master of Science Leadership in Health Care Systems program.*

**SECTION VII: GENERAL INFORMATION ON MASTER’S IN NURSING EDUCATION PROGRAM**

The 36-credit Master of Science in Nursing Education program is comprised of both clinical and education courses and is designed to prepare nurses as academic and clinical educators with skills to function in a
variety of healthcare and educational settings. This practice-based program is hybrid-online, interprofessional, and based on the NON’s National Nurse Educator competencies, the AACN Vision for Academic Nursing, as well as AACN’s Essentials of Master’s Education. Intraprofessional courses are taught in conjunction with the Warner School of Education and the School of Medicine and Dentistry faculty to provide graduate students with authentic intraprofessional collaboration opportunities. All courses in the MNE program provide experiential learning opportunities to apply educational theory and evidence to teach effectively, work in diverse teams, lead change, use technology to inspire learning, and engage in scholarly inquiry. An elective is also required in the program, providing students with an opportunity to explore educational topics of interest and relevance to individual professional goals. The hybrid-online format of the MNE program is designed to meet the needs of busy professionals, while still providing time for students to connect and interact with peers and faculty to enhance learning. Students will learn by observing, practicing, reflecting, and participating within a community of nurse educators. Our Nursing Education graduates will be eligible for national nurse educator certification by meeting established nurse educator competencies.

Course content within the MNE program includes current and emerging issues in nursing education, clinical and educational evidence-based practice; health assessment, pathophysiology and pharmacology specific to the nurse educator role; education theories of teaching and learning; educational technology; curriculum development; assessment of student and program learning, program evaluation, and educational leadership. All courses include curricular and/or co-curricular teaching opportunities as well as participation in nursing education events and projects. The program concludes with a summative capstone course under the direction of an experienced, master’s-prepared nurse educator in the area of the students’ specialty.

Two post-Master’s certificate programs in Nursing Education are also offered.

A. PMC-E; a post-master’s certification with a concentration in education courses and experiences
B. PMC-C; a post-master’s certification with a concentration in clinical courses and experiences

A. The post-masters certificate program for APRNs and Clinical Nurse Leaders (PMC-E) is offered for those nurses wishing to obtain educational coursework and experiences to effectively practice as a nurse educator in clinical or academic settings. This 18-credit certificate program (PMC-E) enables nurses with an existing MS in a clinical field to sit for the NLN national certification exam for clinical Nurse Educators (CNEcl) or academic Nurse Educators (CNE).

B. A post-masters certificate program (PMC-C) for baccalaureate-prepared nurses holding a master’s degree in education (e.g. MED) is offered for those nurses wishing to obtain clinical coursework and experiences to effectively practice as a nurse educator in clinical or academic settings. This 10-credit certificate program (PMC-C) enables students with an existing master’s degree in education to sit for the NLN national certification exam for clinical Nurse Educators (CNEcl).

Graduates of these programs will be prepared as:
- Nursing Education Faculty and Leaders: As faculty members or leaders in a college or university, both in the classroom and on clinical units with nursing students;
- Hospital/Health System Educators and Leaders: As a staff development educator or leader, as a provider of clinical or service-based education and/or continuing education provider for nursing and health care professionals.

The MNE program also articulates with other SON programs:
- RN to BS to MNE
- MNE to PhD (Nursing and Health Science; see MS/PhD and PhD Handbook for details)

**Admission**

**Admission Requirements for Master’s in Nursing Education (MNE):**

90
1. Completion of a Bachelor’s degree in nursing from an accredited college or university
2. RN licensure within the United States or U.S. territory, or equivalent
3. Cumulative GPA of 3.0 on a 4.0 scale from a Bachelor’s degree program is preferred
4. Completion of a statistics course with a C grade or higher
5. Submission of a professional goal statement outlining reasons for seeking admission to the program
6. Writing Sample (prior term paper, published article)
7. Two favorable references that address professional and/or academic and leadership ability; it is desirable that one of the letters be from a professional in health care
8. Personal interview(s) with program faculty members
9. A minimum previous work requirement of one year as a Registered Nurse is preferred
10. TOEFL scores (>560 for paper-based test, >88 for i-based test and >230 for computer-based test) for international students.

Master’s in Nursing Education Program courses:

- NUR 401 Writing Workshop (1 credit)
- NUR 363 Comprehensive Nursing Assessment Refresher (if no UG physical assessment course completed in the past 5 years)
- NUR 420 Theory and Evidence-Based Practice in Nursing Education (4 credits; including one credit in clinical practice experience)
- NUR 421 Physiology, Pathophysiology, & Pharmacology for Nurse Leaders and Educators (4 credits)
- NUR 422 Health Assessment for Nurse Leaders and Educators (2 credits; including 1 credit lab)
- EDU 497 Teaching & Learning in Higher Education & the Health Professions (3 credits)
- EDU 581 Clinical Teaching in Health Professions Education: Teaching and Instructional Methods (4 credits; including 1 credit supervised teaching)
- EDU 580 Foundations of Health Professions Education (3 credits)
- NLX 426 Curriculum Development and Course Design (4 credits; including 1 credit supervised teaching)
- NLX 427 Assessment and Evaluation in Nursing Education (4 credits; including 1 credit supervised teaching)
- Elective (3 credits)
- NLX 487 MNE Capstone (4 credits; including 3 credits field immersion/teaching project)

Total = 36 credits

Admission Requirements for Post-Master’s Certificate in Nursing Education:

1. Completion of a Bachelor’s Degree in Nursing from an accredited school of nursing
2. a) For Post-Master’s Certificate in Nursing Education – Concentration in Education (PMC MNE-E):
   Completion of a Master’s Degree for advanced practice registered nurses (APRNs: NPs, CNSs, CNMs, or CRNAs), and clinical nurse leaders (CNLs) from an accredited school of nursing
   b) For Post-Master’s Certificate in Nursing Education – Clinical Concentration (PMC MNE-C):
   Completion of a Master’s Degree in Education (e.g. M.Ed)
3. RN licensure within the United States or U.S. territory
4. Cumulative 3.0 GPA in MS nursing, preferred
5. TOEFL scores (>560 for paper-based test, >88 for i-based test and >230 for computer-based test) for international students
6. Statistics course with a grade of C or higher
7. Professional statement with career goals
8. Current Curriculum Vitae or resume
9. Two letters of reference addressing professional and/or academic ability; prefer one from Master’s-prepared nurse (e.g., faculty, CNS, NP, manager) and/or nursing supervisor
10. Personal interview with faculty member, at discretion of faculty
Post-Master’s Certificate in Nursing Education – Concentration in Education (PMC MNE-E):

Total = 10 credits

All supervised teaching and lab courses require matriculation into the Master’s in Nursing Education (MNE) or Post-Master’s MNE Program.
### SECTION VIII: EPORTFOLIO AS SUMMATIVE LEARNING ASSESSMENT

The e-Portfolio at the University of Rochester School of Nursing provides a program-based assessment, throughout select students’ educational program to ensure that each student demonstrates mastery of all program learning outcomes for the degree before graduation. Students will begin developing their ePortfolio during their first semester in select academic programs as of Fall 2019. The ePortfolio is a digital collection created by a student of their course-related work, like essays, posters, photographs, videos, and artwork that demonstrates student learning over time. In addition to coursework, the SON ePortfolios can also capture other aspects of a student's life, such as volunteer experiences, employment history, extracurricular activities, and more. Students are oriented to ePortfolio at the beginning of their academic programs either virtually or in person, and receive ongoing support throughout their academic programs through dedicated ePortfolio faculty.

### Section IX: CHANGING PROGRAMS

**Change of Specialty:** Students are able to change their specialty focus within the same degree type.

- Students interested in changing their specialty will need to attain approval from their current advisor, as well as the program director of their new specialty of interest, by completing an academic petition.
- Any supplemental materials that are required for the new concentration, that have not been previously submitted, may be required by the department to process this request. Approval of this change will result in a change of major specialty, which will be issued by formal letter from the Registrar.
- In addition to all additional application requirements, students will be required to submit a letter of explanation, explaining their desire to change specialties, to their academic advisor for consideration. Students must be in good academic standing to change program specialties.

**Addition of a degree type:** This process will apply to the following programs: RN-BS, RN-BS-MS, MS, MS-PhD, and Post-BS-DNP.

- Application materials submitted with the student’s original application will be reviewed at any applicable deadline for the following semester.
• All supplemental materials required for the MS-level concentration not yet received for official review will be required. Approval of this request by the student’s current academic advisor, acceptance into the program, and written acceptance/confirmation of admissions offer by the student, will then require the student to withdraw from the current program of study, and enroll in the next applicable semester for the new degree type. This may require the student to complete a leave of absence.
• Students are strongly encouraged to complete financial aid counseling prior to any official changes to see if/how changing their degree objective may affect their ability to borrow/receive tuition assistance or federal loans.
• Students enrolled in the RN-BS program may request admission for the RN-BS-MS program between their first and third semesters of program core courses.
• Students who have completed three semesters, or more, of their RN-BS program core courses at UR SON may apply for the new MS-level program of interest for the semester following their graduation from the BS program.

Reduction of a degree type: Students who have been accepted into a dual-degree program who wish to discontinue their education after completion of the lower of the two degree types may do so through an academic petition, which will require the support of their academic advisor, and program director.
• Official petition for change of terminal degree desired can be an email submitted to the current academic advisor, from official URMC email address, or the email used on the application for admission.
• Approval of this petition request will be forwarded officially from the Registrar.

Glossary:

Degree Specialty/Major—We offer multiple Master’s-level specialty types, including: CNL, HCM, MNE, AGACNP, AGPCNP, FMHNP, FNP, PNP, and PNP/NNP.

Degree type – Refers to the level of degree being earned. We offer the following types of degrees: BS, MS, and doctorate (DNP, or PhD). The post-Master’s certificate is not a degree-granting program, but is also acknowledged under degree type.

Academic program – A credit-bearing series of courses intended to prepare students to sit for national certification, or advance their career in nursing.

Semester – Period of time where courses are offered at the School of Nursing, for degree-seeking, or certificate-granting, programs. We offer the following semesters: Fall, Spring and Summer.
**APPENDIX A**

**MEDICAL CONDITIONS OR LEARNING/PHYSICAL DISABILITIES**

This information is sent to all new students upon admission to the University of Rochester School of Nursing.

The University of Rochester is committed to providing equal educational and employment opportunities for individuals with disabilities, in accordance with state and federal laws and regulations, including the Americans with Disabilities Act and Section 504 of the Rehabilitation Act. To ensure equality of access for students with disabilities, the University provides reasonable accommodations, including auxiliary aids and modifications to courses, programs, services, activities or facilities. Exceptions will not be made in those situations where the accommodation would fundamentally alter the nature of the program, cause undue hardship on the school, or jeopardize the health or safety of others. Accommodations must specifically address the functional limitations of the disability. Technical Standards for all students to review are available online. **Students requesting reasonable accommodations must do so by following the procedure outlined on the University's Disability Services website.** For any questions, please contact the **School of Nursing's access coordinator.**

**Technical Standards**

All candidates for nursing degrees/certificates must be able to perform the essential functions necessary to complete the nursing school curriculum successfully with or without reasonable accommodations. The use of an intermediary that would in effect require a student to rely on someone else’s power of selection and observation will not be permitted. School of Nursing candidates must indicate whether they are able to perform these essential functions with or without reasonable accommodations:

1. Gather and record patient’s health history. Detect, understand, and interpret physical and psychosocial findings. Communicate patient findings, develop and record nursing diagnoses as well as treatment plans.

2. Utilize technology, equipment, and instruments used by nurses.

3. Recognize, understand, and interpret instructional materials required during nursing education.

4. Detect and appreciate alterations in anatomy, or other abnormalities encountered as part of the general physical examination.

5. Recognize, interpret, and evaluate diagnostic studies appropriate for level of practice.

6. Review and interpret notes/orders written by other members of the health care team.

7. Perform calculations necessary to deliver appropriate care to the patient.

8. Communicate effectively with patients, families and other health care personnel.

9. Perform all of the above skills within a timeframe that is appropriate for a clinical setting.

*I have read the Technical Standards above and indicate that I am able to perform these essential functions with or without reasonable accommodations.*

6/9/98 – Adapted from University of Rochester School of Medicine and Dentistry/Revised 8/13/03
APPENDIX B

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT

The University of Rochester complies fully with the provisions of the Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. 1232g. Under FERPA, students have, with certain limited exceptions, the right to inspect and review their educational records and to request the amendment of their records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student’s privacy or other rights. Requests to inspect or review records should be addressed to the Registrar, or to the appropriate administrator responsible for the record and will be honored within 45 days. Any student questioning the accuracy of any record may state his or her objection in writing to the University administrator responsible for the record who will notify the student of his or her decision within 45 days of receiving the objection. Final review of any decision will be by the appropriate Dean who, if requested by the student, will appoint a hearing committee of two faculty members and one staff member to investigate and make recommendations. Students concerned with the University’s compliance with FERPA have the right to file complaints with the U.S. Department of Education’s Family Compliance Office.

FERPA further requires, again with certain limited exceptions, that the student’s consent must be obtained before disclosing any personally identifiable information in the student’s education records. One such exception is disclosure to parents of dependent students. Another exception is disclosure to school officials with legitimate educational interests, on a “need-to-know” basis, as determined by the administrator responsible for the file. A “school official” includes: anyone employed by the University in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff); any person or company acting on behalf of the University (such as an attorney, auditor, or collection agent); any member of the Board of Trustees or other governance/advisory body; and any student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. The University may forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer. Other exceptions are described in the FERPA statute at 20 U.S.C. 1232g and regulations at 34 C.F.R. Part 99.

The University considers the following to be directory information: name, campus address, e-mail address, home address, telephone number, date and place of birth, academic fields of study, current enrollment (full or part-time), dates of attendance, photographs, participation in recognized activities and sports, degrees and awards, weight and height of athletic team members, previous educational agencies or institutions attended, and other similar information. The University may publicize or respond to requests for such information at its discretion. However, the use of the records for commercial or political purposes is prohibited unless approved by the appropriate Dean.

Currently enrolled students may request that directory information be withheld from disclosure by making a request, in writing, to the appropriate registrar. The University assumes that failure on the part of the student to specifically request the withholding of any directory information indicates approval of disclosure.
APPENDIX C

NATIONAL STANDARDS FOR CULTURALLY AND LINGUISTICALLY APPROPRIATE SERVICES (CLAS) IN HEALTH AND HEALTH CARE

The National CLAS Standards are intended to advance health equity, improve quality, and help eliminate health care disparities by establishing a blueprint for health and health care organizations to: www.ThinkCulturalHealth.hhs.gov

Principal Standard:
1. Provide effective, equitable, understandable, and respectful quality care and services that are responsive to diverse cultural health beliefs and practices, preferred languages, health literacy, and other communication needs.

Governance, Leadership, and Workforce:
2. Advance and sustain organizational governance and leadership that promotes CLAS and health equity through policy, practices, and allocated resources.
3. Recruit, promote, and support a culturally and linguistically diverse governance, leadership, and workforce that are responsive to the population in the service area.
4. Educate and train governance, leadership, and workforce in culturally and linguistically appropriate policies and practices on an ongoing basis.

Communication and Language Assistance:
5. Offer language assistance to individuals who have limited English proficiency and/or other communication needs, at no cost to them, to facilitate timely access to all health care and services.
6. Inform all individuals of the availability of language assistance services clearly and in their preferred language, verbally and in writing.
7. Ensure the competence of individuals providing language assistance, recognizing that the use of untrained individuals and/or minors as interpreters should be avoided.
8. Provide easy-to-understand print and multimedia materials and signage in the languages commonly used by the populations in the service area.

Engagement, Continuous Improvement, and Accountability:
9. Establish culturally and linguistically appropriate goals, policies, and management accountability, and infuse them throughout the organization’s planning and operations.
10. Conduct ongoing assessments of the organization’s CLAS-related activities and integrate CLAS-related measures into measurement and continuous quality improvement activities.
11. Collect and maintain accurate and reliable demographic data to monitor and evaluate the impact of CLAS on health equity and outcomes and to inform service delivery.
12. Conduct regular assessments of community health assets and needs and use the results to plan and implement services that respond to the cultural and linguistic diversity of populations in the service area.
13. Partner with the community to design, implement, and evaluate policies, practices, and services to ensure cultural and linguistic appropriateness.
14. Create conflict and grievance resolution processes that are culturally and linguistically appropriate to identify, prevent, and resolve conflicts or complaints.
15. Communicate the organization’s progress in implementing and sustaining CLAS to all stakeholders, constituents, and the general public.

The Case for the Enhanced National CLAS Standards
Of all the forms of inequality, injustice in health care is the most shocking and inhumane.
— Dr. Martin Luther King, Jr.
Health equity is the attainment of the highest level of health for all people (U.S. Department of Health and Human Services [HHS] Office of Minority Health, 2011). Currently, individuals across the United States
from various cultural backgrounds are unable to attain their highest level of health for several reasons, including the social determinants of health, or those conditions in which individuals are born, grow, live, work, and age (World Health Organization, 2012), such as socioeconomic status, education level, and the availability of health services (HHS Office of Disease Prevention and Health Promotion, 2010). Though health inequities are directly related to the existence of historical and current discrimination and social injustice, one of the most modifiable factors is the lack of culturally and linguistically appropriate services, broadly defined as care and services that are respectful of and responsive to the cultural and linguistic needs of all individuals.

Health inequities result in disparities that directly affect the quality of life for all individuals. Health disparities adversely affect neighborhoods, communities, and the broader society, thus making the issue not only an individual concern but also a public health concern. In the United States, it has been estimated that the combined cost of health disparities and subsequent deaths due to inadequate and/or inequitable care is $1.24 trillion (LaVeist, Gaskin, & Richard, 2009). Culturally and linguistically appropriate services are increasingly recognized as effective in improving the quality of care and services (Beach et al., 2004; Goode, Dunne, & Bronheim, 2006). By providing a structure to implement culturally and linguistically appropriate services, the enhanced National CLAS Standards will improve an organization’s ability to address health care disparities.

The enhanced National CLAS Standards align with the HHS Action Plan to Reduce Racial and Ethnic Health Disparities (HHS, 2011) and the National Stakeholder Strategy for Achieving Health Equity (HHS National Partnership for Action to End Health Disparities, 2011), which aim to promote health equity through providing clear plans and strategies to guide collaborative efforts that address racial and ethnic health disparities across the country. Similar to these initiatives, the enhanced National CLAS Standards are intended to advance health equity, improve quality, and help eliminate health care disparities by providing a blueprint for individuals and health and health care organizations to implement culturally and linguistically appropriate services. Adoption of these Standards will help advance better health and health care in the United States.

Bibliography:

APPENDIX D

APPLICATION FOR RN LICENSE AND NCLEX-RN EXAMINATION

For all information about individual state licensure and the NCLEX exam, visit www.ncsbn.org. This is the website for the National Council of State Boards of Nursing for any student taking the NCLEX exam in the US or Canada.

There are two steps (applying for licensure in the state where you will be working, and applying to take the NCLEX-RN exam through Pearson Educational Services) to complete to become licensed as an RN in any state or Canada:

STEP ONE: Apply for licensure in the state where you will be working

If you are applying for a New York State RN license:

1. You are encouraged to submit your NYS RN license application online
2. If you choose to complete the New York State Application Form for RN licensure and mail it in, be certain to use the expedited that is posted on BB during NUR 371 & NUR 379. NOT the one on the New York State Office of the Professions website!

The abbreviated application form that we have posted for you to complete, is a shorter, “expedited” form for those schools whose curriculum has been approved by New York State, as opposed to the one on the New York State Office of the Professions website. While you can certainly download and use the form available on their website, it is a longer form which asks more detailed information.

Plan to have your New York State application either submitted online, or mailed in by:

   Early December for December graduates
   Mid-April for May graduates
   Early August for August graduates

A. Read through and complete the application very carefully.
B. Use exactly the same name for your licensure application as is used for your NCLEX application and the name that you submitted to be on your U of R diploma. This name should match the name that will be on the photo identification (e.g. driver’s license, passport) that you will bring to the testing site. (Note: if you are getting married and/or changing your name in the near future, it is better to wait to do that after you have been licensed!).
C. If you are moving during the next few months, use a permanent mailing address (e.g., parents) to receive your licensure results and your actual license.
D. If you do not complete the online application, and choose the paper version that gets mailed, the license application needs to be notarized. This can be done at any bank or financial institution. We also have two notaries at the School of Nursing
E. If you are mailing your application to NYS, be sure to include a check or money order for the application fee (currently $143.00) with your application. The address to mail this application is on the bottom of the page after the notary signature. Note: This is not the same address to which you apply to Pearson to take the NCLEX exam.
F. If you are mailing your application in, please do so with a “return receipt requested” so you have a copy of the date it was received.
G. No degree verification form (Form 2) is required when applying for a New York State nursing license. This is done automatically by our SON Registrar immediately following graduation.

If you are applying for an RN license outside of New York State:

A. Go to the National Council on State Boards of Nursing (www.ncsbn.org) website for contact information for your State Board of Nursing. Each state has different requirements. Be sure you know all requirements necessary for licensure in your state, if you have any questions, call the State Board of Nursing!
B. **Fingerprinting:** If you are applying to a state which requires you to submit fingerprinting, this can be obtained from the Monroe County Public Safety Building, 130 S. Plymouth Avenue, in the Civic Center Plaza. Please call (585) 753-4178 for the hours of operation and the applicable cash fee. You will need to bring a fingerprinting card which is usually sent to you from the state licensing department.

C. **Transcripts:** Some states require your U of R transcript which confirms your graduation. To request your University of Rochester transcripts, contact the University Registrar’s Office (unless you have a bursar’s hold on your account in which case you would contact the Bursar’s Office). To order a transcript, visit the U of R Registrar’s Office at www.rochester.edu/registrar/transcripts. Contact them AFTER GRADUATION to request a copy of your transcript. To make sure your transcript contains your graduation information, please note the following dates:
   - May graduates: Request transcript any time after commencement
   - August graduates: Request transcripts on or after August 31
   - December graduates: Request transcripts on or after December 31

D. If your state requires you to submit a **verification of degree form**, bring it to Andrea Chamberlain, our SON Registrar in the Student Affairs Office who will hold that form until the first workday after graduation and then send it to your state as requested. Make sure she has your contact information in case of questions.

If you are applying for an RN license in Canada:

B. Set up an online account with NNAS and complete the online application to be considered for licensure in Canada. You must apply to NNAS if you received your post-secondary nursing education outside of Canada, and if you plan to work as a Registered Nurse (RN) in any of the Canadian provinces. The purpose of the NNAS application is to verify credentials for internationally educated nurses.

C. Once your application has been approved by NNAS, and you have received a letter of eligibility, you can apply to Pearson to take the NCLEX exam for licensure in Canada.

**STEP TWO:** Apply to take the NCLEX-RN exam through Pearson Educational Services

Pearson is the educational testing company used by the National Council on State Boards of Nursing to administer the NCLEX exam. Go to [http://www.vue.com/nclex/](http://www.vue.com/nclex/) **YOU MUST APPLY ONLINE TO TAKE THE EXAM.**

For any questions, call Pearson (1-866-496-2539).

A. Go to the NCLEX-RN section to create a registration profile with Pearson.

B. Select an email address which you will use to receive your authorization to test (ATT) after all your paperwork is received and reviewed, to schedule your actual exam, and to obtain your results after you have tested. Remember which email address you selected, especially if you have more than one, or if you will be moving.

C. You will need to provide Pearson with a credit card number to pay the applicable fee (currently $200.00).

**SCHEDULING THE EXAM:** Once these two applications are submitted, you do not need to do anything else. Following your graduation, the SON will submit verification of your graduation to the state to which you are applying, if the request has been made to the SON Registrar. If your application to the state to which you are applying as well as your Pearson exam application is complete, you will receive your ATT (Authorization to Test). This varies by state. NYS is often within a week or two. Most other states average around 3-4 weeks, with California taking a minimum of 12 weeks.

A. When you receive your ATT email, go back into your Pearson registration profile and follow the links to “Schedule a test” in the test site location you have previously selected.

B. You will open up a three month calendar in the city you select to test, and select a date to test.

C. You can change the date and/or time of your exam up to 24 hours before the exam without fee.
APPENDIX E

REGISTRATION FOR NP LICENSURE & NATIONAL CERTIFICATION AS AN NP

Application for
Nurse Practitioner Certification in New York State

- The Nurse Practitioner Certification Application Packet is available online at the NYS Office of the Professions at [http://www.op.nysed.gov/prof/nurse/nurseformsnp.htm](http://www.op.nysed.gov/prof/nurse/nurseformsnp.htm). The online forms are PDF files that can be typed onto but cannot yet be submitted electronically; they must be downloaded and mailed.

- **FORM 1** – Complete and mail directly to NYS Office of the Professions with $85 fee via check or money order. You can and should do this now if you are eager to get NYS certified soon after graduation.

- **FORM 2** - Complete Section 1 of Form 2 and give to Andrea Chamberlain (Student Affairs Office/HWH 1-126). You can and should do this now if you are eager to get NYS certified soon after graduation.

- **TRANSCRIPTS**
  AFTER GRADUATION, order an official transcript and have it sent to Andrea Chamberlain, Box SON. There is a $2.25 fee for the required paper copy. You will need to order a hard copy, not an electronic copy. Note we can not order your transcript for you. Transcripts are issued through the University Registrar’s Office (not the School of Nursing). Order the transcript online at [http://www.rochester.edu/registrar/transcripts.html](http://www.rochester.edu/registrar/transcripts.html). Your degree is posted to your transcript the day after graduation. Do not order your transcript before this or we will receive a transcript with no degree on it! The University Registrar’s Office will NOT hold a transcript request pending your degree.

- **Note that FORMS 1 and 2 are the only forms required for NYS Certification.** FORMS 2B, 2C, 3, and 4 are not relevant to current URSON graduates. FORM 4NP is not required to obtain certification. You will need it later when you begin practicing as an NP.

- Once we have received both your Form 2 and official transcript with your degree posted, we will send it directly to Albany. A copy of your Form 2 will be kept in your student file.

- If you have any questions, please contact Andrea Chamberlain at (585) 275-8832 or andrea_chamberlain@urmc.rochester.edu.

**Testing Accommodations:** An applicant with a disability covered by the Americans with Disabilities Act (ADA) may request reasonable and appropriate testing accommodations. This request must be submitted by the testing candidate. Do not sign up for a test date until you receive notification of approval of the accommodations request. Typical accommodations might include: exam reader, extended testing time, reduced distraction environment, or other accommodations.

**ANCC - American Nurses Credentialing Center Certification**

- Apply online for ANCC Certification at [www.nursecredentialing.org](http://www.nursecredentialing.org). The fee is $395.

- AFTER GRADUATION, order a transcript from the University Registrar’s Office (not the School of Nursing) online at [http://www.rochester.edu/registrar/transcripts.html](http://www.rochester.edu/registrar/transcripts.html). Order an electronic copy and request it be sent to APRNValidation@ana.org. There is a $3.25 fee for electronic transcripts. Note we can not order your transcript for you. Your degree is posted to your transcript the day after graduation. Do not order your transcript until then or ANCC will receive a transcript with no
degree on it! The University Registrar’s Office will NOT hold a transcript request pending your degree.

Other National Certification Bodies

- **Pediatric Nurse Practitioner Graduates**
  Visit the Pediatric Nursing Certification Board (PNCB) at [www.pncb.org](http://www.pncb.org) to apply online. The fee is $385. (They no longer require the Documentation of PNP Education form. Your transcript will indicate both the NP role and the pediatric primary care population, as required).

  AFTER GRADUATION, you will need to order a transcript and have it sent directly by the UR to PNCB. PNCB will not accept transcripts issued to students. Order the transcript from the University Registrar’s Office (not the School of Nursing) online at [http://www.rochester.edu/registrar/transcripts.html](http://www.rochester.edu/registrar/transcripts.html). Note we cannot do this for you. You can order an electronic transcript for $3.25 and have it sent to transcripts@pncb.org. Your degree is posted to your transcript the day after graduation. Do not order your transcript until then or PNCB will receive a transcript with no degree on it!

- **Family and Adult-Gerontology Primary Care NP Graduates**
  Visit the American Academy of Nurse Practitioners (AANP) at [www.aanpcert.org](http://www.aanpcert.org) to apply online (the direct link to create your Online Profile is [https://www.aanpcert.org/ptistore/control/signin](https://www.aanpcert.org/ptistore/control/signin)). The fee is $365. There are no forms for SON to complete or mail. You will need to list your clinical hours, credit hours, clinical sites and preceptors’ names and credentials.

  AFTER GRADUATION, you will need to order a transcript. Order the transcript from the University Registrar’s Office (not the School of Nursing) online at [http://www.rochester.edu/registrar/transcripts.html](http://www.rochester.edu/registrar/transcripts.html). Note we cannot do this for you. You can order an electronic transcript for $3.25 and have it sent to transcripts@aanpcert.org. As per AANPCP’s website, you can submit your application and transcript with your “work-to-date” up to 6 months prior to graduation. After graduation, you will need to request a subsequent transcript which reflects your degree. Your degree is posted to your transcript the day after graduation.

- **Adult-Gerontology Acute Care Nurse Practitioner Graduates**
  Visit the American Association of Critical Care Nurses at [www.aacn.org](http://www.aacn.org) to apply online. The fee is $255 for members of AACN, and $350 for nonmembers. Refer to the ACNPC-AG Exam Handbook at the website for complete and current application details.
  -- If completing the application online, the Educational Eligibility Form will be sent directly to the AGACNP Program Director. You do not need to submit the form to the registrar.
  -- If you are completing the application on paper, locate the Educational Eligibility Verification Form. Submit this form to the registrar – the SON will complete and send it to AACN directly.

  AFTER GRADUATION, you will need to order a transcript and request that it be sent to the address below. Order the transcript from the University Registrar’s Office (not the School of Nursing) online at [http://www.rochester.edu/registrar/transcripts.html](http://www.rochester.edu/registrar/transcripts.html). Note that we cannot do this for you. You can order an electronic transcript for $3.25 and have it sent to APRNcert@aacn.org. Your degree is posted to your transcript the day after graduation. Do not order your transcript until then or the transcript will have no degree on it!
**APPENDIX F**

**REGISTRATION FOR NATIONAL CERTIFICATION AS A NURSE EDUCATOR**

**Application:** Apply online for NLN Certified Nurse Educator (CNE) certification at http://www.nln.org/professional-development-programs/Certification-for-Nurse-Educators/registration.

**Fee:** $400 for NLN members and $500 for non-NLN members.

**Testing Accommodations:** An applicant with a disability covered by the Americans with Disabilities Act (ADA) may request reasonable and appropriate testing accommodations from the National League for Nursing (NLN) for the Certification Exam for Nurse Educators. Two forms, which can be found in the CNE Applicant Handbook (http://www.nln.org/docs/default-source/recognition-programs/specialneeds.pdf), should be completed and mailed in to the NLN office, noted at the bottom of both forms. Additionally, students are asked to please contact the NLN’s Academic Nurse Educator Certification Program at 618-453-5869 or certification@nln.org to inform the NLN that you have submitted an online registration form and are mailing in the Request for Special Accommodations and Documentation of Disability-Related Needs forms.

**Exam Scheduling:** Students cannot schedule an examination test date and time with AMP until you have completed the examination registration process and have received a confirmation notice of eligibility. Students should anticipate receiving this notice from AMP within three weeks of completing registration. This notice will be sent to the address provided on your application. If students do not receive notification within three weeks, please contact certification@nln.org or 618-453-5869. Please refer to the CNE Candidate Handbook for information about scheduling this computer-based examination.

After finalizing the CNE registration, students will have a ninety-day window in which to schedule and complete their examination.
**APPENDIX G**

REGISTRATION FOR NATIONAL CERTIFICATION AS A CLINICAL NURSE LEADER

**Certifying Body:** Commission on Nurse Certification (CNC)

**Credential:** CNL

**Exam Eligibility Criteria:** To be eligible to sit for the CNL examination, applicants must be a graduate of a CNL education program OR student in their last term of a CNL education program.

For more information see the CNL Certification Guide

**Testing Accommodations:** Commission on Nurse Certification (CNC) and SMT comply with the Americans with Disabilities Act (ADA) and will request that the IQT testing centers and authorized school facilities provide reasonable accommodations for candidates with a disability covered by this Act. Candidates requiring special accommodations must complete the Request for Special Examination Accommodations Form and Documentation of Disability-Related Needs Form before scheduling the exam http://www.aacn.nche.edu/cnl/certification/SpecialAccm.pdf. These forms must be submitted with the CNL Examination Application to the CNC. Arrangements for special accommodations may take up to 45 days to coordinate.

**Testing Sites**
CNC offers computer-based testing for the CNL certification exam at the UR School of Nursing or an SMT testing center.

**Exam Fees** (fees are higher at the SMT testing centers)

*Graduation rates calculated annually based on the percentage of an admitted semester cohort graduating within the maximum time frame allowed for the degree. The maximum time allowed to complete degree requirements is: RNBS, 6 years; APNN (effective with 2017), 2 years for APNN, 5 years for M.S., and 6 years for PhD and DNP.

Prior to 2017, APNN maximum time was 6 years.

Students enrolled in dual degree programs are counted in the numbers of the degree program in which they are still completing requirements. For instance, MS/PhD students still completing MS requirements are counted in the MS numbers.

MS requirements are counted in the MS numbers.

*Retention rates calculated each May using the number enrolled at the end of the year (just before graduation) divided by the total number of those enrolled during that year x 100. This accounts for the number of withdrawals throughout the year.*

*Students enrolled in dual degree programs are counted in the numbers of the degree program in which they are still completing requirements. For instance, MS/PhD students still completing MS requirements are counted in the MS numbers.*
Students are expected to conduct themselves in a way that respects the cooperative standards of our community and accords with the University’s educational mission. This includes obeying federal, state and local laws as well as the policies listed below. Not knowing or understanding these standards and policies is not a defense or excuse. Possible violations of University standards or policies include:

1. Disorderly conduct is any actual or attempted conduct that threatens the health or safety of oneself or others. This includes, but is not limited to, fighting, threats, assault, or harassment. Harassment consists of any unwanted conduct that is intended to cause, or could reasonably be expected to cause, an individual or group to feel intimidated, demeaned or abused, or to fear or have concern for their personal safety—where this conduct could reasonably be regarded as so severe, persistent, or pervasive as to disrupt the living, learning, and/or working environment of the individual or group.

2. Possession, distribution or use of weapons of any kind, including but not limited to firearms, BB or pellet guns, knives, bows and arrows, stun guns, paintball guns, and anything else that counts as a weapon as defined in the Weapons Policy.

3. Possession, distribution or use of any other items presenting an actual or potential threat to the safety and well-being of others (including combustible materials or other items in violation of the Fire Safety Code, or tampering with fire safety apparatus or operating it for any purpose other than its intended use.

4. Any act that constitutes harassment or discrimination under federal or state laws or regulations or any violation of our Sexual Misconduct Policy or Policy Against Discrimination and Harassment.

5. Any actions (whether on or off University premises) that relate to joining, or ongoing membership in, any group and that intentionally or recklessly create a situation that could reasonably be expected to cause physical or psychological discomfort, embarrassment, or degradation, regardless of a student's willingness to participate in the activity, as described in the University Hazing Policy.

6. Any alcohol-related violation of the University Alcohol and Other Drugs Policy (Alcohol and Other Drugs Policy).

7. Any (non-alcohol) drug-related violation of the University Alcohol and Other Drugs Policy (Alcohol and Other Drugs Policy).

8. Actual or Attempted: (a) theft of the property of the University or others, and/or (b) damage to the property of the University or others.

9. Unauthorized use or misuse of or entry into property or facilities.

10. Misuse of University computers and computing systems, including copyright infringement violations, as specified in the Computer Use Policies.

11. Fraud; misrepresentation; forgery; falsification or misuse of documents, records or identification cards; or intentionally providing incomplete information in connection with an investigation into alleged policy infractions.

12. Non-cooperation with any part of the process related to addressing student misconduct, including dishonesty or failure to comply with a directive of a conduct officer or body.
13. Failure to comply with any reasonable request of a University official acting within the scope of his/her/their duties.

14. Any act of intimidation or retaliation intended or likely to dissuade a reasonable person from making a complaint, furnishing information, or participating in a conduct process.

15. Complicity in misconduct. Students are expected to disengage themselves from all acts of misconduct, and are expected to report serious code violations to appropriate authorities.

16. Failure to take reasonable steps to prevent a guest from violating the code of conduct.

17. Behavior that negatively impacts the normal pursuit of academic, administrative, extracurricular or personal activities, or that violates any University policies or rules.

***

**If a weapon is discovered, Public Safety staff will confiscate it and turn the item over to the appropriate law enforcement agency. In cases where the term "weapon" is subject to interpretation, students are expected**

**Details of the above policies can be found at:**
http://www.rochester.edu/college/cscm/assets/pdf/standards_studentconduct.pdf

APPENDIX K

FORMAT/INSTRUCTIONAL METHOD

In-person: The majority of instruction occurs in-person, with no more than 30% of instruction delivered via distance technologies.

Hybrid: More than 30% but less than 80% of class is delivered via distance ed. Course requires attendance at location of instruction for purposes integral to completion of the class.

Online: Atleast 80% but less than 100% of class is delivered via distance ed. Course requires attendance at location of instruction for purposes integral to completion of the class.

Complete Online: 100% of class is delivered via distance ed. All class work, including exams, is online. No requirement for student to visit physical location of instruction.

Self-paced: 1) instructional materials electronically including exams, 2) Interaction between instructor and student is limited, not regular and primarily initiated by student.
